## HOUSE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES TO  
COMPILE ANNUAL STATE AGENCY INFORMATION RELATING TO  
EFFICIENT USE OF MOTOR VEHICLES.

1           WHEREAS, the issue of climate change has stimulated  
2 governments throughout the world to take action to preserve the  
3 global environment through various state-sponsored  
4 environmentally-friendly measures; and

5  
6           WHEREAS, Hawaii, as an island state, has a special interest  
7 in protecting and safeguarding its unique and fragile  
8 environment, not only for the sake of the land and endemic flora  
9 and fauna, but also to ensure that the State's precious natural  
10 resources are preserved for residents and visitors alike; and

11  
12           WHEREAS, the State's energy objectives, as stated in the  
13 Hawaii State Planning Act, include planning for the State's  
14 facility systems to be directed toward the achievement of  
15 greater energy security in the face of threats to Hawaii's  
16 energy supplies and systems and reduction, avoidance, or  
17 sequestration of greenhouse gas emissions from energy supply and  
18 use; and

19  
20           WHEREAS, Hawaii is heavily dependent for its energy needs  
21 on imported oil; and

22  
23           WHEREAS, Hawaii has been continuously subjected to volatile  
24 oil pricing, the dearth of local oil refiners resulting in  
25 consistently higher gasoline prices than on the mainland, and  
26 the State's isolated geographic location that precludes local  
27 energy consumers from crossing state lines to choose more  
28 competitively priced energy sources; and

29  
30           WHEREAS, various state agencies own or lease fleets of  
31 motor vehicles operating on either gasoline or diesel fuel; and
