# SENATE CONCURRENT RESOLUTION

SUPPORTING THE HEALTH CARE COMMUNITY'S EFFORTS TO OBTAIN FEDERAL  
FUNDING FOR HEALTH INFORMATION TECHNOLOGY GRANTS.

1 WHEREAS, Hawaii is becoming a national leader in the field  
2 of health care technology as evidenced by recent innovations in  
3 online care and electronic medical records; and  
4

5 WHEREAS, the State's unique geographic location  
6 necessitates that cutting edge ideas and technologies are  
7 fostered to help overcome issues regarding access to medical  
8 care especially for disadvantaged and disabled populations and  
9 those residing in rural areas; and  
10

11 WHEREAS, the real-time sharing of comprehensive patient  
12 centered medical information between consumers and providers  
13 will decrease medical errors, enhance adherence to best practice  
14 guideline, and advance improvements in quality health care; and  
15

16 WHEREAS, establishment and development of health  
17 information exchanges within the United States has become  
18 increasingly significant, reflecting the changing role that  
19 emerging information technology plays in the way government and  
20 businesses operate; and  
21

22 WHEREAS, establishment and development of health  
23 information exchanges within the United States has become  
24 increasingly necessary in times of national and local disasters,  
25 such as Hurricane Katrina; and  
26

27 WHEREAS, the American Recovery and Reinvestment Act of 2009  
28 contains funding opportunities for states to improve  
29 infrastructure related to medical technology specifically for  
30 creating a health information exchange and promoting of the use  
31 of electronic medical records; and  
32

1 WHEREAS, funding under this Act will support the growth and  
2 expansion of the use of health information technology through a  
3 public-private partnership between all interested health care  
4 stakeholders to build a statewide network for the people of  
5 Hawaii; and  
6

7 WHEREAS, this partnership will include the Legislature and  
8 the appropriate state agency responsible for designating an  
9 entity to be considered a "state designated entity" in order to  
10 qualify to receive funding under the federal act; and  
11

12 WHEREAS, stakeholders in the community are already  
13 mobilizing so that Hawaii can be one of the first states to  
14 apply for federal health information technology grant funding;  
15 now, therefore,  
16

17 BE IT RESOLVED by the Senate of the Twenty-fifth  
18 Legislature of the State of Hawaii, Regular Session of 2009, the  
19 House of Representatives concurring, that the Legislature urges  
20 appropriate state departments, the health care community, and  
21 the technology community to work together to ensure that Hawaii  
22 is able to rapidly respond and qualify for grant monies offered  
23 in the American Recovery and Reinvestment Act of 2009 for health  
24 care technology; and  
25

26 BE IT FURTHER RESOLVED that these efforts be undertaken  
27 with guidance from Hawaii's congressional delegation so as to be  
28 as effective as possible in securing these funds; and  
29

30 BE IT FURTHER RESOLVED that certified copies of this  
31 Concurrent Resolution be transmitted to the Governor, Hawaii's  
32 congressional delegation, the state Director of Health, the  
33 state Director of Human Services, each health plan in the State  
34 that issues health insurance policies, all public and private  
35 hospitals operating in the State, the Hawaii Broadband Task  
36 Force, the Hawaii Telehealth Collaborative, the Hawaii Health  
37 Information Exchange, all Federally Qualified Health Centers,  
38 and the Hawaii Medical Association.  
39  
40  
41
