[Senate Concurrent Resolution No. 132, SD1](#), established a task force to determine the value of the construction industry in Hawaii, including both the direct contributions of the industry to the local economy and the industry's economic benefits through other industries, such as tourism and housing. The task force is also charged to develop and propose state actions, for the purpose of preserving and creating new jobs in the local construction industry, that should include but are not limited to incentives for the renovation or construction of hotels and other tourism-related facilities, and to determine the anticipated impact of those actions on the State's economy.

The Task Force will meet to address the purposes of Senate Concurrent Resolution No. 132, SD1.
