
A BILL FOR AN ACT

RELATING TO TECHNOLOGY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. Through Act 2 of the first special session of
2 2007, the legislature created the Hawaii broadband task force to
3 provide recommendations on how to advance Hawaii's broadband
4 capabilities and use. The legislature finds that advanced
5 broadband services are essential infrastructure for an
6 innovation economy and a knowledge society in the twenty-first
7 century. High-speed broadband services at affordable prices are
8 essential for the advancement of education, health, public
9 safety, research and innovation, civic participation,
10 e-government, economic development and diversification, and
11 public safety and services. The legislature also recognizes the
12 evolution in the manner in which communications and information
13 services are delivered to the consumer, including by wireline,
14 wireless, cable television, and satellite infrastructures, and
15 that the voice, video, and data services provided over these
16 infrastructures are converging. In order to position Hawaii for

1 global competitiveness in the twenty-first century, this Act
2 promotes the following goals:

3 (1) Access to broadband communications to all households,
4 businesses, and organizations throughout the State by
5 2012 at speeds and prices comparable to the average
6 speeds and prices available in the top three
7 performing countries in the world;

8 (2) Availability of advanced broadband communications
9 service on a competitive basis to reduce prices,
10 increase service penetration, and improve service to
11 all persons in the State;

12 (3) Increased broadband availability at affordable costs
13 to low-income and other disadvantaged groups,
14 including by making low-cost, broadband-capable
15 computers available to eligible recipients;

16 (4) Increased sharing of the infrastructure used to deploy
17 broadband in order to speed up implementation, reduce
18 costs to providers, reduce underlying costs to
19 providers through incentives rather than eminent
20 domain procedures, ease deployment of broadband, and
21 ease entry into a competitive broadband marketplace;

1 (5) Increased, flexible, timely, and responsible access to
2 public rights-of-way and public facilities for
3 broadband service providers; and

4 (6) A more streamlined permit approval process that
5 reduces the time and cost of infrastructure
6 deployment, to be created jointly by disparate
7 permitting agencies, stakeholders, and other
8 interested parties.

9 SECTION 2. The purpose of this Act is to establish the
10 Hawaii broadband commissioner as an independent agency that is
11 attached to the department of commerce and consumer affairs for
12 administrative purposes only and require the commissioner to:

13 (1) Investigate, promote, and ensure the growth and
14 development of broadband infrastructure within the
15 State in accordance with the aforementioned goals;

16 (2) Champion the State's broadband, telecommunications,
17 and video programming services interests before the
18 federal government, including the United States
19 Congress, the executive branch of the United States,
20 and the Federal Communications Commission; and state
21 and local agencies, including the governor, the
22 legislature, and county governments;

- 1 (3) Maintain close working relationships with community
2 groups, civic associations, industry trade
3 organizations, industry leaders, and other
4 stakeholders to ensure that the State's interests and
5 concerns are understood;
- 6 (4) Develop state policies relating to the provision of
7 broadband communications services and interstate and
8 international communications services and facilities
9 serving or transiting the State of Hawaii;
- 10 (5) Facilitate the construction and voluntary sharing of
11 shared telecommunications and broadband infrastructure
12 and expand the introduction and capabilities of
13 advanced broadband communications services where
14 appropriate and permissible under federal law;
- 15 (6) Consolidate the regulation of telecommunications
16 carriers currently regulated by the public utilities
17 commission and cable operators currently regulated by
18 the director of commerce and consumer affairs, to
19 create a unified agency to allow businesses providing
20 broadband, telecommunications, and video programming
21 services to make their services more readily available
22 to the public;

- 1 (7) Promptly examine rate regulation for
- 2 telecommunications carriers, including alternatives
- 3 such as price cap regulation; and
- 4 (8) Investigate the implementation of incentive regulation
- 5 for telecommunications carriers to increase investment
- 6 in broadband infrastructure within the State.

13 telecommunications carrier, cable operator, PEG access
14 organization, or the person concerned, or other respondent or
15 party and any complainant or permitted intervenor shall have the
16 right to be present and represented by counsel, to present any
17 evidence desired, and to cross-examine any witness who may be
18 called.

19 **§ -15 Commissioner may institute proceedings to enforce**

21 telecommunications carrier, cable operator, PEG access
22 organization, or any person is violating or neglecting to comply

1 with any provision of this chapter or of any rule, regulation,
2 order, or other requirement of the commissioner, or of any
3 provisions of its certificate of public convenience and
4 necessity, franchise, charter, contract, or articles of
5 association, if any, or that changes, additions, extensions, or
6 repairs are desirable in its plant or service to meet the
7 reasonable convenience or necessity of the public, or to ensure
8 greater safety or security, or that any rates, fares,
9 classifications, charges, or rules are unreasonable or
10 unreasonably discriminatory, or that in any way it is doing what
11 it ought not to do, or not doing what it ought to do, the
12 commissioner shall in writing inform the telecommunications
13 carrier, cable operator, PEG access organization, or the person
14 and may institute proceedings before it as may be necessary to
15 require the telecommunications carrier, cable operator, PEG
16 access organization, or the person to correct any deficiency.
17 In that event, the commissioner may by order direct the consumer
18 advocate to appear in the proceeding, to carry out the purposes
19 of this section. The commissioner may examine into any of the
20 matters referred to in section -9, notwithstanding that the
21 same may be within the jurisdiction of any court or other body;
22 provided that this section shall not be construed as in any

1 manner limiting or otherwise affecting the jurisdiction of any
2 court or other body. The commissioner may also revoke or amend
3 any provision of a certificate of public convenience and
4 necessity, franchise, charter, or articles of association, if
5 any, pursuant to section -31 or -68.

6 (b) In addition to any other available remedy, the
7 commissioner or its enforcement officer may issue citations to
8 any person acting in the capacity of or engaging in the business
9 of a telecommunications carrier or cable operator within the
10 State, without having a certificate of public convenience and
11 necessity, franchise, or other authority previously obtained
12 under and in compliance with this chapter or the rules adopted
13 thereunder. Citations issued and persons cited pursuant to this
14 subsection shall be subject to the following:

15 (1) The citation may contain an order of abatement and an
16 assessment of civil penalties as provided in
17 section -23. All penalties collected under this
18 subsection shall be deposited in the treasury of the
19 State. Service of a citation issued under this
20 subsection shall be made by personal service whenever
21 possible, or by certified mail, restricted delivery,

1 sent to the last known business or residence address
2 of the person cited;

3 (2) Any person served with a citation under this
4 subsection may submit a written request to the
5 commissioner for a hearing, within twenty days from
6 the receipt of the citation, with respect to the
7 violations alleged, the scope of the order of
8 abatement, and the amount of civil penalties assessed.
9 If the person cited under this subsection timely
10 notifies the commissioner of the request for a
11 hearing, the commissioner shall afford an opportunity
12 for a hearing under chapter 91. The hearing shall be
13 conducted by the commissioner or the commissioner may
14 designate a hearings officer to hold the hearing;

15 (3) If the person cited under this subsection does not
16 submit a written request to the commissioner for a
17 hearing within twenty days from the receipt of the
18 citation, the citation shall be deemed a final order
19 of the commissioner. The commissioner may apply to
20 the appropriate court for a judgment to enforce the
21 provisions of any final order, issued by the
22 commissioner or designated hearings officer pursuant

1 to this subsection, including the provisions for
2 abatement and civil penalties imposed. In any
3 proceeding to enforce the provisions of the final
4 order of the commissioner or designated hearings
5 officer, the commissioner need only show that the
6 notice was given, that a hearing was held or the time
7 granted for requesting the hearing has run without a
8 request, and a certified copy of the final order of
9 the commissioner or designated hearings officer; and
10 (4) If any party is aggrieved by the decision of the
11 commissioner or the designated hearings officer, the
12 party may appeal to the intermediate appellate court,
13 in the manner provided for in chapter 602; provided
14 that the operation of an abatement order shall not be
15 stayed on appeal unless specifically ordered by the
16 intermediate appellate court after applying the stay
17 criteria enumerated in section 91-14(c). The
18 sanctions and disposition authorized under this
19 subsection shall be separate and in addition to all
20 other remedies either civil or criminal provided in
21 any other applicable statutory provision. The

1 commissioner may adopt rules under chapter 91 as may
2 be necessary to fully effectuate this subsection.

