
A BILL FOR AN ACT

RELATING TO RECREATIONAL RENAISSANCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature, together with the
2 administration, recognizes that extraordinary means must be
3 employed to catch up on deferred maintenance on parks, forests,
4 and ocean recreation facilities. With a one-time, substantial
5 upgrade to our parks, trails, and ocean recreation systems, the
6 State could go from being "reactive"-where failing facilities
7 absorb our time and attention-to "proactive." With new
8 facilities, the State can become progressive and focus more on
9 the primary mission of serving the public.

10 At the same time, the legislature, together with the
11 administration, recognizes that it is not enough to do a one-
12 time upgrade, but that it is also necessary to put systems in
13 place to ensure that the facilities are maintained at a higher
14 standard. Keeping our parks, trails, and ocean recreation
15 facilities at world-class levels requires more resources than
16 have been available in the past.

17 Small boat harbors and ocean recreational areas constitute
18 significant assets of the State. Their proper maintenance and

1 operation allow Hawaii residents to benefit from the State's
2 natural resources by engaging in recreational boating,
3 commercial and personal fishing, and small business operations.
4 In addition, visitors and residents alike use small boat harbors
5 and launch ramps to participate in local, regional, and
6 international yacht races, fishing tournaments, canoe regattas,
7 surfing, and other water sports.

8 The state parks and trails systems contribute to the
9 quality of the lives of our residents. Maintaining the natural
10 resources of the State will ensure that future generations will
11 continue to enjoy these assets. In addition, the legislature
12 further finds that a connection exists between Hawaii's state
13 park system and tourism. Tourists visit our islands each year
14 to enjoy our great outdoors, including the natural beauty and
15 the cultural treasures that comprise most of the state park
16 system. Residents and visitors heavily use these facilities.

17 The department of land and natural resources is
18 fundamentally restructuring the maintenance, restoration, and
19 management of our parks and boating facilities. The
20 department's recreational renaissance plan includes:

21 (1) A one-time \$ upgrade to park and boating
22 facilities financed by \$ in general obligation

1 bonds and \$ in reimbursable general obligation
2 bonds;

3 (2) Additional fee increases to better support ongoing
4 operations and maintenance at boat harbors and parks
5 (primarily for slips, boat ramp access, concessions,
6 and other commercial activities);

7 (3) Identification and development of specific state land
8 parcels to create a dedicated revenue source to pay
9 for the reimbursable general obligation bonds
10 issuance;

11 (4) Development of at least one hundred nineteen new acres
12 of light industrial space at Keehi lagoon as a long-
13 term source of revenue to support park and
14 conservation activities of the department of land and
15 natural resources; provided that the department of
16 land and natural resources is able to obtain federal
17 approval to substitute alternative mitigation projects
18 for this area, which has served as mitigation for the
19 reef runway development. The legislature finds that
20 the man-made, triangle-shaped island situated in the
21 center of Keehi lagoon more than doubles the size of
22 Ala Moana beach park and may serve as a center of

1 economic and recreational activity if properly
2 developed.

3 The purpose of this Act is to provide funding and the
4 policy tools to enable the department of land and natural
5 resources to implement its recreational renaissance plan by
6 upgrading and maintaining state parks, trails, and ocean
7 recreational facilities at world-class levels, and protecting
8 the precious natural resources of the State.

9 SECTION 2. Chapter 171, Hawaii Revised Statutes, is
10 amended by adding a new section to be appropriately designated
11 and to read as follows:

12 **"§171- Recreational renaissance special fund;**
13 **established.** (a) There is established in the department a
14 special fund to be designated the recreational renaissance
15 special fund. The fund shall be administered by the department.

