**JOINT SENATE COMMITTEES ON ENERGY & ENVIRONMENT AND
TRANSPORTATION AND INTERNATIONAL AFFAIRS**

SB 3082, RELATING TO CRUISE SHIPS

**Testimony of Chiyome Leinaala Fukino, M.D.
Director of Health**

**February 20, 2008
2:00 p.m.**

1 **Department's Position:** This is an administration bill that is fully supported by the Department of
2 Health (Department).

3 **Fiscal Implications:** None

4 **Purpose and Justification:** This bill transfers the cruise ship air emission provisions from Hawaii
5 Revised Statutes (HRS), chapter 342D, Water Pollution, to HRS, chapter 342B, Air Pollution Control.

6 Currently, the cruise ship statutes contained in HRS, chapter 342D, Water Pollution, are all
7 inclusive addressing subject matters on both water pollution and air pollution. Since it is difficult and
8 cumbersome for the Department to enforce the air pollution requirements while located in the water
9 pollution statutes, this bill deletes the air provisions from HRS, chapter 342D, Water Pollution, and
10 incorporates them and any supporting provisions into HRS, chapter 342B, Air Pollution Control.

11 Thank you for this opportunity to testify on this bill.