3 § -16 Appeals. An appeal from an order of the
4 commissioner under this chapter shall lie, in the manner
5 provided for in chapter 602. Only a person aggrieved in a
6 contested case proceeding provided for in this chapter may
7 appeal from a final order, or a preliminary order if it is of
8 the nature defined by section 91-14(a). The commissioner may
9 elect to be a party to all matters, from which an order of the
10 commissioner is appealed or any action in any court of law
11 seeking a mandamus, or injunctive or other relief to compel
12 compliance with this chapter, or any rule or order adopted
13 thereunder, or to restrain or otherwise prevent or prohibit any
14 illegal or unauthorized conduct in connection therewith, and
15 file appropriate responsive briefs or pleadings. If there is no
16 adverse party to the appeal, the commissioner shall be a party
17 and shall file responsive briefs or pleadings in defending all
18 orders. The appearance of the commissioner as a party in
19 judicial proceedings in no way limits the participation of
20 persons otherwise qualified to be parties on appeal. The appeal
21 shall not of itself stay the operation of the order appealed
22 from, but the appellate court may stay the order after a hearing

1 upon a motion therefor and may impose conditions it deems
2 proper, including but not limited to requiring a bond, requiring
3 that accounts be kept, or requiring that other measures be taken
4 as ordered to secure restitution of the excess charges, if any,
5 made during the pendency of the appeal, in case the order
6 appealed from is sustained, reversed, or modified in whole or in
7 part.

8 § -17 **Alternative dispute resolution.** The commissioner
9 may require the parties in any matter before the commissioner to
10 participate in nonbinding arbitration, mediation, or other
11 alternative dispute resolution process prior to the hearing.

12 § -18 **Perjury.** Any person who wilfully and knowingly
13 makes under oath any false statement in connection with any
14 investigation by or proceeding before the commissioner shall be
15 guilty of perjury and, upon conviction, shall be subject to the
16 penalty prescribed by law for the offense.

17 § -19 **Telecommunications carriers, cable operators, and**
18 **PEG access organizations, to furnish information.** Every
19 telecommunications carrier, cable operator, PEG access
20 organization, or other person subject to investigation by the
21 commissioner, shall at all times, upon request, furnish to the
22 commissioner all information that the commissioner may require

1 respecting any of the matters concerning which the commissioner
2 is given power to investigate, and shall permit the examination
3 of its books, records, contracts, maps, and other documents by
4 the commissioner or any person authorized by the commissioner in
5 writing to make the examination, and shall furnish the
6 commissioner with a complete inventory of property under its
7 control or management in the form as the commissioner may
8 direct.

9 § -20 **Commissioner special fund.** (a) There is
10 established in the state treasury a commissioner special fund to
11 be administered by the commissioner. The proceeds of the fund
12 shall be used by the commissioner and the division of consumer
13 advocacy of the department for all expenses incurred in the
14 administration of this chapter, including, without limitation,
15 the operation of programs developed by the commissioner to
16 develop and construct, or encourage the construction of,
17 broadband infrastructure, make broadband capable services
18 available to low income and disadvantaged persons, or otherwise
19 promote universal availability of communications services. The
20 expenditures of the commissioner shall be in accordance with
21 legislative appropriations. On a quarterly basis an amount not
22 to exceed thirty per cent of the proceeds remaining in the fund

1 shall be allocated to the division of consumer advocacy and
2 deposited in the compliance resolution fund established pursuant
3 to section 26-9(o).

4 (b) All moneys appropriated to, received, and collected by
5 the commissioner that are not otherwise pledged, obligated, or
6 required by law to be placed in any other special fund or
7 expended for any other purpose shall be deposited into the
8 commissioner special fund including, but not limited to, all
9 moneys received and collected by the commissioner pursuant to
10 sections -23, -51, -73, -75, and 92-21.

11 (c) The commissioner shall submit a report to the
12 legislature detailing all funds received and all moneys
13 disbursed out of the fund prior to the convening of each regular
14 session.

15 (d) The director may transfer any unexpended portion of
16 the franchise fees previously collected to the commissioner by
17 depositing those franchise fees into the commissioner special
18 fund.

19 § -21 **Consumer advocate.** As the director serves as the
20 consumer advocate to the public utilities commission pursuant to
21 sections 269-51 through 269-55, the commissioner shall recognize

1 the director as the consumer advocate in hearings and
2 proceedings before the commissioner.

3 § -22 **Communications advisory committee.** (a) There is
4 established the communications advisory committee. The
5 committee shall consist of members appointed by the
6 governor as provided in section 26-34.

7 (b) The following shall each provide a list
8 of names for the governor's consideration:

- 9 (1) The president of the senate;
- 10 (2) The speaker of the house of representatives;
- 11 (3) ;
- 12 (4) ; and
- 13 (5) .

14 The governor shall select one name from each of the lists
15 for appointment to the committee.

16 (c) The committee shall meet when called by the
17 commissioner and may meet at any other times that the committee
18 deems appropriate; provided that the committee shall meet at
19 least on a quarterly basis.

20 (d) The committee shall advise the commissioner,
21 telecommunications carriers, and cable operators on matters
22 within the jurisdiction of this chapter at the request of the

1 commissioner or any telecommunications carrier or cable
2 operator. The committee may also advise the commissioner and
3 telecommunications carriers and cable operators on the
4 committee's own initiative.

5 (e) The members of the committee shall serve without pay
6 but shall be entitled to reimbursement for necessary expenses,
7 including travel expenses, while attending meetings and while in
8 discharge of their duties.

9 § -23 **Penalties.** (a) Any telecommunications carrier,
10 cable operator, or PEG access organization violating,
11 neglecting, or failing in any particular way to conform to or
12 comply with this chapter or any lawful order of the
13 commissioner, including, but not limited to the grounds
14 specified in section -68 for cable operators and PEG access
15 organizations, shall be subject to a civil penalty not to exceed
16 \$25,000 for each day the violation, neglect, or failure
17 continues, to be assessed by the commissioner after a hearing in
18 accordance with chapter 91. The commissioner may order the
19 telecommunications carrier, cable operator, or PEG access
20 organization to cease carrying on its business while the
21 violation, neglect, or failure continues.

1 (b) Notwithstanding subsection (a), any person acting in
2 the capacity of or engaging in the business of a
3 telecommunications carrier or a cable operator in the State
4 without having a certificate of public convenience and
5 necessity, franchise, or other authority previously obtained
6 under and in compliance with this chapter and the rules adopted
7 thereunder may be subject to a civil penalty not to exceed
8 \$5,000 for each offense, and, in the case of a continuing
9 violation, \$5,000 for each day that uncertified activity
10 continues.

11 (c) Upon written application filed within fifteen days
12 after service of an order imposing a civil penalty pursuant to
13 this section, the commissioner may remit or mitigate the penalty
14 upon terms as it deems proper.

15 (d) If any civil penalty imposed pursuant to this section
16 is not paid within the period as the commissioner may direct,
17 the attorney general shall institute a civil action for recovery
18 of the same in circuit court.

19 (e) Any penalty assessed under this section shall be in
20 addition to any other costs, expenses, or payments for which the
21 telecommunications carrier, cable operator, or PEG access
22 organization is responsible under this chapter.

1 **PART II. TELECOMMUNICATIONS**2 § -31 **Certificates of public convenience and necessity.**

3 (a) No telecommunications carrier, as defined in section -1,
4 shall commence its business without first having obtained from
5 the commissioner a certificate of public convenience and
6 necessity. Applications for certificates shall be made in
7 writing to the commissioner and shall comply with the
8 requirements prescribed in the commissioner's rules. The
9 application for a certificate of public convenience and
10 necessity shall include the type of service to be performed, the
11 geographical scope of the operation, the type of equipment to be
12 employed in the service, the names of competing
13 telecommunications carriers for the proposed service, a
14 statement of the applicant's financial ability to render the
15 proposed service, a current financial statement of the
16 applicant, and the rates or charges proposed to be charged,
17 including the rules governing the proposed service.

18 (b) A certificate shall be issued to any qualified
19 applicant, authorizing the whole or any part of the operations
20 covered by the application, if it is found that the applicant is
21 fit, willing, and able to properly perform the proposed services
22 and to conform to the terms, conditions, and rules adopted by

1 the commissioner, and that the proposed service is, or will be,
2 required by the present or future public convenience and
3 necessity; otherwise the application shall be denied. Any
4 certificate issued shall specify the service to be rendered and
5 there shall be attached to the exercise of the privileges
6 granted by the certificate at the time of issuance and from time
7 to time thereafter, reasonable conditions and limitations as a
8 public convenience and necessity may require. The
9 reasonableness of the rates, charges, and tariff rules proposed
10 by the applicant shall be determined by the commissioner during
11 the same proceeding examining the present and future
12 conveniences and needs of the public and qualifications of the
13 applicant, in accordance with the standards set forth in
14 section -38.

