Administrator

Aloha, Chair Hee, Vice Chair Tokuda and members of the Committee on Water, Land, Agriculture, and Hawaiian Affairs. I am Clyde Namu'o, the Administrator of the Office of Hawaiian Affairs. OHA is in strong support to the passage of House Bill 900, HD2 and I am pleased to be able to provide an update on OHA's FB 09-11 budget and some of the programs it provides.

OHA was requested, at the joint WAM/FIN budget briefing meeting of January 6, 2009, to provide information on how it would reduce its general funds budget by 10%, 15%, and 20%. The OHA Board of Trustees approved these potential budget reductions at its February 5, 2009 meeting, and HB900, HD2 reflects a 20% reduction to our original budget request.

## Introduction

In general terms the current economic and fiscal conditions affect OHA operations in a number of ways including:

1. The economic downturn has resulted in increased demand for Native Hawaiian services and assistance. The number of inquiries from beneficiaries has increased by 26% in calendar year 2008 over 2007.
2. Trust funds available to OHA will decrease due to under performance of its investment portfolio as a result of the volatile stock market.
3. Continued legal challenges that could seriously impact Native Hawaiians have and will continue to require financial resources that could otherwise be used to address the increased demand for Native Hawaiian services and assistance.
4. State budget cuts will reduce services and programs that support low to moderate income individuals including OHA beneficiaries. As seen in the past these beneficiaries or the organizations serving beneficiaries often turn to OHA to make up this reduction in funding of services.

OHA received \$3,087,075 in general legislative funds in FY2009 to provide much needed services and assistance to Native Hawaiians. Approximately \$1.94 million of the general legislative appropriation amount is paid to service providers for the delivery of direct services. The legislative funding includes the following three areas of beneficiary programs or services:

1. Social services to office of Hawaiian affairs beneficiaries to include information and referral services, case management and counseling, establishment of individual development accounts, financial literacy, and financial assistance. Referral services include those relating to education assistance, employment and income security, individual and family care, health needs,

# LATE TESTIMONY

housing, legal services, genealogy research, business assistance, and general information.

2. Legal services and legal representation to office of Hawaiian affairs beneficiaries for: the assertion and defense of quiet title actions; assistance with ahupua`a and kuleana tenant rights, including rights of access and rights to water, land title assistance, including review of title and genealogy, preservation of traditional and customary practices, protection of culturally significant places, and preservation of Native Hawaiian land trust entitlements.
3. Educational enrichment programs for Native Hawaiian children in grades K through 12 throughout the State. Program activities are to be designed to optimize learning for Hawaiian students and are intended to develop a stronger interest in learning, connect learning and education to one's Hawaiian identity, and explore possible educational, career and academic goals the students may not have considered.

Approximately \$1.15 million of the legislative funding is used for personnel and administrative costs to implement the three beneficiary services programs and a number of other services and programs that allow OHA to advocate for and provide services to Hawaiians. Pursuant to Chapter 10-3, HRS, as amended, the purpose of OHA is for the betterment of condition of native Hawaiians and Hawaiians. The use of trust funds is limited to native Hawaiians and legislative funding is critical as it allows OHA to provide support and assistance to Hawaiians in fulfillment of Chapter 10.

To address the increased demand for services OHA would like to maintain its legislative appropriation at the FY2009 level of \$3,087,075 but understands current economic conditions require all departments to make spending reductions and the OHA Board of Trustees approved a 20% budget reduction at its February 5, 2009 meeting.

OHA recognizes the need for prudent spending during times of poor economic conditions and has identified the following areas to reduce administrative costs:

1. Reduce rent expense by moving the HLID office into the main office and incorporating new programs such as PTAC into existing main office space.
2. Reduce personnel expense through careful review of the need for vacated positions. To-date five positions have been vacated through attrition in FY2009.
3. Reduce fees paid to service providers through the review of existing contracts and the identification of areas where reduction of fees are possible. As an example OHA has reduced its annual investment custodian fees by \$150,000.