17 renaissance special fund:

- 18 (1) Appropriations by the legislature;
19 (2) Moneys from public or private sources dedicated toward
20 recreational areas and facilities designated by the
21 chairperson to be part of the department's

 2 not currently going to the general fund; and
 3 (3) Moneys derived from interest and dividends; and
 4 (4) Proceeds from sales, rents from leases, licenses, and
 5 permits, or other income from other sources generated
 6 from recreational areas and facilities designated by

 10 department, through its chairperson, may also at its discretion

 14 under section 171-19;
- 15 (2) The state parks special fund established under section
 16 184-3.4; and
- 17 (3) The boating special fund established under section
 18 248-8;

19 provided that expenditures of funds transferred shall be
 20 consistent with the purposes of the special fund from which the
 21 moneys were transferred.

1 (c) The department, through its chairperson, may also
2 deposit federal funds received as grants under the federal
3 Wildlife Restoration Act; provided that the moneys are expended
4 for the maintenance of planned shooting ranges.

5 (d) The department may expend moneys from the recreational
6 renaissance special fund for the recreational renaissance
7 program related to:

8 (1) Information technology to support the recreational
9 renaissance program;

10 (2) Payment of principal and interest due on reimbursable
11 general obligation bonds;

12 (3) Planning, design, and construction including repairs,
13 replacement, additions, demolitions, entitlements,

17 renaissance program of the department; and

18 (5) Land acquisition and related costs.

19 (e) Moneys on balance in the recreational renaissance
20 special fund at the close of each fiscal year shall remain in
21 the fund."

1 SECTION 3. Chapter 206J, Hawaii Revised Statutes, is
2 amended by adding a new section to be appropriately designated
3 and to read as follows:

4 "§206J- Partnership with department of land and
5 natural resources for Keehi small boat harbor and triangle
6 island. (a) Consistent with its general powers under this
7 chapter, the development corporation shall have the authority to
8 undertake projects including development of infrastructure,
9 demolition, as necessary, and expansion of facilities and
10 acquisition of lands for Keehi small boat harbor and triangle
11 island, which are under the jurisdiction of the department of
12 land and natural resources; provided that the development
13 corporation shall not proceed with substitute alternative
14 mitigation projects for the Keehi small boat harbor and triangle
15 island area, which has served as mitigation for the reef runway
16 development, unless the department receives federal approval by
17 July 1, 2011. Notwithstanding any provision in section 206J-17,
18 payments to the development corporation for its administrative
19 and operational expenses shall be made by the department of land
20 and natural resources and deposited into the Aloha Tower fund in
21 a subaccount designated for projects related to Keehi small boat
22 harbor and triangle island. The department of land and natural

1 resources shall delegate to the development corporation the
2 implementation of projects related to Keehi small boat harbor
3 and triangle island. All projects, prior to implementation by
4 the development corporation, shall be approved by the
5 chairperson of the board of land and natural resources and the
6 governor. After approval by the chairperson of the board of
7 land and natural resources and the governor, the expending
8 authority for the approved projects shall be delegated to the
9 development corporation.

10 (b) Nothing in this section shall be interpreted to
11 require the department of land and natural resources to proceed
12 with the proposed development of Keehi small boat harbor and
13 triangle island, nor shall it remove the permitting and review
14 process that would accompany a project proposed of this nature
15 by the department of land and natural resources."

16 SECTION 4. Section 171-132, Hawaii Revised Statutes, is
17 amended to read as follows:

18 "**§171-132 Designation of industrial park.** A contiguous
19 area of not less than five acres of public lands [~~which~~] that is
20 classified or otherwise determined by the board as suitable and
21 economically feasible for industrial use may be designated as an

9 amended to read as follows:

19 be issued for vessels assigned mooring in Ala Wai boat harbor
20 shall not exceed fifteen per cent of the total berths and shall
21 not exceed thirty-five per cent of the total berths at the Keehi
22 boat harbor. The board shall designate mooring areas for

1 commercial vessels within the Ala Wai and Keehi boat harbors to
2 minimize the effects on the harbor and recreational boaters.

9 commercial catamaran to land its commercial catamaran on Waikiki

15 or existing registration certificate shall be reissued in a
16 timely manner in the name of the transferee corporation or other
17 business entity. No commercial use permit or existing
