

OFFICE OF HAWAIIAN AFFAIRS
Legislative Testimony
SB6 RELATING TO OPIHI

House Committee on Water, Land, Ocean Resources & Hawaiian
Affairs

March 17, 2008
312

9:00 a.m.

Room

The Office of Hawaiian Affairs (OHA) **SUPPORTS** S.B. 6, which would prohibit the sale of all Hawaiian species of edible ŷopihi subject to an exemption for certain ŷopihi shells used to make jewelry.

OHA agrees with the finding that the number of Hawaiŷi's edible ŷopihi has declined dramatically. OHA appreciates that the legislature has taken such a responsible stance toward protecting some of Hawaiŷi's special natural and cultural resources from continued over-harvesting, while still providing access for subsistence users.

The State has a Constitutional responsibility to "conserve and protect Hawaii's natural beauty and all natural resources, including land, water, air, minerals and energy sources All public natural resources are held in trust by the State for the benefit of the people."
(Hawaiŷi State Constitution, Art. XI, Section 1).

The State also has a Constitutional responsibility to "protect all rights, customarily and traditionally exercised for subsistence, cultural and religious purposes" possessed by Hawaiians. (Hawai'i State Constitution, Art. XII, Section 2). This constitutional mandate has been reaffirmed by the Supreme Court of the State of Hawaiŷi in a series of landmark decisions which provide clarifications and outline a framework to effectuate this affirmative duty to protect these important Hawaiian rights.

This bill appropriately balances the needs of the people and of the sea, while such a balance can still be struck.

OHA urges the Committee to PASS S.B. 6. Thank you for the opportunity to provide testimony.

From: Jasmine Tanioka, General Manager
Date: March 12, 2008
Re: Opihi Bill Measure # SB6

On behalf of Tanioka's Seafoods and Catering, I would like to request that you reconsider SB6 regarding the sale of opihi. We are a retail store in Waipahu and opihi is one of the products we sell on a regular basis.

Thank you very much for your consideration. We truly appreciate your time and efforts.

This Testimony is in response to SB-6

No Opihi - Again!

Senator Clayton Hee has once again introduced a bill that prohibits the sale of edible Opihi. The Bill SB6 reads:

“The purpose of this measure is to prohibit the sale or offering for sale of all Hawaiian species of edible ‘opihi, except when the ‘opihi shell is at least one and one-fourth inches in diameter and is used to make a curio or jewelry”

The part of the Bill that doesn't make sense is that it states: ” except when the ‘opihi shell is at least one and one-fourth inches in diameter and is used to make a curio or jewelry” If conservation of the species is at stake, how do you remove the Opihi shell to make a curio or jewelry and not kill the Opihi?

SB6 was passed by Russell Kokubun, Jill Tokuda, and Clayton Hee. Sam Slom was the only one to oppose the bill.

Of course at first glance, part of this bill makes sense. You cannot find opihi in Waikiki, Ala Moana, or along any of our shoreline beaches, So one might think, its on the verge of extinction. A little research will tell you that opihi thrive where the waves are pounding against the rocks, this area is called the “spray zone”, opihi also like to be up to 10 feet underwater. Now, how many of us are willing to go out in the pounding surf and dive down 10 feet to scrape opihi off the rock? Not Me!

The real ‘opihi pickers go off island to their secret spots to pick the ‘opihi that is brought to market. These guys bring in 1000's of pounds during the year, the problems they face every day are rough surf and weather conditions. Another problem facing the industry is lack of pickers. Opihi pickers are a dying breed.

Here are a few paragraphs from Marine science writer Susan Scott, who has been writing a weekly column, "Ocean Watch," for the Honolulu Star-Bulletin since 1987.

“Opihi can be found in abundance at La Perouse Pinnacles in French Frigate Shoals.”

“Opihi are capable of spawning throughout the year, but most often release eggs and sperm into the water from November to June, when seawater is the coolest. After a few days in the ocean, the baby Opihi find and stick to a home rock. Then snails spend their entire lives, about a year, grazing that particular area.”

“Compared with the growth rates of limpets in other parts of the world, opihi grow extremely rapidly. The snails reach sexual maturity when the shell diameter is just under an inch, usually after a few months.”

(SusanScott.net Ocean Watch Monday July 15, 1996)

An outright ban is unnecessary! What has proven to work is conservation.

Instead of an outright ban, we should have pockets of “no picking” areas. This would allow the sedentary opihi to send their eggs out to populate other areas of the island.