15 (c) No telecommunications carrier that, as of July 1,
16 2009, holds a valid certificate of public convenience and
17 necessity, franchise, or charter enacted or granted by the
18 legislative or executive authority of the State or its
19 predecessor governments, or has a bona fide operation as a
20 telecommunications carrier recognized by the public utilities
21 commission, shall be required to obtain, as a result of the

1 enactment of this Act, a new certificate of public convenience
2 and necessity under this section.

3 (d) Any certificate, upon application of the holder and at
4 the discretion of the commissioner, may be amended, suspended,
5 or revoked, in whole or in part. The commissioner after notice
6 and hearing may suspend, amend, or revoke any certificate in
7 part or in whole, if the holder is found to be in wilful
8 violation of any of the provisions of this chapter or with any
9 lawful order or rule of the commissioner adopted thereunder, or
10 with any term, condition, or limitation of the certificate.

11 § -32 **Location of records.** A telecommunications carrier
12 shall keep and maintain records, books, papers, accounts, and
13 other documents as the commissioner may determine are necessary
14 to effectively regulate the telecommunications carrier, that can
15 be made immediately accessible when requested by the
16 commissioner; provided that the original copies are made
17 available when requested by the commissioner.

18 § -33 **Annual financial reports.** Each annual financial
19 report required to be filed with the commissioner by
20 telecommunications carriers shall include a certification that
21 the report conforms with the applicable uniform system of

1 accounts adopted by the commissioner. The commissioner shall
2 adopt a uniform system of accounts for this purpose.

3 § -34 **Telecommunications providers and services.** (a)

4 Notwithstanding any provision of this chapter to the contrary,
5 the commissioner, upon the commissioner's own motion or upon the
6 application of any person, and upon notice and hearing, may
7 exempt a telecommunications carrier or a telecommunications
8 service from any or all of the provisions of this chapter,
9 except the requirements of section -36, upon a determination
10 that the exemption is in the public interest. In determining
11 whether an exemption is in the public interest, the commissioner
12 shall consider whether the exemption promotes state policies in
13 telecommunications, the development, maintenance, and operation
14 of effective and economically efficient telecommunications
15 services, and the furnishing of telecommunications services at
16 just and reasonable rates and in a fair manner in view of the
17 needs of the various customer segments of the telecommunications
18 industry. Among the specific factors the commissioner may
19 consider are:

20 (1) The responsiveness of the exemption to changes in the
21 structure and technology of the State's
22 telecommunications industry;

- 1 (2) The benefits accruing to the customers and users of
2 the exempt telecommunications carrier or service;
- 3 (3) The impact of the exemption on the quality,
4 efficiency, and availability of telecommunications
5 services;
- 6 (4) The impact of the exemption on the maintenance of
7 fair, just, and reasonable rates for
8 telecommunications services;
- 9 (5) The likelihood of prejudice or disadvantage to
10 ratepayers of basic local exchange service resulting
11 from the exemption;
- 12 (6) The effect of the exemption on the preservation and
13 promotion of affordable, universal, basic
14 telecommunications services as those services are
15 determined by the commissioner;
- 16 (7) The resulting subsidization, if any, of the exempt
17 telecommunications service or provider by nonexempt
18 services;
- 19 (8) The impact of the exemption on the availability of
20 diversity in the supply of telecommunications services
21 throughout the State of Hawaii;

1 (9) The improvements in the regulatory system to be gained
2 from the exemption, including the reduction in
3 regulatory delays and costs;

4 (10) The impact of the exemption on promoting innovations
5 in telecommunications services;

6 (11) The opportunity provided by the exemption for
7 telecommunications carriers to respond to competition;

8 (12) The potential for the exercise of substantial market
9 power by the exempt provider or by a provider of the
10 exempt telecommunications service; and

11 (13) The impact of the exemption on the competitive
12 availability and affordability of broadband and other
13 advanced services to consumers.

14 (b) The commissioner shall expedite, where practicable,
15 the regulatory process with respect to exemptions and shall
16 adopt guidelines under which each provider of an exempted
17 service shall be subject to similar terms and conditions.

18 (c) The commissioner may condition or limit any exemption
19 as the commissioner deems necessary in the public interest. The
20 commissioner may provide a trial period for any exemption and
21 may terminate the exemption or continue it for a period and

1 under conditions and limitations as the commissioner deems
2 appropriate.

3 (d) The commissioner may require a telecommunications
4 provider to apply for a certificate of public convenience and
5 necessity pursuant to section -31; provided that the
6 commissioner may waive any application requirement whenever it
7 deems the waiver to be in furtherance of the purposes of this
8 section. The exemptions under this section may be granted in a
9 proceeding for certification or in a separate proceeding.

10 (e) The commissioner may waive other regulatory
11 requirements under this chapter applicable to telecommunications
12 carriers when it determines that competition will serve the same
13 purpose as public interest regulation.

14 (f) If any provider of an exempt telecommunications
15 service or any exempt telecommunications carrier elects to
16 terminate its service, it shall provide notice of this to its
17 customers, the commissioner, and every telecommunications
18 carrier providing basic local exchange service in this State.
19 The notice shall be in writing and given not less than six
20 months before the intended termination date. Upon termination
21 of service by a provider of an exempt service or by an exempt
22 provider, the appropriate telecommunications carrier providing

1 basic local exchange service shall ensure that all customers
2 affected by the termination receive basic local exchange
3 service. The commissioner, upon notice and hearing or by rule,
4 shall determine the party or parties who shall bear the cost, if
5 any, of access to the basic local exchange service by the
6 customers of the terminated exempt service.

7 (g) Upon the petition of any person or upon the
8 commissioner's own motion, the commissioner may rescind any
9 exemption or waiver granted under this section if, after notice
10 and hearing, the commissioner finds that the conditions
11 prompting the granting of the exemption or waiver no longer
12 apply, or that the exemption or waiver is no longer in the
13 public interest, or that the telecommunications carrier has
14 failed to comply with one or more of the conditions of the
15 exemption or applicable statutory or regulatory requirements.

16 (h) For the purposes of this section, the commissioner,
17 upon determination that any area of the State has less than
18 adequate telecommunications service, shall require the existing
19 telecommunications carrier to show cause as to why the
20 commissioner should not authorize an alternative
21 telecommunications carrier for that area under the terms and
22 conditions of this section.

1 § **-35 Application of this chapter.** This chapter shall
2 not apply to commerce with foreign nations, or commerce with the
3 several states of the United States, except insofar as the same
4 may be permitted under the Constitution and laws of the United
5 States; nor shall it apply to telecommunications carriers owned
6 and operated by the State.

7 § **-36 Obligations of telecommunications carriers.** In
8 accordance with conditions and guidelines established by the
9 commissioner to facilitate the introduction of competition into
10 the State's telecommunications marketplace, each
11 telecommunications carrier, upon bona fide request, shall
12 provide services or information services, on reasonable terms
13 and conditions, to an entity seeking to provide intrastate
14 telecommunications, including:

15 (1) Interconnection to the telecommunications carrier's
16 telecommunications facilities at any technically
17 feasible and economically reasonable point within the
18 telecommunications carrier's network so that the
19 networks are fully interoperable;

20 (2) The current interstate tariff used as the access rate
21 until such time that the commissioner may adopt a new

- 1 intrastate local service interconnection tariff
2 pursuant to section -37;
- 3 (3) Nondiscriminatory and equal access to any
4 telecommunications carrier's telecommunications
5 facilities, functions, and the information necessary
6 to the transmission and routing of any
7 telecommunications service and the interoperability of
8 both carriers' networks;
- 9 (4) Nondiscriminatory access among all telecommunications
10 carriers, where technically feasible and economically
11 reasonable, and where safety or the provision of
12 existing electrical service is not at risk, to the
13 poles, ducts, conduits, and rights-of-way owned or
14 controlled by the telecommunications carrier, or the
15 commissioner shall authorize access to electric
16 utilities' poles as provided by the joint pole
17 agreement, tariffs, rules, orders, or Federal
18 Communications Commission rules and regulations;
- 19 (5) Nondiscriminatory access to the network functions of
20 the telecommunications carrier's telecommunications
21 network, which shall be offered on an unbundled,
22 competitively neutral, and cost-based basis;

1 (6) Telecommunications services and network functions
2 without unreasonable restrictions on the resale or
3 sharing of those services and functions; and
4 (7) Nondiscriminatory access of customers to the
5 telecommunications carrier of their choice without the
6 need to dial additional digits or access codes, where
7 technically feasible. The commissioner shall
8 determine the equitable distribution of costs among
9 the authorized telecommunications carriers that will
10 use such access and shall establish rules to ensure
11 access.

