**TESTIMONY ON HOUSE CONCURRENT RESOLUTION NO. 55 – REQUESTING
THE CENTERS FOR MEDICARE AND MEDICAID SERVICES TO INCREASE
REIMBURSEMENT TO HAWAII PROVIDERS**

TO THE HONORABLE SUZANNE CHUN OAKLAND AND DAVID Y. IGE, CHAIRS,
AND MEMBERS OF THE COMMITTEES:

My name is J.P. Schmidt, State Insurance Commissioner (“Commissioner”),
testifying on behalf of the Department of Commerce and Consumer Affairs
(“Department”). The Department supports this resolution.

We support fair and adequate reimbursement for Hawaii health care providers.
Inadequate reimbursements make it harder for providers to remain in practice,
jeopardizing access to health care. In addition, to the extent that private payers have to
make up for inadequate governmental reimbursements an unfair situation is created.

We thank the Committees for the opportunity to present testimony on this matter
and request your favorable consideration.

Re: HCR 34 - Requesting Congress to Raise Medicare Fee Schedule Payment Amounts for Physicians Rendering Services in Hawaii.

HCR 55 - Requesting the Centers for Medicare and Medicaid Services to Increase Reimbursement to Hawaii Providers.

Dear Chair Chun Oakland, Chair Ige and Members of the Committees:

The Hawaii Medical Service Association (HMSA) appreciates the opportunity to provide comments in support of HCR 34 and HCR 55.

While Hawaii can boast a lower than average uninsured rate due to the Prepaid Health Care Act (PHCA), it also must be noted that when the economy is not faring well and unemployment is rising the PHCA cannot assist those who have lost their health care coverage along with their jobs. Under this scenario many individuals turn to Hawaii's Medicaid and Medicare programs to receive their health care services. With the poor economic times facing the state and the nation, more individuals will be accessing care through Hawaii's safety net programs. We support these resolutions which request increasing the reimbursement rates for physicians providing care to the neediest in our community.

Thank you for the opportunity to provide comments in support of HCR 34 and HCR 55.

Sincerely,
