# A BILL FOR AN ACT

RELATING TO MEDICAL MARIJUANA.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. In 2000, the legislature found that modern  
2 medical research had discovered a beneficial use for marijuana  
3 in treating or alleviating the pain or other symptoms associated  
4 with certain debilitating illnesses. However, to protect the  
5 health and welfare of individuals, the legislature also  
6 recognized the need to regulate enforcement of that use. As a  
7 result, regulation of the medical use of marijuana was enacted  
8 into law in 2000 in Act 228, Session Laws of Hawaii 2000, and  
9 codified in chapter 329, part IX, Hawaii Revised Statutes.

10           In response to the enactment of House Concurrent Resolution  
11 Number 152, H.D. 2, 2004, the Legislative Reference Bureau  
12 released Report No. 4, 2004 entitled "In Search of a Viable  
13 Distribution System for Hawaii's Medical Marijuana Program."  
14 The report states: "Hawaii's law, as written, does not allow a  
15 distribution system that can be realistically complied with by  
16 everyone. On the other hand, a practical distribution system  
17 would preclude many the ambiguities now facing local and state

1 agencies in distinguishing between legal and illegal marijuana  
2 use."

3 The purpose of this Act is to:

- 4 (1) Institute a viable intrastate cooperative cultivation  
5 and distribution system for Hawaii's medical marijuana  
6 program;
- 7 (2) Authorize patients and their primary caregivers who  
8 have received written certification to use registered  
9 secure growing facilities, and their certified  
10 facilitators, to grow an uninterrupted allotment of  
11 marijuana for medical use;
- 12 (3) Provide transparency to local law enforcement  
13 officers; and
- 14 (4) Provide protection for qualifying patients and their  
15 medication.

16 SECTION 2. Chapter 329, Hawaii Revised Statutes, is  
17 amended by adding a new section to part IX to be appropriately  
18 designated and to read as follows:

19 **"§329- Medical marijuana; secure growing facility;**  
20 **certified facilitators; marijuana distribution stamp; department**  
21 **to establish program; rules.** (a) An individual owner or an  
22 individual in control of agriculturally-zoned land may develop a

1 secure growing facility to provide a secure space for the  
2 cultivation of medical marijuana and may charge and receive rent  
3 from a certified facilitator for the lease of the secure growing  
4 facility. A secure growing facility shall accommodate the  
5 cultivation of a supply of medical marijuana for not more than  
6 fourteen qualifying patients and shall include a total of not  
7 more than ninety-eight marijuana plants. A secure growing  
8 facility shall be equipped with:

9       (1) Security technology that is capable of relaying live  
10       video and still images to local police stations for  
11       observation and recording, motion detectors;

12       (2) Security animals on patrol; and

13       (3) Two fences for a total fenced area not less than  
14       seventy-five feet by one hundred fifty feet.

15       (b) A qualifying patient shall be eligible to lease a plot  
16 within a secure growing facility for the cultivation of an  
17 adequate supply of marijuana for the qualifying patient's  
18 personal medical use.

19       (c) Each secure growing facility may have one or more  
20 certified facilitators. A certified facilitator shall assist  
21 qualifying patients who lease plots in a secure growing facility  
22 to determine the strains of medical marijuana needed and design

1 a growing system to establish a stock of healthy plants to  
2 ensure the production of an adequate supply of usable medical  
3 marijuana to meet the qualifying patient's medical needs. A  
4 certified facilitator may hold an amount of processed marijuana  
5 in a temporary surplus inventory that shall not exceed the  
6 statutory limit of marijuana permitted to a certified  
7 facilitator's registered qualifying patients. A certified  
8 facilitator shall be responsible for:

9 (1) All processing, including packaging, of marijuana for  
10 medical use to be distributed to a qualifying patient;

11 (2) Purchasing the permitted amount of marijuana tax  
12 stamps from the department of public safety on behalf  
13 of a qualifying patient; and

14 (3) Keeping accurate records with regard to the amount of  
15 marijuana distributed to a qualifying patient through  
16 the purchase of marijuana distribution stamps.

17 (d) A certified facilitator may charge a service fee. In  
18 addition to the service fee, a qualifying patient or the  
19 patient's primary caregiver shall pay the certified facilitator  
20 the necessary amounts to purchase marijuana distribution stamps  
21 based on the amount of processed marijuana for medical use for

1 distribution from the certified facilitator to the qualifying  
2 patient or primary caregiver.

3 (e) The department of public safety shall establish a  
4 program to register secure growing facilities, certify  
5 facilitators, and permit a qualifying patient to access  
6 marijuana for medical use from the patient's certified  
7 facilitator. The program shall use a marijuana distribution  
8 stamp system to monitor the distribution of processed marijuana  
9 to qualifying patients or primary caregivers to ensure receipt  
10 of an adequate amount of medical marijuana to meet qualifying  
11 patients' medical needs. The marijuana distribution stamp shall  
12 not exceed 50 cents per gram of marijuana for medical use for  
13 distribution to a qualifying patient. Amounts received from the  
14 purchase of marijuana distribution stamps shall be retained by  
15 the department of public safety in a marijuana distribution  
16 stamp account for the administration of the medical marijuana  
17 program.

18 (f) The director of public safety shall adopt rules in  
19 accordance with chapter 91 to carry out the purposes of this  
20 section."

21 SECTION 3. Section 329-121, Hawaii Revised Statutes, is

1           1. By adding six new definitions to be appropriately  
2 inserted and to read:

12 strains of marijuana for medical use by a qualifying patient.

13           "Distribution" means the transfer of marijuana from a

16 distributed. The number of plants in the temporary surplus  
17 inventory is included in the ninety-eight plant limit pursuant  
18 to this part."

6 the primary caregiver shall be a parent, guardian, or person  
7 having legal custody.

8 "Qualifying patient" or "patient" means a person who has  
9 been diagnosed by a physician as having a debilitating medical