12 Where possible, telecommunications carriers shall enter
13 into negotiations to agree on the provision of services or
14 information services without requiring intervention by the
15 commissioner; provided that any agreement shall be subject to
16 review by the commissioner to ensure compliance with the
17 requirements of this section.

18 § **-37 Compensation agreements.** The commissioner shall
19 ensure that telecommunications carriers are compensated on a
20 fair basis for termination of telecommunications services on
21 each other's networks, taking into account, among other things,
22 reasonable and necessary costs to each telecommunications

1 carrier of providing the services in question.
2 Telecommunications carriers may negotiate compensation
3 arrangements, which may include "bill and keep", mutual and
4 equal compensation, or any other reasonable division of revenues
5 pending tariff access rates to be set by the commissioner. Upon
6 failure of the negotiations, the commissioner shall determine
7 the proper methodology and amount of compensation.

8 § -38 **Regulation of telecommunications carrier rates;**
9 **ratemaking procedures.** (a) All rates, fares, charges,
10 classifications, schedules, rules, and practices made, charged,
11 or observed by any telecommunications carrier or by two or more
12 telecommunications carriers jointly shall be just and reasonable
13 and shall be filed with the commissioner. The rates, fares,
14 classifications, charges, and rules of every telecommunications
15 carrier shall be published by the telecommunications carrier in
16 a manner as the commissioner may require, and copies shall be
17 furnished to any person on request.

18 (b) The commissioner shall promptly examine rate
19 regulation alternatives including rate-of-return ratemaking and
20 price cap ratemaking, and may issue an order imposing
21 alternative rate regulation procedures. The examination shall
22 include pursuing incentive regulation with local exchange

1 carriers, one goal of which shall be to increase broadband
2 competitive availability and affordability to consumers in the
3 State.

4 (c) The commissioner may waive rate regulation and allow
5 telecommunications carriers to have pricing flexibility for
6 services that the commissioner determines to be effectively
7 competitive; provided that the rates for:

8 (1) Basic telephone service and for services that are not
9 effectively competitive are regulated and remain just,
10 reasonable, and nondiscriminatory; and

11 (2) Universal service is preserved and advanced.

12 (d) Unless and until the commissioner waives this
13 requirement, no rate, fare, charge, classification, schedule,
14 rule, or practice, other than one established pursuant to an
15 automatic rate adjustment clause previously approved by the
16 commissioner or the public utilities commission, shall be
17 established, abandoned, modified, or departed from by any
18 telecommunications carrier, except after thirty days' notice to
19 the commissioner as prescribed in section -13(b), and prior
20 approval by the commissioner for any increases in rates, fares,
21 or charges.

1 The commissioner, in the commissioner's discretion and for
2 good cause shown, may allow any rate, fare, charge,
3 classification, schedule, rule, or practice to be established,
4 abandoned, modified, or departed from upon notice less than that
5 provided for in section -13(b). Unless and until the
6 commissioner waives this requirement, a contested case hearing
7 shall be held in connection with any increase in rates, and the
8 hearing shall be preceded by a public hearing as prescribed in
9 section -13(c), at which the consumers or patrons of the
10 telecommunications carrier may present testimony to the
11 commissioner concerning the increase. The commissioner, upon
12 notice to the telecommunications carrier, may:

13 (1) Suspend the operation of all or any part of the
14 proposed rate, fare, charge, classification, schedule,
15 rule, or practice or any proposed abandonment or
16 modification thereof or departure therefrom;

17 (2) After a hearing, by order:

18 (A) Regulate, fix, and change all such rates, fares,
19 charges, classifications, schedules, rules, and
20 practices so that the same shall be just and
21 reasonable;

- 1 (B) Prohibit rebates and unreasonable discrimination
2 between localities or between users or consumers
3 under substantially similar conditions;
- 4 (C) Regulate the manner in which the property of
5 every telecommunications carrier is operated with
6 reference to the safety and accommodation of the
7 public;
- 8 (D) Prescribe its form and method of keeping
9 accounts, books, and records, and its accounting
10 system;
- 11 (E) Regulate the return upon its telecommunications
12 carrier property;
- 13 (F) Regulate the incurring of indebtedness relating
14 to its telecommunications carrier business; and
- 15 (G) Regulate its financial transactions; and
- 16 (3) Do all things that are necessary and in the exercise
17 of the commissioner's power and jurisdiction, all of
18 which as so ordered, regulated, fixed, and changed are
19 just and reasonable, and provide a fair return on the
20 property of the telecommunications carrier actually
21 used or useful for telecommunications carrier
22 purposes.

1 (e) The commissioner may in the commissioner's discretion,
2 after public hearing and upon showing by a telecommunications
3 carrier of probable entitlement and financial need, authorize
4 temporary increases in rates, fares, and charges; provided that
5 the commissioner shall require by order the telecommunications
6 carrier to return, in the form of an adjustment to rates, fares,
7 or charges to be billed in the future, any amounts with
8 interest, at a rate equal to the rate of return on the
9 telecommunications carrier's rate base found to be reasonable by
10 the commissioner, received by reason of continued operation that
11 are in excess of the rates, fares, or charges finally determined
12 to be just and reasonable by the commissioner. Interest on any
13 excess shall commence as of the date that any rate, fare, or
14 charge goes into effect that results in the excess and shall
15 continue to accrue on the balance of the excess until returned.

16 (f) In any case of two or more organizations, trades, or
17 businesses (whether or not incorporated, whether or not
18 organized in the State, and whether or not affiliated) owned or
19 controlled directly or indirectly by the same interests, the
20 commissioner may distribute, apportion, or allocate gross
21 income, deductions, credits, or allowances between or among the
22 organizations, trades, or businesses, if it determines that the

1 distribution, apportionment, or allocation is necessary to
2 adequately reflect the income of any such organizations, trades,
3 or businesses to carry out the regulatory duties imposed by this
4 section.

5 (g) Notwithstanding any law to the contrary, for
6 telecommunications carrier having annual gross revenues of less
7 than \$2,000,000, the commissioner may make and amend its rules
8 and procedures to provide the commissioner with sufficient facts
9 necessary to determine the reasonableness of the proposed rates
10 without unduly burdening the telecommunications carrier company
11 and its customers.

12 § -39 **Cross-subsidies.** (a) The commissioner shall
13 ensure that noncompetitive services shall not cross-subsidize
14 competitive services. Cross-subsidization shall be deemed to
15 have occurred:

16 (1) If any competitive service is priced below the total
17 service long-run incremental cost of providing the
18 service as determined by the commissioner in
19 subsection (b); or

20 (2) If competitive services, taken as a whole, fail to
21 cover their direct and allocated joint and common
22 costs as determined by the commissioner.

1 (b) The commissioner shall determine the methodology and
2 frequency with which telecommunications carriers calculate total
3 service long-run incremental cost and fully allocated joint and
4 common costs. The total service long-run incremental cost of a
5 service shall include an imputation of an amount equal to the
6 contribution that the telecommunications carrier receives from
7 noncompetitive inputs used by alternative providers in providing
8 the same or equivalent service.

9 § -40 **Separate affiliate audits.** The commissioner shall
10 receive the results of joint federal and state audits required
11 for companies to operate separate affiliates, and obtain and pay
12 for a joint federal and state audit every two years from an
13 independent auditor pursuant to title 47 United States Code
14 section 272(d). The commissioner shall make the results of
15 joint federal and state audits available for public inspection.

16 § -41 **Unfair or deceptive acts or practices.** The
17 commissioner shall adopt rules prohibiting unfair or deceptive
18 acts or practices by telecommunications carriers and
19 telecommunications service providers including resellers and
20 aggregators of telecommunications services. Unfair or deceptive
21 acts or practices may include unauthorized changes in subscriber
22 carrier selections.

1 § **-42 Lifeline telephone rates.** (a) The commissioner
2 shall implement a program to achieve lifeline telephone rates
3 for residential telephone users. The commissioner may achieve
4 lifeline telephone rates by using funds collected pursuant to
5 section -51 and deposited in the commissioner special fund
6 pursuant to section -20. In conjunction with such funds, or
7 alternatively, the commissioner may seek appropriations of funds
8 from the State.

9 (b) For the purposes of this section, "lifeline telephone
10 rate" means a discounted rate for residential telephone users
11 identified as elders with limited income and the handicapped
12 with limited income as designated by the commissioner.

13 (c) The commissioner shall require every
14 telecommunications carrier providing local telephone service to
15 file a schedule of rates and charges providing a rate for
16 lifeline telephone subscribers.

