No absolutely do not resign. I'll/we'll be fine. Article today was a "huh?". Senator Kim will play politics. If not with this issue, then with another. We're making progress.

Re: Your voice mail

Ted... If there is anything I can do to help---including resigning from HiBEAM /H2E let me know.

If this is about EH or Kolohala not winning we could consider adding them to H2E. As you know HiBEAM is all volunteers and we applied in order to give the State options. It is not worth you getting bloodied if it has anything to do about me or HiBEAM.

Spoke with Rachel. Message is expect some political bumps. But nothing that relates to H2Energy. It's all about me -- and it's the exact same crew that went after me on the China trade missions. No change in the process of negotiating the contract. Gov and others are all aware and okay with what we have done and are doing.
