Testimony In Support  
Re HCR 12 --- Create a Home Life Task  
Force to reduce Barriers to aging in place and to  
facilitate multigenerational living

I am Patricia Uriff, 70 years old, Licensed  
Social Worker, 25 years employed working with  
families, and still employed. I am home  
owner who took steps to build a room for  
me to age-in-place AND my family to move into  
the big house.

Barriers exist at the City Permitting office.

Task Force needed to identify changes that will  
encourage folks to take steps toward  
multi generational building to have elder to age in  
place. Otherwise, result will be neglect of aged,  
or aged going to care homes.

Thank you for looking at supporting changes, permits,  
laws, that encourage folks to spend money, build  
to care for themselves in old age AND encourage  
young family member to care for aged while  
maintaining employment.