17 (d) Nothing in this section shall preclude the
18 commissioner from changing any rate established pursuant to
19 subsection (a) either specifically or pursuant to any general
20 restructuring of all telephone rates, charges, and
21 classifications.

1 § **-43 Carriers of last resort.** (a) The commissioner
2 may define and designate local exchange service areas where the
3 commissioner has determined that a single provider will be the
4 most appropriate way to ensure service for these areas.

5 (b) The commissioner shall determine the level of service
6 that is appropriate for each designated local exchange service
7 area and shall invite telecommunications providers to bid for a
8 level of service that is appropriate. The successful bidder
9 shall be designated as the carrier of last resort for the
10 designated local exchange service area for a period of time and
11 upon conditions set by the commissioner. In determining the
12 successful bidder, the commissioner shall take into
13 consideration the level of service to be provided, the
14 investment commitment, and the length of the agreement, in
15 addition to the other qualifications of the bidder.

16 (c) The commissioner shall adopt rules pursuant to
17 chapter 91 to carry out this section or adopt the rules provided
18 in chapter 6-81 of the Hawaii Administrative Rules, which were
19 in effect on July 1, 2009.

20 § **-44 Telecommunications relay services for the deaf,**
21 **persons with hearing disabilities, and persons with speech**
22 **disabilities.** (a) The commissioner shall implement intrastate

1 telecommunications relay services for the deaf, persons with
2 hearing disabilities, and persons with speech disabilities.

3 (b) The commissioner shall investigate the availability of
4 experienced providers of quality telecommunications relay
5 services for the deaf, persons with hearing disabilities, and
6 persons with speech disabilities. The provision of these
7 telecommunications relay services to be rendered on or after
8 July 1, 1992, shall be awarded by the commissioner to the
9 provider or providers the commissioner determines to be best
10 qualified to provide these services. In reviewing the
11 qualifications of the provider or providers, the commissioner
12 shall consider the factors of cost, quality of services, and
13 experience, and other factors as the commissioner deems
14 appropriate.

15 (c) If the commissioner determines that the
16 telecommunications relay service can be provided in a cost-
17 effective manner by a service provider or service providers, the
18 commissioner may require every intrastate telecommunications
19 carrier to contract with the provider or providers for the
20 provision of the telecommunications relay service under the
21 terms established by the commissioner.

1 (d) The commissioner may establish a surcharge to collect
2 customer contributions for telecommunications relay services
3 required under this section.

4 (e) The commissioner may adopt rules to establish a
5 mechanism to recover the costs of administering and providing
6 telecommunications relay services required under this section.

7 (f) The commissioner shall require every intrastate
8 telecommunications carrier to file a schedule of rates and
9 charges and every provider of telecommunications relay service
10 to maintain a separate accounting for the costs of providing
11 telecommunications relay services for the deaf, persons with
12 hearing disabilities, and persons with speech disabilities.

13 (g) Nothing in this section shall preclude the
14 commissioner from changing any rate established pursuant to this
15 section either specifically or pursuant to any general
16 restructuring of all telephone rates, charges, and
17 classifications.

18 (h) As used in this section:

19 "Telecommunications relay services" means telephone
20 transmission services that provide an individual who has a
21 hearing or speech disability, the ability to engage in
22 communication by wire or radio with a hearing individual in a

1 manner that is functionally equivalent to the ability of an
2 individual who does not have a hearing or speech disability to
3 communicate using wire or radio voice communication services.
4 "Telecommunications relay services" includes services that
5 enable two-way communication using text telephones or other
6 non-voice terminal devices, speech-to-speech services, video
7 relay services, and non-English relay services.

8 **§ -45 Telecommunications number portability.** The
9 commissioner shall ensure that telecommunications number
10 portability within an exchange is available, upon request, as
11 soon as technically feasible and economically reasonable. An
12 impartial entity shall administer telecommunications numbering
13 and make the numbers available on an equitable basis.

14 **§ -46 Emergency telephone service; capital costs;**
15 **ratemaking.** (a) A telecommunications carrier providing local
16 exchange telecommunications services may recover the capital
17 cost and associated operating expenses of providing a statewide
18 enhanced 911 emergency telephone service in the public switched
19 telephone network, through a telephone line surcharge.

20 (b) The commissioner shall require every
21 telecommunications carrier providing statewide enhanced 911
22 emergency telephone service to maintain a separate accounting of

1 the costs of providing an enhanced 911 emergency service and the
2 revenues received from related surcharges. The commissioner
3 shall further require that every telecommunications carrier
4 imposing a surcharge shall identify on all customer billing
5 statements the separate line item for enhanced 911 emergency
6 service.

7 (c) This section shall not preclude the commissioner from
8 changing any rate, established pursuant to this section, either
9 specifically or pursuant to any general restructuring of all
10 telephone rates, charges, and classifications.

11 § -47 **Issuance of securities.** A telecommunications
12 carrier corporation may, on securing the prior approval of the
13 commissioner, and not otherwise, issue stocks and stock
14 certificates, bonds, notes, and other evidences of indebtedness,
15 payable at periods of more than twelve months after the date
16 thereof, for the following purposes and no other, namely:

- 17 (1) For the acquisition of property;
- 18 (2) For the construction, completion, extension, or
19 improvement of or addition to its facilities or
20 service;
- 21 (3) For the discharge or lawful refunding of its
22 obligations;

1 (4) For the reimbursement of moneys actually expended from
2 income or from any other moneys in its treasury not
3 secured by or obtained from the issue of its stocks or
4 stock certificates, or bonds, notes, or other
5 evidences of indebtedness; and

6 (5) For any of the aforesaid purposes except maintenance
7 of service, replacements, and substitutions not
8 constituting capital expenditure in cases where the
9 corporation has kept its accounts for such
10 expenditures in such manner as to enable the
11 commissioner to ascertain the amount of moneys so
12 expended and the purposes for which the expenditures
13 were made, and the sources of the funds in its
14 treasury applied to the expenditures.

15 As used in this section, "property" and "facilities", mean
16 property and facilities used in all operations of a
17 telecommunications carrier corporation whether or not included
18 in its operations or rate base. A telecommunications carrier
19 corporation may not issue securities to acquire property or to
20 construct, complete, extend, improve, or add to its facilities
21 or service if the commissioner determines that the proposed

1 purpose will have a materially adverse effect on its
2 telecommunications carrier operations.

3 All stocks and every stock certificate, bond, note, or
4 other evidence of indebtedness of a telecommunications carrier
5 corporation not payable within twelve months, issued without an
6 order of the commissioner authorizing the same, then in effect,
7 shall be void.

8 § -48 **Issuance of voting stock; restrictions.** (a) For
9 the purposes of this section:

10 "Foreign corporation" means a foreign corporation as
11 defined in section 235-1 or a corporation in which a majority of
12 the voting stock is held by a single foreign corporation as
13 defined in section 235-1.

14 "Nonresident alien" means a person not a citizen of the
15 United States who is not defined as a resident alien by the
16 United States Citizenship and Immigration Services.

17 (b) No more than twenty-five per cent of the issued and
18 outstanding voting stock of a corporation that is organized
19 under the laws of the State and that owns, controls, operates,
20 or manages any plant or equipment, or any part thereof, as a
21 telecommunications carrier within the definition set forth in
22 section -1 shall be held, whether directly or indirectly, by

1 any single foreign corporation or any single nonresident alien,
2 or held by any person, unless prior written approval is obtained
3 from the commissioner, or unless a transaction is exempt. An
4 exempt transaction is:

- 5 (1) Any purchase or sale by an underwriter; or
- 6 (2) A transaction to acquire shares of a corporation with
7 less than one hundred shareholders and less than
8 \$1,000,000 in assets.

9 Every assignment, transfer, contract, or agreement for
10 assignment or transfer of any shares in violation of this
11 section shall be void and of no effect; and no such transfer
12 shall be made on the books of the corporation. Nothing in this
13 section shall be construed to make illegal the holding of stock
14 lawfully held, directly or indirectly, prior to June 4, 1977.

15 **§ -49 Acquisition of stock of another telecommunications**
16 **carrier.** No person or entity shall purchase or acquire, take or
17 hold, any part of the capital stock of any telecommunications
18 carrier corporation, organized or existing under or by virtue of
19 the laws of the State, without having been first authorized to
20 do so by the order of the commissioner. Every assignment,
21 transfer, contract, or agreement for assignment or transfer of
22 any stock by or through any person or corporation to any

1 corporation or otherwise in violation of this section shall be
2 void and of no effect; and no such transfer shall be made on the
3 books of any telecommunications carrier. Nothing in this
4 section shall be construed to make illegal the holding of stock
5 lawfully acquired before July 1, 1933.

