Conference Room 225, State Capitol

Dear Senators,

Please support this bill. As a public school librarian for 10 years, mother and farmer this very issue has long been of grave concern to me.

Conclusive evidence shows the adverse health effects of pesticide exposure especially to vulnerable populations such as children and the cumulative effects of exposure to farmworkers is reprehensible.

This bil is a step in mitigating those ongoing threats to the health of Hawai'i's people.
