**RE: HOUSE BILL 1279 RELATING TO WORKERS' COMPENSATION**

Chair Oshiro, Vice-Chair Lee and Members of the Committee:

The Maui Chamber of Commerce, a business organization with who mission it is to advance and promote a healthy economic environment for business, advocating for responsive government and quality education, while preserving Maui's unique community characteristics, strongly opposes this bill and asks that you do the same.

We are a membership driven organization comprised of over 900 members, 88% of which are small businesses with fewer than 25 employees, representing nearly 21,000 employees. We oppose this bill which requires the employer to continue medical services to an injured employee, despite disputes over whether treatment should be continued, until the director of labor and industrial relations decides whether treatment should be continued.

The Chamber OPPOSES this measure because the passage of this bill may cause unreasonable and unnecessary treatment for non-related work injuries and prolong time off the job, even if the employee is deemed able to return to his or her work.

This bill will lead to an increase in the overall cost of doing business, something none of us can afford right now. Instead, we should further legislation that reduces costs and helps local businesses thrive, so that revenue is generated and jobs can be saved and created.

Therefore, we respectfully request that HB 1279 be held.

Sincerely,

Pamela Tumpap  
President

Agenda #3

Re: HB 1279 HD1

Chair Oshiro, Vice Chair Lee and Members of the Committee:

I am Gordon Kagawa, President of Occidental Underwriters of Hawaii, a locally owned insurance agency. My contact information by email is gkagawa@askoxy.com. I respectfully request that you do not pass HB 1279 HD 1 relating to Workers' Compensation.

This measure requires the employer to continue medical services to an employee despite disputes over whether treatment should be continued, until the director of labor and industrial relations decides whether treatment should be continued.

Although I understand the intent of the bill, I believe this bill may serve as a disincentive to return to work, which will be counterproductive to its actual purpose.

This measure, if passed, may increase my workers' compensation premiums and the overall cost of doing business, a time when my business and the community cannot afford to undertake.

If you have any questions, please do not hesitate to contact me. Thank you for the opportunity to submit written testimony.
