
A BILL FOR AN ACT

RELATING TO RECREATIONAL RENAISSANCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature, together with the
2 administration, recognizes that extraordinary means must be
3 employed to catch up on deferred maintenance on parks, forests,
4 and ocean recreation facilities. With a one-time, substantial
5 upgrade to our parks, trails, and ocean recreation systems, the
6 State could go from being "reactive" - where failing facilities
7 absorb our time and attention - to "proactive". With new
8 facilities, the State can become forward looking and focus more
9 on the primary mission of serving the public.

10 At the same time, the legislature, together with the
11 administration, recognizes that it is not enough to do a one-
12 time upgrade, but that it is also necessary to put systems in
13 place to ensure that the facilities are maintained at a higher
14 standard. Keeping our parks, trails, and ocean recreation
15 facilities at world class levels requires more resources than
16 have been available in the past.

17 Small boat harbors and ocean recreational areas constitute
18 significant assets of the State. Their proper maintenance and

1 operation allow Hawaii residents to benefit from the State's
2 natural resources by engaging in recreational boating,
3 commercial and personal fishing, and small business operations.
4 In addition, visitors and residents alike use small boat harbors
5 and launch ramps to participate in local, regional, and
6 international yacht races, fishing tournaments, canoe regattas,
7 surfing, and other water sports.

8 The state parks and trails systems contribute to the
9 quality of the lives of our residents. Maintaining the natural
10 resources of the State will ensure that future generations will
11 continue to enjoy these assets. In addition, the legislature
12 further finds that a connection exists between Hawaii's state
13 park system and tourism. Tourists visit our islands each year
14 to enjoy our great outdoors, including the natural beauty and
15 the cultural treasures that comprise much of the state park
16 system. Residents and visitors heavily utilize these
17 facilities.

18 The recreational renaissance plan includes:

- 19 (1) A one-time \$240,000,000 upgrade to park and boating
20 facilities financed by \$40,000,000 in general
21 obligation bonds and \$200,000,000 in reimbursable
22 general obligation bonds;

- 1 (2) Additional fee increases to better support ongoing
2 operations and maintenance at boats and parks
3 (primarily for slips, boat ramp access, concessions,
4 and other commercial activities);
- 5 (3) Identification and development of specific state land
6 parcels to create a dedicated revenue source to pay
7 for the reimbursable general obligation bonds
8 issuance;
- 9 (4) Development of at least one hundred nineteen new acres
10 of light industrial space at Keehi lagoon as a long-
11 term source of revenue to support park and
12 conservation activities at the department of land and
13 natural resources. The legislature finds that the
14 man-made, triangle-shaped island more than doubles the
15 size of Ala Moana beach park situated in the center of
16 Keehi lagoon and may serve as a center of economic and
17 recreational activity if properly developed.

18 The purpose of this Act is to provide the funding and the
19 policy tools to enable the department of land and natural
20 resources to upgrade and maintain the state parks, trails, and
21 ocean recreational facilities at world class levels and to
22 protect the precious natural resources of the State.

1 SECTION 2. Chapter 171, Hawaii Revised Statutes, is
2 amended by adding a new section to be appropriately designated
3 and to read as follows:

4 "§171- Establishment of recreational renaissance special
5 fund. (a) There is established in the department a special
6 fund to be designated the recreational renaissance special fund.
7 The fund shall be administered by the department. The following
8 shall be deposited into the recreational renaissance special
9 fund:

- 10 (1) Appropriations by the legislature;
11 (2) Moneys from public or private sources dedicated toward
12 recreational areas and facilities designated by the
13 chairperson to be part of the department's
14 recreational renaissance program, as long as those
15 moneys are not currently going to the general fund;
16 and
17 (3) Moneys derived from interest, dividends, proceeds from
18 sales, rents from leases, licenses, and permits, or
19 other income from other sources generated from
20 recreational areas and facilities designated by the
21 chairperson to be part of the department's
22 recreational renaissance program.

1 The department, through its chairperson, may also at its
2 discretion deposit moneys from other special funds of the
3 department notwithstanding any law to the contrary, provided
4 that the expenditures shall be consistent with the purposes of
5 the special fund from which the moneys were transferred.

6 (b) The department may expend moneys from the recreational
7 renaissance special fund for the recreational renaissance
8 program related to:

9 (1) Information technology to support the recreational
10 renaissance program;

11 (2) Payment of principal and interest due on reimbursable
12 general obligation bonds;

13 (3) Planning, design, and construction not limited to
14 repairs, replacement, additions, demolitions,
15 entitlements, mitigation, and extensions of new and
16 existing facilities, if necessary;

17 (4) Operation and maintenance costs of the recreational
18 renaissance program of the department; and

19 (5) Land acquisition and related costs.

20 (c) Moneys on balance in the recreational renaissance
21 special fund at the close of each fiscal year shall remain in
22 the fund."

1 SECTION 3. Chapter 206J, Hawaii Revised Statutes, is
2 amended by adding a new section to be designated and to read as
3 follows:

5 resources for Keehi small boat harbor and triangle island.

6 Consistent with its general powers under this chapter, the
7 development corporation shall undertake projects including but
8 not limited to development of infrastructure, demolition, as
9 necessary, and expansion of facilities and acquisition of lands
10 for Keehi small boat harbor and triangle island, which are under
11 the jurisdiction of the department of land and natural
12 resources. Notwithstanding any provision in section 206J-17 to
13 the contrary, payments to the development corporation for its
14 administrative and operational expenses shall be made by the
15 department of land and natural resources and deposited into the
16 Aloha Tower fund in a subaccount designated for projects related
17 to Keehi small boat harbor and triangle island. The department
18 of land and natural resources shall delegate to the development
19 corporation the implementation of projects related to Keehi
20 small boat harbor and triangle island. All projects, prior to
21 implementation by the development corporation, shall be approved
22 by the chairperson of the board of land and natural resources

1 and the governor. After approval by the chairperson of the
2 board of land and natural resources and the governor, the
3 expending authority for the approved projects shall be delegated
4 to the development corporation."

5 SECTION 4. Section 171-132, Hawaii Revised Statutes, is
6 amended to read as follows:

7 "§171-132 Designation of industrial park. A contiguous
8 area of not less than five acres of public lands which is
9 classified or otherwise determined by the board as suitable and
10 economically feasible for industrial use may be designated as an

19 SECTION 5. Section 171-135, Hawaii Revised Statutes, is
20 amended to read as follows:

22 industrial park may be developed under section 171-134 by the

1 department in partnership or under a development agreement with
2 a federal agency, county, or private party subject to a

13 activities which are also the principal habitation of the owners
14 shall occupy no more than one hundred twenty-nine berths at Ala
15 Wai boat harbor and thirty-five berths at Keehi boat harbor,