# LATE TESTIMONY

4. Reduce program expenditures through the leveraging of funds by partnering with other State and Federal agencies to include:
  - Native Hawaiian Revolving Loan Fund in the amount of \$24,000,000 which is 60% Administration for Native Americans (ANA) and 40% OHA funded. The program was revamped in late 2007 to better meet the needs of our beneficiaries.
  - Procurement Technical Assistance Center (PTAC) in the amount of \$600,000 which is 50% Defense Logistics Agency, DOD, 33% OHA, and 12% partner organization funded.
  - Halawa-Luluku Interpretive Development Project in the amount of \$440,000 with 100% of the funding received from the Department of Transportation.
  - Continue to seek outside funding to leverage OHA funds when awarding grants.

## Organizational Chart

The OHA organization chart can be found as attachment 1.

## Department Functions

Within the context of Article XII of the State Constitution and Chapter 10 of the HRS, the BOT establishes and revises as necessary the mission, long-term goals, short-term objectives and priorities for the Office of Hawaiian Affairs.

The BOT is responsible for carrying out the overall constitutional and statutory responsibilities of OHA; to establish the policies and objectives that will be pursued in furtherance of constitutional and legislative mandates; and to work for the betterment of all Hawaiians.

OHA Trustees approved ten (10) goals of the OHA strategic Plan on January 10, 2002. The Strategic Plan was subsequently updated for FY-2006 through FY-2011. The updated Plan was approved by the OHA Trustees on August 5, 2005. The agency vision and mission have remained consistent while the goals and objectives have been updated to reflect progress as well as beneficiary priorities. While the goal benchmarks and associated objectives were amended, the original ten goals remained virtually unchanged. The ten priority areas of OHA are as follows:

- **ADVOCACY/NATIVE RIGHTS** - OHA shall protect natural and cultural resources through the adoption of administrative, legislative, and legal actions.
- **CULTURE** - OHA shall draft and implemented a plan that identifies and provides solutions to safeguard endangered traditions, practices, and rights, and subsequently put into practice steps that will protect, re-establish and enhance Hawaiian cultural assets.
- **ECONOMIC DEVELOPMENT** - OHA's investment in the creation, retention, and expansion of Native Hawaiian wealth shall 1) improve economic self-sufficiency for Native Hawaiians by facilitating and supporting programs and polices that create jobs, increase income, improve economic literacy, and create substantial businesses; and 2) create an economic development environment that routinely leverages existing resources into strategic partnerships and entrepreneurial opportunities for Native Hawaiians in local, national, and global markets.
- **EDUCATION** - OHA shall develop and implement a plan to ensure Native Hawaiian access to all education opportunities.
- **HAWAIIAN GOVERNANCE** - OHA shall assist, coordinate, and enable the creation of a unified Hawaiian Nation.

# LATE TESTIMONY

- **HEALTH** - OHA shall collaborate with other Native Hawaiian health care providers to increase the acquisition of resources from federal, state, counties, and others, to address the health care needs of Native Hawaiians with particular focus on the needs of the aged and elderly, including but not limited to prevention, treatment, education, and other needs.
- **HOUSING** - OHA shall assist Native Hawaiian families in achieving housing goals.
- **HUMAN SERVICES** - OHA shall assist Native Hawaiian families in improving their quality of life in the areas of food, shelter, and safety.
- **LAND** - Through the exercise of prudent investment and other strategies, develop organizational infrastructure to acquire land for preservation, investment or programmatic needs detailed in a comprehensive land policy.
- **POLICY** - OHA shall establish and support policies that meet constitutional and statutory mandates, while furthering its mission.

The OHA Strategic Plan, updated in 2005, is currently in the process of being updated to ensure we continue to address the issues most important to our beneficiaries.

The existing strategic plan is the result of a continuous agency-wide integrated planning process that includes annual work plans, expenditure plans, budget variance monitoring and monthly reporting requirements. The work plans describe the program's discrete projects and require an accounting of resources, timelines, outputs (quantifiable measures) and outcomes (qualitative measures). Lead Advocates administering the daily activities associated with each project are required to submit a monthly report on the status of each project delineated in their work plans. These reports are reviewed by the Administrator and reported to the BOT monthly. In addition, OHA's support services division, Treasury and Other Services (TOS), provides monthly variance reports against approved expenditure plans. Hale Directors are required to justify to the Administrator significant departures from pre-approved expenditure plans.

Statutory Reference: HRS10-3(3) Purpose of the office includes: Serving as the principal public agency in this State responsible for the performance, development and coordination of programs and activities relating to Native Hawaiians and Hawaiians.

