
A BILL FOR AN ACT

RELATING TO CHILDREN.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 **PART I**

2 SECTION 1. Research confirms the positive impact that an
3 abuse-free, stable, and nurturing environment has on a child's
4 physical and psychological development. Trauma, abuse, and
5 stress can negatively affect the development of children's
6 brains, which are approximately ninety per cent developed by age
7 three, and to a great extent children's earliest experiences
8 define their adult functional capacities. Statistics show a
9 strong correlation between childhood abuse and school failure,
10 delinquency, mental illness, drug and alcohol abuse, crime, and
11 homelessness.

12 The legislature finds that Hawaii's healthy start program
13 is designed to prevent child abuse and neglect and promotes
14 child development among high-risk infants and toddlers. The
15 healthy start program began as a demonstration child abuse
16 prevention project in July 1985, and was expanded to a statewide
17 program in 2001. Healthy Families America, a national program
18 model designed to help expectant and new parents provide a

1 healthy start for their children, drew largely from the
2 research, knowledge, and experience of Hawaii's healthy start
3 program.

4 The purpose of this Act is to appropriate general revenue
5 funds to the department of health and temporary assistance for
6 needy families funds to the department of human services for the
7 healthy start and the enhanced healthy start programs to hire a
8 child development or clinical specialist, fund provider
9 training, address budgetary shortfalls, and implement
10 recommended improvements.

11 **PART II**

12 SECTION 2. Support programs such as healthy start are
13 especially important during times of economic distress. The
14 Center for Law and Social Policy notes studies showing that
15 incidents of child abuse and neglect increase during financial
16 downturns. Healthy start is an important resource for
17 overburdened families to assist them with safe and successful
18 parenting. Parents unable to form bonds with their infants or
19 suffering with substance abuse issues, domestic violence,
20 depression, or financial difficulty, are invited to participate
21 in the program. Once enrolled, parents are offered practical
22 support in the form of food, clothing, and housing and

1 employment resources, as well as parenting support from social
2 workers and child development specialists. The loss of support
3 that the healthy start program offers high-risk families in such
4 critical times can lead to increased child abuse, social and
5 health problems, and loss of future human capital and
6 productivity.

7 SECTION 3. There is appropriated out of the general
8 revenues of the State of Hawaii the sum of \$7,740,000 or so much
9 thereof as may be necessary for fiscal year 2009-2010 and the
10 sum of \$7,740,000 or so much thereof as may be necessary for
11 fiscal year 2010-2011 to maintain the current support services
12 provided by the healthy start program.

13 The sums appropriated shall be expended by the department
14 of health for the purposes of sections 1 and 2 of this Act.

15 SECTION 4. There is appropriated out of temporary
16 assistance for needy families funds the sum of \$1,660,000 or so
17 much thereof as may be necessary for fiscal year 2009-2010 and
18 the sum of \$1,660,000 or so much thereof as may be necessary for
19 fiscal year 2010-2011 to maintain the current support services
20 provided by the healthy start program.

1 (4) Training development to keep providers abreast of
2 state-of-the art interventions.

3 Implementing these recommended program changes in
4 conjunction with the continuation of the healthy start program
5 will give Hawaii's children their best opportunity to thrive and
6 grow into well-adjusted, successful adults.

7 SECTION 6. There is appropriated from temporary assistance
8 for needy families funds the sum of \$3,800,000 or so much
9 thereof as may be necessary for fiscal year 2009-2010 and the
10 same sum or so much thereof as may be necessary for fiscal year
11 2010-2011 to the department of human services for the enhanced
12 healthy start program to hire a child development specialist or
13 clinical specialist, and to train healthy start and enhanced
14 healthy start providers to continue delivering currently
15 provided services.

16 The sums appropriated shall be expended by the department
17 of human services for the purposes of section 5 of this Act.

18 **PART IV**

19 SECTION 7. This Act shall take effect on July 1, 2020.

Report Title:

Keiki Caucus; Healthy Start; Enhanced Healthy Start;
Appropriation

Description:

Appropriates Temporary Assistance for Needy Families funds and general revenue funds for the Healthy Start and Enhanced Healthy Start Programs, to maintain current services, to hire additional staff and for provider training. Effective 7/1/20. (SD1)