6 **§ -50 Merger and consolidation of telecommunications**
7 **carriers.** No telecommunications carrier corporation shall sell,
8 lease, assign, mortgage, or otherwise dispose of or encumber the
9 whole or any part of its road, line, plant, system, or other
10 property necessary or useful in the performance of its duties to
11 the public, or any franchise or permit, or any right thereunder,
12 nor by any means, directly or indirectly, merge or consolidate
13 with any other person or entity without first having secured
14 from the commissioner an order authorizing it so to do. Every
15 sale, lease, assignment, mortgage, disposition, encumbrance,
16 merger, or consolidation, made other than in accordance with the
17 order of the commissioner shall be void.

18 **§ -51 Finances; regulatory fee.** (a) There shall be
19 paid to the commissioner in the months of July and December of
20 each year, by each telecommunications carrier subject to this
21 chapter, a fee set by the commissioner not to exceed three-
22 tenths of one per cent of the gross income from the

1 telecommunications carrier's business during the preceding year,
2 or the sum of \$30, whichever is greater. The commissioner shall
3 set the fee amount based on its projected budget for the year to
4 administer and enforce this chapter. This fee shall be
5 deposited with the director of finance to the credit of the
6 commissioner special fund created pursuant to section -20.

7 (b) Each telecommunications carrier paying a fee under
8 subsection (a) may impose a surcharge to recover the amount paid
9 above one-eighth of one per cent of gross income. The surcharge
10 imposed shall not be subject to the notice, hearing, and
11 approval requirements of this chapter; provided that the
12 surcharge may be imposed by the telecommunications carrier only
13 after thirty days' notice to the commissioner.

14 (c) The commissioner, in the commissioner's discretion,
15 may impose additional fees on telecommunications carriers,
16 including to facilitate deployment of broadband communications
17 services in the State, and the fees shall be deposited with the
18 director of finance to the credit of the commissioner special
19 fund created pursuant to section -20.

20 § -52 **Injury to carrier property.** Any person who
21 injures or destroys, through want of proper care, any necessary
22 or useful facility, equipment, or property of any

1 telecommunications carrier shall be liable to the
2 telecommunications carrier for all damages sustained thereby.
3 The measure of damages to the facility, equipment, or property
4 injured or destroyed shall be the cost to repair or replace the
5 property injured or destroyed including direct and allocated
6 costs for labor, materials, supervision, supplies, tools, taxes,
7 transportation, administrative and general expense, and other
8 indirect or overhead expenses, less credit, if any, for salvage.
9 The specifying of the measure of damages for the facility,
10 equipment, or property shall not preclude the recovery of other
11 damages occasioned thereby as may be authorized by law.

12 **§ -53 One call center; advance warning to excavators.**

13 To finance the establishment and operation of the one call
14 center, pursuant to chapter 269E, and the administrative costs
15 of the commissioner, the commissioner shall direct
16 telecommunications carriers to pay to the public utilities
17 commission a fee in an amount and at a schedule determined by
18 the public utilities commission.

19 **§ -54 Local exchange intrastate services; fully**

20 **competitive.** (a) Notwithstanding any law to the contrary, the
21 Hawaii broadband commissioner shall classify the State's local
22 exchange intrastate services, under the commissioner's

1 classifications of services related to costs, rates, and
2 pricing, as fully competitive. In addition, with respect to all
3 services except intrastate switched and special access with
4 respect to wholesale customers, the telecommunications carrier
5 shall not be required to obtain approval or provide any cost
6 support or other information to establish or otherwise modify in
7 any manner its rates, fares and charges or to bundle any service
8 offerings into a single or combined price package; provided that
9 with respect to basic residential service a telecommunications
10 carrier may not charge any rate for a service above the rate for
11 the service included in the telecommunications carrier's filed
12 tariff.

13 (b) Notwithstanding subsection (a), all rates, fares,
14 charges, and bundled service offerings shall be filed with the
15 commissioner for informational purposes only. Nothing herein
16 shall modify any requirements of a telecommunications carrier
17 to:

- 18 (1) Provide lifeline telephone service;
19 (2) Comply with carrier of last resort obligations; or
20 (3) Comply with applicable service quality standards.

21 **PART III. CABLE**

1 **§ -61 Issuance of cable franchises and regulation of**
2 **cable operators by the commissioner.** The commissioner shall be
3 empowered to issue cable franchises and otherwise administer and
4 enforce this part.

5 **§ -62 Cable franchise required.** (a) No person shall
6 construct, operate, or acquire a cable system, or extend an
7 existing cable system outside its designated service area,
8 without first obtaining a cable franchise as provided in this
9 part.

10 (b) No cable operator that, as of July 1, 2009, holds a
11 franchise or charter enacted or granted by the legislative or
12 executive authority of the State or its predecessor governments,
13 or has a bona fide operation as a cable operator heretofore
14 recognized by the department, shall be required to obtain, as a
15 result of the enactment of this chapter, a new franchise under
16 this section.

17 **§ -63 Application or proposal for cable franchise; fee;**
18 **certain requirements.** (a) No cable franchise shall be issued
19 except upon written application or proposal therefor to the
20 commissioner, accompanied by a fee set by the commissioner.

21 (b) An application for issuance of a cable franchise shall
22 be made in a form prescribed by the commissioner. The

1 application shall set forth the facts as required by the
2 commissioner to determine in accordance with section -65
3 whether a cable franchise should be issued, including facts as
4 to:

- 5 (1) The citizenship and character of the applicant;
- 6 (2) The financial, technical, and other qualifications of
7 the applicant;
- 8 (3) The principals and ultimate beneficial owners of the
9 applicant;
- 10 (4) The public interest to be served by the requested
11 issuance of a cable franchise; and
- 12 (5) Any other matters deemed appropriate and necessary by
13 the commissioner including, but not limited to, the
14 proposed plans and schedule of expenditures for or in
15 support of the use of public, educational, and
16 governmental access facilities, and the competitive
17 availability and affordability of broadband and other
18 advanced services to consumers.

19 (c) A proposal for issuance of a cable franchise shall be
20 accepted for filing in accordance with section -64 only when
21 made in response to the written request of the commissioner for
22 the submission of proposals.

1 § -64 **Cable franchise application or proposal procedure;**
2 **public hearing; notice.** An application or proposal for a cable
3 franchise shall be processed as follows:

4 (1) After the application or proposal and required fee are
5 received by the commissioner and within a time frame
6 established by rule, the commissioner shall notify the
7 applicant in writing of the acceptance or
8 non-acceptance for filing of the application or
9 proposal for issuance of a cable franchise required by
10 this part;

11 (2) After the issuance of a notice of acceptance for
12 filing and within a time frame established by rule,
13 the commissioner shall hold a public hearing on the
14 application or proposal to afford interested persons
15 the opportunity to submit data, views, or arguments,
16 orally or in writing. Notice thereof shall be given
17 to the governing council and mayor of the county and
18 to any local exchange carrier or other utility and
19 cable company in the county in which the proposed
20 service area is located. The commissioner shall also
21 give public notice of the application and hearing at
22 least once in each of two successive weeks in the

1 county in which the proposed service area is located.

2 The last notice shall be given at least fifteen days
3 prior to the date of the hearing;

4 (3) After holding a public hearing, the commissioner shall
5 approve the application or proposal in whole or in
6 part, with or without conditions or modifications, or
7 shall deny the application or proposal, with reasons
8 for denial sent in writing to the applicant. If the
9 commissioner does not take final action after the
10 issuance of a notice of acceptance for filing and
11 within a time frame established by rule, the
12 application or proposal shall be deemed denied; and

13 (4) The time limit for final action may be extended, on
14 the commissioner's approval of the applicant's request
15 and justification in writing for an extension of time
16 to the commissioner at least two weeks in advance of
17 the requested effective date of the extension, or by
18 mutual agreement.

19 § -65 Issuance of cable franchise authority; criteria;

20 content. (a) The commissioner is empowered to issue a cable
21 franchise to construct or operate facilities for a cable system
22 upon the terms and conditions provided in this part.

1 (b) The commissioner, after a public hearing as provided
2 in this part, shall issue a cable franchise to the applicant
3 when the commissioner is convinced that it is in the public
4 interest to do so. In determining whether a cable franchise
5 shall be issued, the commissioner shall take into consideration,
6 among other things, the content of the application or proposal,
7 the public need for the proposed service, the ability of the
8 applicant to offer safe, adequate, and reliable service at a
9 reasonable cost to the subscribers, the suitability of the
10 applicant, the financial responsibility of the applicant, the
11 technical and operational ability of the applicant to perform
12 efficiently the service for which authority is requested, any
13 objections arising from the public hearing, the communications
14 advisory committee established by this chapter, or elsewhere,
15 and any other matters as the commissioner deems appropriate in
16 the circumstances.