## **Program ID Listing of Major Activities**

As an overview, we would like to present background information on each of our three programs. OHA 150 is the Office of the Trustees, which represents the policy making division of the agency. Next, OHA 160 is the support services division, which represents the administration and the sub-units that serve the entire agency. Lastly, OHA 175 is the beneficiary advocacy program which facilitates and implements OHA's

advocacy initiatives and activities at the community, state and national levels on issues impacting Hawaiian rights and entitlements.

## I. Office of the Trustees – OHA 150

The Board of Trustees is responsible for carrying out the overall constitutional and statutory responsibilities of OHA; establishing the policies and objectives that will be pursued in furtherance of constitutional and legislative mandates; and working for the betterment of all Hawaiians.

Highlights for 2008 are as follows:

- OHA advocated and secured passage of a property tax exemption for kuleana landholders on O`ahu, Hawai`i island, and Kaua`i, and will continue to work on an exemption for Maui kuleana landholders.
- OHA's Board approved an "unprecedented" 30-year, \$3 million annual grant to the Department of Hawaiian Home Lands to trigger a \$100 million bond for homestead development and improvements across the State of Hawai`i which will result in placing thousands more native Hawaiians in homes on Hawaiian land.
- OHA took an active role with the Papahānaumokuākea Monument in the Northwestern Pacific islands. As a member of the Monument Management Board, through our staff, OHA helped to draft the management plan and application to have Papahānaumokuākea put on the United Nations' World Heritage List.
- OHA, through two of its LLCs, Hi`ilei Aloha and Hi`ipaka, assumed day-to-day management of Waimea Valley in February. We held a grand opening for state legislators and the public in August, and restored the Hale O Lono heiau at the Valley entrance, which had been inactive and in disrepair for many years. Recent rains and flooding have impacted Waimea, and repairs and restoration are underway.
- OHA, working with Native Hawaiians, achieved phenomenal success with our restructured Mālama Loan program (formerly known as the Native Hawaiian Revolving Loan Fund) in partnership with the federal government and First Hawaiian Bank, approving more than 500 loans and injecting more than \$11 million into Hawai`i's economic engine. Applying the "multiplier effect," economists say this amounts to approximately \$21 million of economic activity infused into the Hawai`i economy.
- OHA recently received approval from the Defense Logistics Agency of the federal Department of Defense to establish Hawai`i's first "PTAC," Procurement Technical Assistance Center. OHA's partners include the University of Hawai`i College of Business and the William S. Richardson School of Law. OHA's PTAC staff will provide procurement technical

assistance to help small businesses get contracts to sell their goods and services to the federal, state, and county governments.

- o In Community Investment, most significantly, OHA distributed more than \$18 million in grants to the Hawaiian community, the largest amount ever disbursed in 30 years of OHA's history. Financial assistance included:
  - \$10.2 million for education;
  - \$ 2.3 million for the homeless;
  - \$ 1.6 million for the protection of native rights and culture;
  - \$ 1.1 million for economic development;
  - \$800,000 for housing; and
  - \$626,000 for health.

In addition, the State of Hawaii, Office of the Auditor performs a management audit of the agency every four years.

Formation of a Hawaiian nation is critical to protecting Hawaiian programs, trusts and kuleana from legal attacks. To address OHA's Strategic Goal 6 (nationhood), the Hawaiian Governance staff works to bring the Hawaiian community together for discussion and creation of a Hawaiian nation, and also encourages the support of non-Hawaiians in the nation-building process.

A Hawaiian nation is only as strong and vibrant as its people. Therefore, issues of health, education, stability in housing, culture, gathering rights, access to stream waters, and protection of iwi are closely connected to nation building.

Hawaiian Governance seeks to assist and facilitate the Hawaiian community in creating and building a strong and healthy Hawaiian nation by involving Hawaiian community organizations and agencies and encouraging individual Native Hawaiians to enroll in the Kau Inoa initiative and actively participate in the nation-building process.

We envision the first use of the video conferencing network will be for the exchange of information on the next steps for nation building through small group home meetings that utilize video conferencing technology. The CCN will later be expanded to include other types of meetings and information exchange important to OHA and our beneficiaries.

