The Honorable Suzanne Chun Oakland, Chair
Senate Committee on Human Services and Housing
and
The Honorable Lorraine R. Inouye, Chair
Senate Committee on Intergovernmental and Military Affairs
Twenty-Fourth Legislature
State Capitol
State of Hawaii
Honolulu, Hawaii 96813

Dear Senators Chun Oakland and Inouye and Members of the Committees:

SUBJECT: SB 2107 – RELATING TO DISASTER PREPAREDNESS
SB 2351 – RELATING TO EMERGENCY PREPAREDNESS

The position and views expressed in this testimony do not represent nor reflect the position and views of the Department of Health (DOH) and Department of Defense (DOD).

The State Council on Developmental Disabilities **SUPPORTS THE INTENT OF SB 2107 and SB 2351**. The purpose of SB 2107 is to establish a disaster planning and preparedness consumer advisory board within DOH to review existing and develop new policies and plans that address the needs of the elderly and disabled members of the community in the event of a man-made or natural disaster. The purpose of SB 2351 is to establish a statewide task force within the Civil Defense Division (CDD) of DOD to advise CDD of the needs of individuals with disabilities and special health needs.

In October 2005, an Interagency Workgroup was convened by the Disability and Communication Access Board (DCAB) to develop an interagency action plan for the emergency preparedness of individuals with disabilities and special health needs (see attached for the membership of the workgroup). The workgroup consists of representation from agencies representing persons with disabilities, community agencies, County and State agencies. The Council is a member of the workgroup.

Over the last two years, the workgroup has revised the action plan to reflect emerging issues relating to emergency preparedness, notification and sheltering in place. Other issues addressed are infrastructure and recovery and long-term support.

The Honorable Suzanne Chun Oakland
The Honorable Lorraine R. Inouye

The Council appreciates the Legislature's initiative to establish a consumer advisory board to review existing policies and develop new policies regarding emergency and disaster planning. We strongly believe participation of individuals with disabilities and agencies representing them are critical to policy development, implementation and monitoring in emergency preparedness.

With all due respect for the intent of SB 2107 and SB 2351, and in consideration of what the Interagency Workgroup is doing, we feel these bills are not necessary. The Council suggests for your consideration, that rather than provide an appropriation to establish a consumer advisory board and a statewide emergency planning task force, the Legislature provide an appropriation to DOD or to DCAB to enhance the work of the existing Interagency Workgroup. We believe it is appropriate for the workgroup to address the intent of both bills with fiscal support.

Thank you for the opportunity to submit testimony supporting the intent of SB 2107 and SB 2351, and to offer suggestions on both bills.

Sincerely,

Waynette K. Y. Cabral
Executive Administrator

TESTIMONY TO THE SENATE COMMITTEES ON HUMAN SERVICES AND PUBLIC HOUSING AND INTERGOVERNMENTAL AND MILITARY AFFAIRS

Senate Bill 2107 - Relating to Disaster Preparedness and
Senate Bill 2351 - Relating to Emergency Preparedness

The Disability and Communication Access Board (DCAB) appreciates the intent of the Legislature to address the very important issue of disaster preparedness for people with disabilities and special health needs. Since our testimony on both bills are the same, we are using one testimony to address both bills. While we appreciate the intent, we do not believe either bill is necessary.

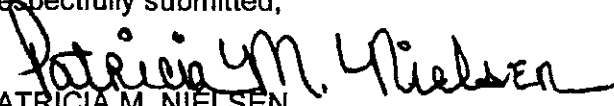

Senate Bill 2107 proposes to establish a disaster planning and preparedness consumer advisory board attached to the Department of Health, and Senate Bill 2351 proposes to establish a statewide emergency planning task force attached to State Civil Defense to advise civil defense agencies on the needs of the people who are elderly or disabled community members in the event of a manmade or natural disaster. Both bills make an unspecified appropriation.

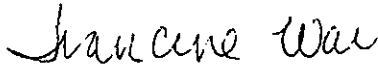

Our office has staffed and coordinated an Interagency Working Group that has produced an Interagency Action Plan for the Emergency Preparedness of People with Disabilities and Special Health Needs. This group includes representatives from state and county agencies as active participants, as well as representatives from key disability organizations. We conducted five statewide forums to obtain input from over 200 people in the community to assist in policy and program development through this planning process. Tremendous progress has been made in this area of bringing people to the table to provide advice and guidance on this very important issue.

