LATE

Ref. No.: GF LEG 4.33

April 8, 2009

The Honorable Marcus Oshiro, Chair, and
Members of the House Committee on Finance
House Committee on Finance
Hawaii State Legislature
State Capitol, Room 306
Honolulu, Hawaii 96813

Dear Chair Oshiro and Members of the House Committee on Finance:

Re: S. B. 169, S. D. 2, H. D. 1, Relating to Hawaii Health Corps

At a recent House Finance committee hearing on S. B. 169, S. D. 2, H. D. 1, Relating to Hawaii Health Corps, Vice Chair Lee requested data relating to the federally designated health professional shortage areas ("HPSA") within the State.

The HPSA designations for all counties within the State are categorized by discipline: mental health, dentist, and primary medical care. Printouts from the Health Resources and Services Administration ("HRSA") are enclosed. The HPSA "score" determines priority. For dental services, the HPSA score is a number between 1 and 26, and for primary medical care and mental health, the HPSA score is a number between 1 and 25. The higher the HPSA score the greater the priority. The "# short" data category indicates the number of providers needed to remove the HPSA designation. The HPSA designations are reviewed periodically by HRSA based on input from the State Department of Health. The HPSA designations will serve as the basis for assigning loan repayment professionals should the Hawaii Health Corps be established.

It is my belief that there is sufficient data describing the current shortage of health care professionals throughout the State to support the establishment of the health corp mechanism described in S. B. 169, S. D. 2, H. D. 1. Given this data set, I would propose that any funds used to support further analysis of the scope of the shortage might be more efficiently used by either the federally leveraged Loan Repayment or the community-based Recruitment/Retention Programs.

The Honorable Marcus Oshiro, Chair, and
Members of the House Committee on Finance