## Hawaiian Registry Program

The Health, Human Services, and Housing Hale (HSH) encompasses three disciplines that seek to work in partnership with community organizations committed to the betterment of conditions impacting Native Hawaiians in the areas of health, social service programs and housing opportunities.

OHA's housing programs focus on providing home ownership opportunities that particularly fit the needs of Native Hawaiian families. Due to the changing nature of the housing market, OHA also cooperated with agencies and organizations that address other housing-related issues, including affordable rentals, homelessness, transitional housing and creative financing.

Research and planning activities continued as the OHA Housing Plan and Strategy is scheduled for completion in 2008. Guidelines will be outlined to develop multiple pathways to help Hawaiian families with financial literacy and asset building; increased access to affordable rentals; and opportunities to qualify for first-time home ownership.

- Completed a housing plan and strategy to help guide OHA's housing decisions in coming years.

## 5. Land Management

OHA's Strategic Plan Goal 7.13 is to "develop organizational infrastructure to acquire land for preservation, investment or programmatic needs detailed in a comprehensive land policy." That goal was reached by creating the Land Management (LM) Hale in November 2006 and adopting OHA's Real Estate Vision Mission and Strategy (REVMS) in June 2007. LM is charged with pursuing the REVMS mission to protect and preserve Hawai'i lands and their cultural significance by:

- Bridging the ancient use of lands with future land use patterns.
- Advocating for land use and transaction practices and regulations congruent with a Hawaiian sense of place.
- Creating financially viable property involvements.

LM does this through land management and acquisition, land and water outreach and advocacy, building alliances, and organizational development.

## FY-08 Highlights

LM's key activity was supporting the Administrator and Trustees in OHA's pursuit of past due payments owed to OHA from Public Land Trust revenue. LM developed a database of state-owned properties that could be transferred to OHA in lieu of cash; prepared selection criteria and parcel recommendations for Board action; and conducted research and public outreach. LM was actively involved in planning and holding over forty-five briefings statewide on the proposed \$200 million agreement.

Additional LM highlights were:

- Strategic management of smaller assets including Pāhua Heiau and the Waialua Courthouse on O'ahu and the Kekaha Armory on Kaua'i (home to Ke Kula Ni'ihau O Kekaha Learning Center).
- Concluded lease negotiations with the National Audubon Society; assisting in creating Hi'ipaka LLC (a non profit limited liability company to hold and manage Waimea); and overseeing the transition to Hi'ipaka management on February 1, 2008.

## 6. Native Rights, Land and Culture (NRLC)

Goal 2 – Culture: OHA shall have draft a plan that identifies and provides solutions to safeguard traditions, practices and rights, and subsequently put into practice steps that will protect, re-establish and enhance Hawaiian cultural assets.

Goal 5 – Environment – Natural Resources: OHA shall protect natural and cultural resources through the adoption administrative, legislative and legal actions.

The Native Rights, Land and Culture (NRLC) Hale advocates for the rights, land and culture of the Hawaiian community at the international, federal, state and county levels. NRLC's advocacy efforts include the protection of Hawaiians' traditional and customary rights, as well as ensuring that federal, state and county resources are proportionately directed to Hawaiian needs. NRLC reviews proposed federal, state and county legislation and regulations, and reviews, comments and consults on proposed federal, state and county projects. Private projects are also reviewed, and relevant comments are submitted to reviewing agencies for consideration or inclusion into environmental impact statements and other reviews.

The continuation of Hawaiian cultural traditions and practices proves to be crucial for creating and maintaining Native Hawaiian national identity. With a gradual loss of Master Practitioners, some of the traditions become endangered and threatened by extinction. Moreover, the forces of urbanization and development destroy or misplace sacred sites. Without proper documentation, some ancient practices disappear into oblivion.

To protect the recognition of Native Hawaiian water rights and to ensure proper water management, consistent with ancient Hawaiian water use, OHA would like to formulate clear water policies with respect to ocean, stream and ground waters as well as water sheds. Through numerous meetings with the state agencies OHA will identify, prioritize and segment the current gaps in water policies and address the issues in consideration with best practices.

