# A BILL FOR AN ACT

RELATING TO EMERGENCY CONTRACEPTIVES FOR SEXUAL ASSAULT  
SURVIVORS.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. In 2007, there were three hundred and twenty-  
2 six forcible rapes reported in Hawaii. A woman who is sexually  
3 assaulted may face the additional trauma of an unwanted  
4 pregnancy by the rapist. Of the ninety thousand rape victims in  
5 the United States in 2006, more than thirty thousand women  
6 became pregnant as a result of sexual assault and approximately  
7 fifty per cent of the pregnancies ended in abortion.

8           Standards of emergency care established by the American  
9 Medical Association require that female victims of sexual  
10 assault be counseled about the risk of pregnancy and offered  
11 emergency contraception. One statewide study found that nearly  
12 one in three hospitals fail to offer emergency contraception to  
13 sexual assault victims in Hawaii. An additional twenty-three  
14 per cent have no clear policy on the issue.

15           Most women of reproductive age do not know enough about  
16 emergency contraception to ask for it - only eleven per cent

1 have heard of it, are aware of its availability, and know how  
2 soon after sexual intercourse it must be taken to be effective.

3 The purpose of this Act is to ensure that victims of sexual  
4 assault are provided information about emergency contraception  
5 when receiving medical care at hospitals for sexual assaults and  
6 that emergency contraception is provided to women who request  
7 it.

8 SECTION 2. Chapter 321, Hawaii Revised Statutes, is
