
A BILL FOR AN ACT

RELATING TO EMERGENCY CONTRACEPTIVES FOR SEXUAL ASSAULT
SURVIVORS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. In 2007, there were three hundred and twenty-
2 six forcible rapes reported in Hawaii. A woman who is sexually
3 assaulted may face the additional trauma of an unwanted
4 pregnancy by the rapist. Of the ninety thousand rape victims in
5 the United States in 2006, many women became pregnant as a
6 result and a number of the pregnancies ended in abortion.

7 Standards of emergency care established by the American
8 Medical Association require that female victims of sexual
9 assault be counseled about the risk of pregnancy and offered
10 emergency contraception. One statewide study found that nearly
11 one in three hospitals fail to offer emergency contraception to
12 sexual assault victims in Hawaii. An additional twenty-three
13 per cent have no clear policy on the issue.

14 Most women of reproductive age do not know enough about
15 emergency contraception to ask for it--only eleven per cent have
16 heard of it, are aware of its availability, and know how soon
17 after sexual intercourse it must be taken to be effective.

1 The purpose of this Act is to ensure that victims of sexual
2 assault are provided information about emergency contraception
3 when receiving medical care at hospitals for sexual assaults and
4 that emergency contraception is provided to women who request
5 it.

6 SECTION 2. Chapter 321, Hawaii Revised Statutes, is
7 amended by adding a new part to be appropriately designated and
8 to read as follows:
