Charter Schools; Funding

JUSTIFICATION SHEET

DEPARTMENT: Office of the Governor

TITLE: A BILL FOR AN ACT RELATING TO CHARTER SCHOOLS.

PURPOSE: The purpose of this bill is to suspend the current charter school funding formula for FY 2009-2010 and FY 2010-2011, appropriate \$12 million in each of the next two fiscal years for the charter schools, in addition to the amounts in the executive biennium budget for FY 2009-2010 and FY 2010-2011, and to replace the existing formula at the start of FY 2011-2012 that includes facilities funding and repair and maintenance monies.

MEANS: Add a new section to chapter 302B and amend sections 302B-3(i), 302B-8(b), and 302B-12, Hawaii Revised Statutes.

JUSTIFICATION: Act 115, Session Laws of Hawaii 2007, made substantial changes to the public charter school funding formula. The changes are unclear and have been interpreted in different ways by different parties.

The Legislature created a work group in 2007 to address the public charter school funding formula and report back to the legislature in 2008. The work group concluded its efforts and presented a recommendation to the legislature in January 2008.

Public charter school enrollments are increasing yearly, and the State should provide adequate interim funding to the charter schools until such time as the formula is revised. This bill proposes a public charter school funding formula starting in FY 2011-2012 based on the recommendations of the 2007 work group.

Currently, the executive director of the charter school administrative office is required to present the public charter school budget request to the board of education. This process is unnecessary as the board does not have authority to act on the budget request. This process also adds an unnecessary burden to the charter school review panel because it reduces the amount of time the panel has to consider the budget request due to scheduling conflicts between board hearings, panel hearings, and the budget submission deadline established by the department of budget and finance. Accordingly, this bill removes the requirement that the executive director present the public charter schools budget request to the board of education. The executive director may still provide a copy of the budget request to the board.

Impact on the public: The public continues to elect to send children to public charter schools and this is reflected in growing enrollment. This bill will ensure that charter schools are made whole in their per pupil funding, despite the current statutory formula, and provides for a new formula that recognizes the needs to provide for school facilities and repairs and maintenance of existing and proposed charter schools based on actual needs.

Impact on the department and other agencies: The measure will result in better administration of a successful public charter school system by giving public charter schools per pupil funding that is adequate to educate their current and projected level of enrollment.

GENERAL FUNDS: \$12,000,000 in FY 2009-2010
 \$12,000,000 in FY 2010-2011