17 (c) In determining the area that is to be serviced by the
18 applicant, the commissioner shall take into account the
19 geography and topography of the proposed service area, and the
20 present, planned, and potential expansion in facilities or cable
21 services of the applicant's proposed cable system and existing
22 cable systems.

1 (d) In issuing a cable franchise under this part, the
2 commissioner is not restricted to approving or disapproving the
3 application or proposal but may issue it for only partial
4 exercise of the privilege sought or may attach to the exercise
5 of the right granted by the cable franchise terms, limitations,
6 and conditions which the commissioner deems the public interest
7 may require. The cable franchise shall be nonexclusive, shall
8 include a description of the service area in which the cable
9 system is to be constructed, extended, or operated and the
10 approximate date on which the service is to commence and shall
11 authorize the cable operator to provide service for a term of
12 fifteen years or any other term that the commissioner determines
13 to be appropriate.

14 § -66 Requirement for adequate service; terms and
15 conditions of service. (a) Every cable operator shall provide
16 safe, adequate, and reliable service in accordance with
17 applicable laws, rules, franchise requirements, and its filed
18 schedule of terms and conditions of service.

19 (b) The commissioner shall require each cable operator to
20 submit a schedule of all terms and conditions of service in the
21 form and with the notice that the commissioner may prescribe.

1 (c) The commissioner shall ensure that the terms and
2 conditions upon which cable service is provided are fair both to
3 the public and to the cable operator, taking into account the
4 geographic, topographic, and economic characteristics of the
5 service area and the economics of providing cable service to
6 subscribers in the service area.

7 § -67 Cable system installation, construction,
8 operation, removal; general provisions. (a) A cable franchise
9 shall be construed to authorize the construction or operation of
10 a cable system within the service area above, below, on, in, or
11 along any highway or other public place and through easements
12 that have been dedicated for compatible purposes.

13 (b) The technical specifications, general routes of the
14 distribution system, and the schedule for construction of the
15 cable system shall be subject to the commissioner's approval.

16 (c) In installing, operating, and maintaining facilities,
17 the cable operator shall avoid all unnecessary damage and injury
18 to any trees, structures, and improvements in and along the
19 routes authorized by the commissioner.

20 (d) The cable operator shall indemnify and hold the State
21 and the county harmless at all times from any and all claims for
22 injury and damage to persons or property, both real and

1 personal, caused by the installation, operation, or maintenance
2 of its cable system, notwithstanding any negligence on the part
3 of the State or county, or their employees or agents. Upon
4 receipt of notice in writing from the State or county, the cable
5 operator shall, at its own expense, defend any action or
6 proceeding against the State or county in which it is claimed
7 that personal injury or property damage was caused by activities
8 of the cable operator in the installation, operation, or
9 maintenance of its cable system.

10 (e) The cable operator shall install and provide basic
11 cable television service at no cost to any school or institution
12 of higher education within its service area as determined by the
13 commissioner; provided that service is actually being delivered
14 within a reasonable distance from the school or institution of
15 higher education which may request service.

16 (f) The cable operator shall designate and activate three
17 or more channels for public, educational, or governmental use.
18 The commissioner may initiate, or a PEG access organization,
19 educational institution, or government agency, may, at any time,
20 request the commissioner to have the cable operator designate
21 and activate additional channels; provided that the commissioner
22 shall have the sole discretion to grant, deny, or modify the

1 request based upon the best interest of the public, requester,
2 cable operator, and the State.

3 The Hawaii broadband commissioner shall have the authority
4 to designate and select PEG access organizations pursuant to
5 administrative rules adopted in accordance with chapter 91. The
6 commissioner shall consider input from the public and take into
7 consideration the First Amendment rights of individuals who
8 utilize PEG access services when promulgating those rules.

9 (g) Upon termination of the period of the cable franchise
10 or permit or of any renewal thereof, by passage of time or
11 otherwise, the cable operator shall remove its facilities from
12 the highways and other public places in, on, over, under, or
13 along which they are installed if so ordered by the commissioner
14 and shall restore the areas to their original or other
15 acceptable condition, or otherwise dispose of same. If removal
16 is not completed within six months of the termination, any
17 property not removed shall be deemed to have been abandoned and
18 the cable operator shall be liable for the cost of its removal.

19 (h) The use of public highways within the meaning of
20 section 264-1 and other public places shall be subject to:

21 (1) All applicable state statutes and all applicable rules
22 and orders of the public utilities commission and the

1 commissioner governing the construction, maintenance,
2 and removal of overhead and underground facilities of
3 public utilities;

4 (2) For county highways, all applicable public welfare
5 rules adopted by the governing body of the county in
6 which the county highways are situated;

7 (3) For state or federal-aid highways, all public welfare
8 rules adopted by the director of transportation; and

9 (4) For the relocation of cable facilities, the provisions
10 of section 264-33 concerning the allocation of
11 expenses for the relocation of utility facilities.

12 (i) In the use of easements dedicated to compatible
13 purposes, the cable operator shall ensure:

14 (1) That the safety, functioning, and appearance of the
15 property and the convenience and safety of other
16 persons are not adversely affected by the installation
17 or construction of facilities necessary for a cable
18 system;

19 (2) That the cost of the installation, construction,
20 operation, or removal of facilities is borne by the
21 cable operator or subscribers, or a combination of
22 both; and

1 (3) That the owner of the property is justly compensated
2 by the cable operator for any damages caused by the
3 installation, construction, operation, or removal of
4 facilities by the cable operator.

5 (j) Contracts between the commissioner and PEG access
6 organizations for PEG access services shall be exempt from the
7 requirements of chapter 103D.

8 § -68 **Complaints; violations; revocation, alteration, or**
9 **suspension of cable franchise.** (a) Subscriber complaints
10 regarding the operation of a cable system may be made orally or
11 in writing to the commissioner. The commissioner shall resolve
12 complaints informally when possible.

13 (b) Any cable franchise issued hereunder after hearing in
14 accordance with chapter 91 may be revoked, altered, or suspended
15 by the commissioner as the commissioner deems necessary on any
16 of the following grounds:

17 (1) For making material false or misleading statements in,
18 or for material omissions from, any application or
19 proposal or other filing made with the commissioner;

20 (2) For failure to maintain signal quality under the
21 standards prescribed by the commissioner;

- 1 (3) For any sale, lease, assignment, or other transfer of
2 its cable franchise without consent of the
3 commissioner;
- 4 (4) Except when commercially impracticable, for
5 unreasonable delay in construction or operation or for
6 unreasonable withholding of the extension of cable
7 service to any person in a service area;
- 8 (5) For violation of the terms of its cable franchise;
- 9 (6) For failure to comply with this chapter or any rules
10 or orders prescribed by the commissioner;
- 11 (7) For violation of its filed schedule of terms and
12 conditions of service; and
- 13 (8) For engaging in any unfair or deceptive act or
14 practice as prohibited by section 480-2.

15 § -69 **Renewal of cable franchise.** Any cable franchise
16 issued pursuant to this part may be renewed by the commissioner
17 upon approval of a cable operator's application or proposal
18 therefor. The form of the application or proposal shall be
19 prescribed by the commissioner. The periods of renewal shall be
20 not less than five nor more than twenty years each. The
21 commissioner shall require of the applicant full disclosure,
22 including the proposed plans and schedule of expenditures for or

1 in support of the use of public, educational, or governmental
2 access facilities and broadband facilities.

3 **§ -70 Transfer of cable franchise.** (a) No cable
4 franchise, including the rights, privileges, and obligations
5 thereof, may be assigned, sold, leased, encumbered, or otherwise
6 transferred, voluntarily or involuntarily, directly or
7 indirectly, including by transfer of control of any cable
8 system, whether by change in ownership or otherwise, except upon
9 written application to and approval by the commissioner. The
10 form of the application shall be prescribed by the commissioner.

11 (b) Sections -64 and -65 shall apply to the transfer
12 of cable franchises.

13 **§ -71 Rate, filed with the commissioner; approval.** (a)
14 The commissioner shall require each cable operator to file a
15 schedule of its rates of service on a form and with the notice
16 that the commissioner may prescribe.

17 (b) To the extent permitted by federal law, the
18 commissioner shall regulate rates to ensure that they are fair
19 both to the public and to the cable operator.

