
HOUSE CONCURRENT RESOLUTION

REQUESTING THE PUBLIC UTILITIES COMMISSION TO EXPLORE THE
FEASIBILITY OF RETAIL WHEELING THROUGH AN INVESTIGATIVE
DOCKET.

1 WHEREAS, Hawaii relies on imported oil to meet over ninety
2 per cent of the State's energy needs, leaving the State
3 vulnerable to oil supply disruptions and volatility in the oil
4 markets; and

5
6 WHEREAS, the State needs to take action to explore all
7 options to support the Hawaii Clean Energy Initiative to create
8 a clean energy economy; and

9
10 WHEREAS, in retail wheeling, energy consumers are able to
11 select their own energy supplier or "wheel in" energy across
12 transmission or distribution lines owned by a third party; and

13
14 WHEREAS, retail wheeling was discussed in the electric
15 industry restructuring docket, which closed in 2003, and in the
16 Hawaii Energy Policy Forum's 2003 final report on Hawaii energy
17 utility regulation and taxation; and

18
19 WHEREAS, the intergovernmental wheeling docket has been
20 suspended until December 2010 by the Public Utilities Commission
21 in order to allow the Commission to conduct its investigation of
22 the feed-in tariff docket; and

23
24 WHEREAS, retail wheeling falls outside the scope of the
25 intergovernmental wheeling docket; and

26
27 WHEREAS, retail wheeling may require the unbundling of
28 tariffs for the ancillary components of the services provided by
29 a public utility, such as the transmission and distribution
30 system, reliability of service, and power quality; and

31

1 WHEREAS, retail wheeling also requires the regulation of
2 tariffs related to a "smart grid" as a partial solution to
3 accommodate increasing amounts of intermittent, renewable energy
4 on the electrical grid; now, therefore,
5

6 BE IT RESOLVED by the House of Representatives of the
7 Twenty-fifth Legislature of the State of Hawaii, Regular Session
8 of 2010, the Senate concurring, that the Public Utilities
9 Commission is requested to explore the concept of retail
10 wheeling through an investigative docket; and
11

12 BE IT FURTHER RESOLVED that if the Public Utilities
13 Commission determines that there are fundamental issues pending
14 before the Commission that must be resolved before a retail
15 wheeling investigative docket can be opened, the Commission is
16 requested to submit a report to the Legislature that includes:
17

- 18 (1) The issues that must be resolved before an
19 investigative docket can proceed;
- 20
- 21 (2) The priority of the issues that must be resolved; and
22
- 23 (3) The time and resources estimated to be allocated by
24 the Commission to resolve those issues; and
25

26 BE IT FURTHER RESOLVED that the Public Utilities Commission
27 is requested to submit its report not later than twenty days
28 prior to the convening of the 2011 Regular Session; and
29

30 BE IT FURTHER RESOLVED that a certified copy of this
31 Concurrent Resolution be transmitted to the Chairperson of the
32 Public Utilities Commission.
