Part I

The purpose of this informational briefing is to obtain information regarding potential impacts on the community resulting from anticipated operational changes at the Kulani Correctional Facility, a 160-bed minimum-security prison that incorporates vocational training and specialized programming for male inmates nearing the end of their sentences. These changes would come as the result of Governor Linda Lingle's announced intention to reduce staffing and possibly close the facility.

Part II

The purpose of this informational briefing is to gather information relating to the potential impacts on the community and agricultural industry on the Big Island of Hawai'i, arising from the anticipated reduction and possible elimination of the plant quarantine branch on the Big Island. The reduction of station staffing and the consequent potential elimination of the branch would come as the result of Governor Linda Lingle's announced intention to lay off branch staff.

If you require special assistance or auxiliary aids and/or services to participate in the informational briefing (i.e., sign language interpreter or wheelchair accessibility), please contact the Committee Clerk at **808-586-6760** to make a request for arrangements at least 24 hours prior to the briefing. Prompt requests help to ensure the availability of qualified individuals and appropriate accommodations.