20 **§ -72 Reports.** Each cable operator shall file with the
21 commissioner reports of its financial, technical, and
22 operational condition and its ownership. The reports shall be

1 made in a form and on the time schedule prescribed by the

9 chapter, and meets minimum requirements of health and
10 safety;
- 11 (2) The development of the proposed housing project does
12 not contravene any safety standards, tariffs, or rates
13 and fees approved for public utilities by the public
14 utilities commission [~~for public utilities~~] or the

16 shoreline area;
- 17 (9) Private facilities or improvements that may

2 it is clearly in the public interest; or
3 (10) Moving of sand from one location seaward of the
4 shoreline to another location seaward of the
5 shoreline; provided that the authority also finds that

13 or telecommunications common carriers until such time as the
14 Hawaii broadband commissioner is sworn in and the Hawaii
15 broadband commissioner issues an order accepting the
16 commissioner's authority and undertaking to enforce
17 chapter _____."

18 SECTION 23. Section 269-16, Hawaii Revised Statutes, is
19 amended to read as follows:

20 "**§269-16 Regulation of utility rates; ratemaking**
21 **procedures.** (a) All rates, fares, charges, classifications,
22 schedules, rules, and practices made, charged, or observed by

1 any public utility or by two or more public utilities jointly
2 shall be just and reasonable and shall be filed with the public
3 utilities commission. The rates, fares, classifications,
4 charges, and rules of every public utility shall be published by
5 the public utility in [~~such~~] the manner as the public utilities
6 commission may require, and copies shall be furnished to any
7 person on request.

8 To the extent the contested case proceedings referred to in
9 chapter 91 are required in any rate proceeding to ensure
10 fairness and to provide due process to parties that may be
11 affected by rates approved by the commission, the evidentiary
12 hearings shall be conducted expeditiously and shall be conducted
13 as a part of the ratemaking proceeding.

14 (b) No rate, fare, charge, classification, schedule, rule,
15 or practice, other than one established pursuant to an automatic
16 rate adjustment clause previously approved by the commission,
17 shall be established, abandoned, modified, or departed from by
18 any public utility, except after thirty days' notice to the
19 commission as prescribed in section 269-12(b), and prior
20 approval by the commission for any increases in rates, fares, or
21 charges. The commission, in its discretion and for good cause
22 shown, may allow any rate, fare, charge, classification,

1 schedule, rule, or practice to be established, abandoned,
2 modified, or departed from upon notice less than that provided
3 for in section 269-12(b). A contested case hearing shall be
4 held in connection with any increase in rates, and the hearing
5 shall be preceded by a public hearing as prescribed in section
6 269-12(c), at which the consumers or patrons of the public
7 utility may present testimony to the commission concerning the
8 increase. The commission, upon notice to the public utility,
9 may:

- 10 (1) Suspend the operation of all or any part of the
11 proposed rate, fare, charge, classification, schedule,
12 rule, or practice or any proposed abandonment or
13 modification thereof or departure therefrom;
- 14 (2) After a hearing, by order:
- 15 (A) Regulate, fix, and change all [~~such~~] rates,
16 fares, charges, classifications, schedules,
17 rules, and practices so that the same shall be
18 just and reasonable;
- 19 (B) Prohibit rebates and unreasonable discrimination
20 between localities or between users or consumers
21 under substantially similar conditions;

- 1 (C) Regulate the manner in which the property of
2 every public utility is operated with reference
3 to the safety and accommodation of the public;
- 4 (D) Prescribe its form and method of keeping
5 accounts, books, and records, and its accounting
6 system;
- 7 (E) Regulate the return upon its public utility
8 property;
- 9 (F) Regulate the incurring of indebtedness relating
10 to its public utility business; and
- 11 (G) Regulate its financial transactions; and
- 12 (3) Do all things that are necessary and in the exercise
13 of the commission's power and jurisdiction, all of
14 which as so ordered, regulated, fixed, and changed are
15 just and reasonable, and provide a fair return on the
16 property of the utility actually used or useful for
17 public utility purposes.
- 18 (c) The commission may in its discretion, after public
19 hearing and upon showing by a public utility of probable
20 entitlement and financial need, authorize temporary increases in
21 rates, fares, and charges; provided that the commission shall
22 require by order the public utility to return, in the form of an

1 adjustment to rates, fares, or charges to be billed in the
2 future, any amounts with interest, at a rate equal to the rate
3 of return on the public utility's rate base found to be
4 reasonable by the commission, received by reason of continued
5 operation that are in excess of the rates, fares, or charges
6 finally determined to be just and reasonable by the commission.
7 Interest on any excess shall commence as of the date that any
8 rate, fare, or charge goes into effect that results in the
9 excess and shall continue to accrue on the balance of the excess
10 until returned.

11 (d) The commission shall make every effort to complete its
12 deliberations and issue its decision as expeditiously as
13 possible and before nine months from the date the public utility
14 filed its completed application; provided that in carrying out
15 this mandate, the commission shall require all parties to a
16 proceeding to comply strictly with procedural time schedules
17 that it establishes. If a decision is rendered after the nine-
18 month period, the commission shall report in writing the reasons
19 therefor to the legislature within thirty days after rendering
20 the decision.

21 Notwithstanding subsection (c), if the commission has not
22 issued its final decision on a public utility's rate application

1 within the nine-month period stated in this section, the
2 commission, within one month after the expiration of the nine-
3 month period, shall render an interim decision allowing the
4 increase in rates, fares and charges, if any, to which the
5 commission, based on the evidentiary record before it, believes
6 the public utility is probably entitled. The commission may
7 postpone its interim rate decision for thirty days if the
8 commission considers the evidentiary hearings incomplete. In
9 the event interim rates are made effective, the commission shall
10 require by order the public utility to return, in the form of an
11 adjustment to rates, fares, or charges to be billed in the
12 future, any amounts with interest, at a rate equal to the rate
13 of return on the public utility's rate base found to be
14 reasonable by the commission, received under the interim rates
15 that are in excess of the rates, fares, or charges finally
16 determined to be just and reasonable by the commission.
17 Interest on any excess shall commence as of the date that any
18 rate, fare, or charge goes into effect that results in the
19 excess and shall continue to accrue on the balance of the excess
20 until returned.

21 The nine-month period in this subsection shall begin only
22 after a completed application has been filed with the commission

1 and a copy served on the consumer advocate. The commission
2 shall establish standards concerning the data required to be set
3 forth in the application in order for it to be deemed a
4 completed application. The consumer advocate may, within
5 twenty-one days after receipt, object to the sufficiency of any
6 application, and the commission shall hear and determine any
7 objection within twenty-one days after it is filed. If the
8 commission finds that the objections are without merit, the
9 application shall be deemed to have been completed upon original
10 filing. If the commission finds the application to be
11 incomplete, it shall require the applicant to submit an amended
12 application consistent with its findings, and the nine-month
13 period shall not commence until the amended application is
14 filed.

15 (e) In any case of two or more organizations, trades, or
16 businesses (whether or not incorporated, whether or not
17 organized in the State of Hawaii, and whether or not affiliated)
18 owned or controlled directly or indirectly by the same
19 interests, the commission may distribute, apportion, or allocate
20 gross income, deductions, credits, or allowances between or
21 among the organizations, trades, or businesses, if it determines
22 that the distribution, apportionment, or allocation is necessary

1 to adequately reflect the income of any [~~such~~] of the
2 organizations, trades, or businesses to carry out the regulatory
3 duties imposed by this section.

4 (f) Notwithstanding any law to the contrary, for public
5 utilities having annual gross revenues of less than \$2,000,000,
6 the commission may make and amend its rules and procedures to
7 provide the commission with sufficient facts necessary to
8 determine the reasonableness of the proposed rates without
9 unduly burdening the utility company and its customers. In the
10 determination of the reasonableness of the proposed rates, the
11 commission shall:

12 (1) Require the filing of a standard form application to
13 be developed by the commission. The standard form
14 application for general rate increases shall describe
15 the specific facts that shall be submitted to support
16 a determination of the reasonableness of the proposed
17 rates, and require the submission of financial
18 information in conformance with a standard chart of
19 accounts to be approved by the commission, and other
20 commission guidelines to allow expeditious review of a
21 requested general rate increase application;

1 (2) Hold a public hearing as prescribed in section
2 269-12(c) at which the consumers or patrons of the
3 public utility may present testimony to the commission
4 concerning the increase. The public hearing shall be
5 preceded by proper notice, as prescribed in section
6 269-12; and

7 (3) Make every effort to complete its deliberations and
8 issue a proposed decision and order within six months
