Dear Representative

My Name is Steve Rosoff MD. I work/own
a clinic on the North Shore of Kawai. I am 35.

I am in strong support of HB 3175.

Insurance companies pay us \$46 when we charge

\$100. It is unfair. I want to vote with

my actions as should be allowed in a
democratic & capitalism-based society and break my

contract with the insurers who pay so

poorly. But I can't. Because, if I do

patients will have less access to care.

They will not see me for \$100. They will,

however, pay the "copay" of the difference between

what their insurer pays and what I bill. It is

an unfair system. Understand this, without reform, we will
stop accepting insurance and possibly close our doors = health care access crisis.