Date: March 20, 2009

Hearing: March 20, 2009

Re: H.B. No. 900 H.D. 2: Relating to the Budget of the Office of Hawaiian Affairs

Honorable Chair Hee, Vice-Chair Tokuda and Members of the Senate Committee on Water, Land, Agriculture & Hawaiian Affairs:

My name is Mervina Cash-Ka`eo and I am here as a private citizen to express my concern over the reduction in appropriations for social services. The proposed reduction in Section 5 results in an appropriation of \$381,020 for fiscal years 2009 – 2010 and 2010 – 2011.

I understand the Legislature's budgetary challenges in light of the economic outlook for the State, the nation and globe. However, in this economic climate, the fortification of our social services safety net is crucial to helping our Office of Hawaiian Affairs beneficiaries meet the economic and social challenges that rise in a failing economy.

I hope that this committee and the legislative body as a whole will reconsider reductions made to budget line items that support our state's social services safety net.

Mahalo for the opportunity to express my concern.

HB 900, HD2 RELATING TO THE BUDGET OF THE OFFICE OF

Assistant Director, Nā Pua No‘eau/University of Hawaii

Aloha, Chair Hee, Vice Chair Tokuda and members of the Committee on Water, Land, Agriculture, and Hawaiian Affairs. I am David Sing, Director of Nā Pua No‘eau. I am here representing staff, teachers and over 2,000 students participating in Nā Pua No‘eau programs annually across the State.

We are in **strong support to the passage of House Bill 900, HD2** and submit names and written testimony from 1000 students, staff and parents. I am pleased to share that through the monies we receive from the Office of Hawaiian Affairs we are able to provide a wide variety of educational enrichment program and activities to Hawaiian students from throughout the State.

We are pleased that the program and activities are provided to students from virtually every community and school district in Hawaii. We are able to provide unique opportunities to students in grades K through 12 combining a college venue with faculty participation along with community and cultural resources. The result is that we currently have over 952 students enrolled in the University of Hawaii system who have matriculated through Nā Pua No‘eau.

Our recent studies indicate that students who participate in Nā Pua No‘eau programs do better with respect to college retention and graduation than other Hawaiian students who have not participated.

It is critical that Hawaiian students in K through 12 have opportunities to information that connects them to their history, culture, language and traditional practices. Equally important is providing optimal conditions for learning, aspiring and achieving at high levels.

Funding from the Office of Hawaiian Affairs is critical to continue our programs and success with Hawaiian students and their families.

**HB900 HD2, RELATING TO THE BUDGET OF THE  
OFFICE OF HAWAIIAN AFFAIRS**

**Committee on Water, Land, Agriculture, and Hawaiian Affairs**

**Friday, March 20, 2009, Conference Room 229**

Aloha, Chair Hee and Vice Chair Tokuda, and members of the Committee on Water, Land, Agriculture, and Hawaiian Affairs

Thank you for the opportunity to provide testimony on HB 900, HD2, Relating to the Budget of the Office of Hawaiian Affairs, **in my personal capacity** as one who has seen and benefited from the work of the Office of Hawaiian Affairs.

At the outset, let me clarify that I cannot speak for or against the provisions of HB 900, HD, since it is difficult to second-guess budget requirements without having an intimate knowledge of all of the facts. However, OHA's testimony clearly articulates the services and programs it has provided to the Native Hawaiian community, especially noteworthy are their support for economic development and educational initiatives. For myself and for many others, their governance program has supported community empowerment to enable meetings, such as the Association of Hawaiian Civic Clubs Convention, where grassroots Native Hawaiians gather to unite, strategize, and influence government decisions. Clear example of this is apparent in the presence of Civic Club members at this legislature giving testimony on issues critical to the Native Hawaiian community, as well as the community at large.

There is the possibility that you will be cutting OHA's budget by 20%. Thus, I am concerned about the impact this will have on OHA's programs, especially on ALU LIKE and the Native Hawaiian Legal Corporation, for these two organizations deliver critical services to the Native Hawaiian community. Certainly, the increased attacks on Native Hawaiian programs and the erosion of our economy will place added stresses on these two organizations.

The point that I wished to make by my testimony is that OHA has supported excellent programs to deliver services to the Native Hawaiian community as mandated by their mission, that the community has benefited from those programs; and that a reduction of 20% could setback the progress made by those programs in uplifting the conditions of Native Hawaiians and of the community.
