

HB3269 RELATING TO TRANSPORTATION

FEBRUARY 11, 2008 9:00 A.M. ROOM 309

**ATTENTION: HOUSE TRANSPORTATION COMMITTEE
CHAIR JOSEPH SOUKI; VICE CHAIR SCOTT NISHIMOTO
AND COMMITTEE MEMBERS**

IN STRONG SUPPORT OF HB3269 by Tom Berg

Please accept this testimony in strong support of **HB3269** that would have the counties prepared for future growth and needs to house and dispose of abandoned vehicles.

Under no circumstances, should a tow truck authorized to remove abandoned vehicles abort their mission due to the fact that the "yard" is full and at capacity. For every day that these eyesores are on the landscape due to a shortage of storage space being exceeded, is a day that does not have to happen if this bill passes.

Please set the stage to have our counties prepared for expanding the land mass to accommodate such needs when the time comes...**HB3269** is a bill for government to be ahead of the game and ready to combat the ongoing war to remove abandoned vehicles from our neighborhoods.

Thank you for the opportunity to testify and request passage of **HB3269**.
