WRITTEN TESTIMONY ONLY

TESTIMONY ON SENATE BILL NO. 3031, RELATING TO DISPENSING OPTICIANS.

TO THE HONORABLE RUSSELL S. KOKUBUN, CHAIR,
AND MEMBERS OF THE COMMITTEE:

My name is Candace Ito, Executive Officer for the Dispensing Opticians Program in the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs ("Department"). Thank you for the opportunity to present **written testimony** in support of Senate Bill No. 3031, which is an administration bill, relating to Dispensing Opticians.

The purpose of this bill is to clarify the Regulated Industries Complaints Office's ("RICO") ability to investigate and prosecute cases involving the sale of non-corrective contact lenses. Currently, the Food and Drug Administration ("FDA") regulates all

contact lenses, including decorative, non-corrective lenses, as medical devices under the federal Food, Drug, and Cosmetic Act ("Act"). The FDA considers the dispensing of decorative contact lenses without a prescription and without a fitting by a qualified eye care professional to be a violation of the Act.

Senate Bill No. 3031 is consistent with the Act in that it provides protection for consumers by clarifying that decorative, non-corrective contact lenses shall be dispensed and fitted upon a written prescription by licensed dispensing opticians, and authorizes RICO to take action against unlicensed sellers of such contact lenses. We therefore ask for your favorable consideration to pass Senate Bill No. 3031 out of this committee.

Thank you for this opportunity to testify on Senate Bill No. 3031.

REGULAR SESSION, 2008

TESTIMONY ON SENATE BILL NO. 3031 – RELATING TO DISPENSING OPTICIANS

TO THE HONORABLE RUSSELL S. KOKUBUN, CHAIR,
AND TO THE HONORABLE DAVID Y. IGE, VICE-CHAIR,
AND MEMBERS OF THE COMMITTEE:

The Department of Commerce and Consumer Affairs ("Department") appreciates the opportunity to testify regarding Senate Bill No. 3031, Relating To Dispensing Opticians. The Department is in strong support of this Administration bill. My name is Jo Ann Uchida of the Department's Regulated Industries Complaints Office ("RICO").

Senate Bill No. 3031 seeks to clarify the Department's ability to investigate and prosecute cases involving the sale of non-corrective contact lenses. Under the federal Food, Drug, and Cosmetic Act ("Act"), the Food and Drug Administration ("FDA") now regulates contact lenses, including decorative, non-corrective lenses, as medical devices instead of as cosmetic devices. The FDA's enforcement efforts focus primarily on the devices themselves and include premarket approval, inspections of distribution

centers, detention of products that do not comply with premarket device requirements, and warnings to firms selling decorative contact lenses without valid prescriptions or proper labeling.

On the state level, however, RICO continues to receive reports concerning the sale of non-corrective contact lenses at swap meets and other inappropriate venues, particularly at Halloween. Senate Bill No. 3031 amends the dispensing optician law to complement the federal law and specifically authorizes RICO to take action in the event an unlicensed person tries to sell decorative, non-corrective contact lenses.

Thank you for this opportunity to testify on Senate Bill No. 3031. I will be happy to answer any questions that the members of the Committee may have.

**PRESENTATION OF THE
BOARD OF EXAMINERS IN OPTOMETRY**

TO THE SENATE COMMITTEE ON COMMERCE,

WRITTEN TESTIMONY ONLY

**TESTIMONY ON SENATE BILL NO. 3031, RELATING TO DISPENSING
OPTICIANS.**

TO THE HONORABLE RUSSELL S. KOKUBUN, CHAIR,
AND MEMBERS OF THE COMMITTEE:

My name is Dr. Jon Ishihara, Chair of the Board of Examiners in Optometry ("Board"). The Board thanks you for the opportunity to present **written testimony** on Senate Bill No. 3031, Relating to Dispensing Opticians. The Board supports the Department of Commerce and Consumer Affairs' ("DCCA") administration bill.

The purpose of this bill is to clarify the DCCA's Regulated Industries Complaints Office's ("RICO") ability to investigate and prosecute cases involving the sale of non-corrective contact lenses. The federal Food, Drug and Cosmetic Act ("Act") of the Food and Drug Administration ("FDA") has classified all contact lens, including non-correction, colored, and decorative lenses as ophthalmic medical devices which requires a prescription in order to be dispensed or sold. The amendments proposed in H.B. 3109 will allow RICO to take appropriate

action against anyone who is not a licensed dispensing optician that sells such lenses without a valid prescription.

The Board requests the Committee's approval and passage of this measure. Thank you for the opportunity to testify on Senate Bill No. 3031.
