Subject FW: Hydrogen Fund letter to DBEDT

History:

This message has been forwarded.

Ted ... Many of the HiBEAM and Sennet Board members have been discussing what if any response we should make to the Hydrogen Fund issues. I have talked with lawyers, PR types (Kitty), and Patrick Sullivan who has faced these RFP issues both at a federal and state level.

The opinions range from "let's go to war", to "let's cut and run". Universally the feeling is we can't stay silent and we need to defend our reputations. I think this will not go away---this will, along with the Superferry will be the poster children for getting the Governor.

I have DRAFTED the enclosed letter to you. I have only shared it with Virginia---not Rachel, not Kenton, etc.

If you approve or suggest modifications then I will send it to Rachel and the HiBEAM Board and Kenton and Richard Lim at Sennet. HiBEAM will be pleased---Sennet will be disappointed but we will smooth that over. If they agree we will send it officially by snail mail to you and then may send it to the press.

Please give me your feedback and opinion as soon as possible.

Best

Barry (my cell:392.6975) DRAFT-H2E Response to Hydrogen Fund issues.Rev 1.doc
