Re: HB1463

As a regular driver on H-1 and Waianae Coast's Farrington Highway, I am definitely in support of Representative Karen Awaná's request for a highway patrol. Our current police officers have too many other duties to do the same kind of job that California, Washington and other states' Highway Patrol do. Television has shown how a highway patrol with traffic as their only responsibility can help with safety on our highways. Hawaii needs and deserves the same. Malolo.