We may even need to “seed” these no picking areas. Next time a Marine Biologist team goes out to the La Perouse Pinnacles in French Frigate Shoals, have them gather a few hundred pounds and distribute them among the “no picking” zones.

Instead of an outright ban, we should make opihi picking a seasonal activity. “Opihi picking season closed November thru February” Spawning occurs mainly in December and January for Opihi Makaiauli and Opihi Alinilina (Hawaii’s Comprehensive Wildlife Strategy - www.hawaii.gov/dlnr/dar/pubs/sawcs/mi_limpets.pdf)

Thank you for the opportunity to express my opinion.

Got OPIHI?

The Opihi bill is back!!

Last year, through all your efforts, Governor Lingle vetoed the bill that would prohibit the sale of Opihi.

Well, the bill has been resubmitted and is making its way through the Legislature.

Please sign this petition to stop this bill from making its way through the house.

Thank You

Brian Yamamoto

OPIHI?

Governor Lingle has before her the bill that would outlaw the sale of locally picked Opihi.

The bill allows picking for individual consumption only. I don't know where or how to pick Opihi, that means I will not have access to any local Opihi.

Please sign this petition asking Governor Lingle to Veto the bill. I will fax this to Governor Lingle's office care of Linda Smith on Sunday June 25th 2006

Thank You

Brian Yamamoto
Yama's Fish Market

Attention
Linda Smith
SB2006

Fax 586-0006

Page 1 of 18

Thank You,

Brian Yamamoto
Yama's Fish Market

Governor Lingle please veto bill number SB2006 prohibiting the sale of locally picked Opihi.

Committee On Water, Land, Ocean Resources and Hawaiian Affairs

Date: Monday, March 17

Time: 9:00 am

Place: Conference Rm. 312

Representative Ken Ito, chair

Re: Senate Bill 6 Prohibiting the Selling of Opihi

Dear Mr. Ito and Committee Members:

Being located on the Waianae coast, the vast majority of our customers are of Hawaiian ancestry and we try to provide an array of foods that are unique to the Hawaiian culture. The opihi is one of these. Senate Bill 6, prohibiting the sale of opihi, will deny most of these people from enjoying this island delicacy. As one person stated, "how many guys you know pick opihi". It is just too dangerous and demanding a task to pick opihi for yourself.

During the course of gathering signatures for the petition, many thoughts and opinions were discussed about this bill. Will a ban on sales have that much of an impact on the harvesting of opihi? How effective will the policing of this ban be? Clearly the general consensus has been an opposition to this bill. Everyone agrees that as with many of our dwindling resources today, some form of conservation measure should be implemented to protect and perpetuate the opihi, but an outright ban is not the answer.

We strongly urge you and your committee to carefully consider all options and alternatives to avoid an outright ban on the sale of opihi.

Sincerely,

Boyd H Kaneshiro
Owner/Manager

Opposition to Senate Bill 6 prohibiting the selling of opihi

I am Guy Tamashiro of Tamashiro Market, Inc. and I am testifying in opposition to Senate Bill 6. Opihi is a local delicacy that is part of Hawaii's culinary culture. Senate Bill 6 proposes to prohibit the selling of opihi. By prohibiting its sale, the majority of Hawaii's people will never be able to enjoy it. Should the young and nimble be the only ones to be able to harvest and eat opihi? What about the rest of us? What about our kupuna?

It is not as short of supply as we have been hearing. We have found opihi to be available almost year-round.

This bill will create a "Black Market" that will go unreported (to the DLNR) and thereby make it difficult to manage this resource in the future.

This valuable resource and cultural delicacy must be studied and carefully managed, not shut down. There are other more reasonable and logical management tools such as area closures or seasonal closures. The establishment of a hatchery-based opihi stocking program, currently introduced as House Bill 2162, would be the best approach for opihi management.

To rob Hawaii's people of the tasty local treat forever without studying the resource and exploring various resource management tools is not doing the right thing.

We collected over 2716 signatures of Hawaii people who enjoy eating opihi and oppose the ban of opihi sales.

We strongly urge you to NOT pass this bill but encourage the study of the opihi situation and the best way to manage this precious resource so all of Hawaii can enjoy opihi.

Respectfully submitted,

Guy Tamashiro

WE WANT TO EAT HAWAIIAN OPIHI!
WE OPPOSE SENATE BILL 6 AND HOUSE BILL 2477 WHICH
PROPOSE TO BAN THE SALE OF LOCALLY PICKED OPIHI.