As such, we feel that a statutory requirement is not only unnecessary but makes the process more cumbersome than needed. Currently, any agency serving people who are elderly or who have disabilities or any disaster response entity desiring active participation has been welcome. This has allowed flexibility to expand the Working Group as needed when new issues arise. If the Legislature would like to enhance the progress of the Working Group, we would most certainly welcome an appropriation to assist us, as additional funds would allow us to move faster in our efforts, as DCAB is currently re-directing time from its only Planner/ADA Coordinator position to work on this Plan. However, we much prefer that the Legislature direct monies to fund some of the activities recommended in the Plan, including shelter expansion, additional equipment, outreach campaigns, shelter-in-place efforts, and communications enhancement.

Thank you for the opportunity to testify.

Respectfully submitted,

PATRICIA M. NIELSEN

TESTIMONY ON SENATE BILL 2107
A BILL RELATING TO DISASTER PREPAREDNESS

PRESENTATION TO THE
COMMITTEE ON HUMAN SERVICES AND PUBLIC HOUSING

AND

COMMITTEE ON INTERGOVERNMENTAL AND MILITARY AFFAIRS

BY

MAJOR GENERAL ROBERT G. F. LEE
DIRECTOR OF CIVIL DEFENSE

February 11, 2008

Chair Chun Oakland, Chair Inouye and Committee Members:

I am Major General Bob Lee, Director of Civil Defense, State Department of Defense. We support the intent of Senate Bill 2107 so long as it does not replace or adversely impact priorities as indicated in the Executive Supplemental Budget Request.

In the last two years we have made significant progress in disaster planning and preparedness for our special health needs population groups. This achievement is the result of interagency planning and coordination involving those agencies named in the proposed bill including others that are not. Still much work remains to be done to build our emergency preparedness capabilities to support the vulnerable.

With respect to the intent of this proposed bill, I recommend that Section 2 (a) be amended to place the consumer advisory board within the Department of Defense. I further recommend that Section 3 be amended to reflect that the Department of Defense should be the expending agency for any funds appropriated. It appears awkward to establish a board for the purpose of advising the State and county civil defense agencies to be under the purview of the Department of Health.

Thank you for the opportunity to provide testimony. Are there any questions?

Senator Les Ihara, Jr., Vice Chair

COMMITTEE ON INTERGOVERNMENTAL AND MILITARY AFFAIRS

Senator Lorraine R. Inouye, Chair

Senator Shan S. Tsutsui, Vice Chair

NOTICE OF HEARING

DATE: Monday, February 11, 2008

TIME: 1:15 p.m.

PLACE: Conference Room 229

State Capitol

415 South Beretania Street

A G E N D A

SB 2107

Testimony

Status RELATING TO DISASTER PREPAREDNESS.

Establishes a disaster planning and preparedness consumer advisory board to review existing and develop new policies and plans that address the needs of the elderly and disabled members of the community in the event of a man-made or natural disaster. Makes an appropriation. HSP/IGM, WAM

SB 2351

Testimony

Status RELATING TO EMERGENCY PREPAREDNESS.

Establishes a statewide task force to advise the Civil Defense Division of the state Department of Defense on the needs of individuals with disabilities and special health needs. HSP/IGM, WAM

It is so important that these bills pass so the state can effectively provide the necessary supports to include people with disabilities into emergency preparedness planning. The Civil Defense Departments on each island have their own unique challenges relating to emergencies. Their expertise is dealing with the "masses" so we need to make sure the masses include people who are elderly and people who have disabilities because they are our family members and we don't want to be separated from our most vulnerable family members at a time of emergency.

We want to be secure and proud that in the State of Hawaii our Civil Defense agencies, island-wide, are prepared to deal with people of all ages and all abilities during a natural disaster or an emergency. Both the above Bills will assist the Civil Defense in providing the people across our state with a more effective plan for emergencies. Please support SB 2107 & 2351.

Thank you for your time and consideration,
cp
