Testimony of Scotty Furushima for SB 2487, SD1

Dear Mr, Chair and Members of WTL Committee

I am testifying in support of this bill. However, I would like to expand this concept to all public lands to promote more youth education activities throughout our State and in addition to the present changes I ask that you also add the following.

Please amend the bill by adding an amendment to Section 206E-14 to also allow HCDA to sell or lease lands under their control to eleemosynary organizations for youth educational activities including but not limited to fishing, ocean and marine conservation. The HCDA lands may not be affected by this bill.

Thank you very much,

Scotty Furushima
