SENATE CONCURRENT RESOLUTION

URGING THE UNITED STATES CONGRESS TO OPPOSE PROPOSALS TO CREATE
A FEDERAL INSURANCE OFFICE.

1 WHEREAS, the National Conference of Insurance Legislators
2 is an organization of state legislators that has an interest in
3 insurance legislation and regulation; and

4
5 WHEREAS, legislation introduced in 2008 by Congressman Paul
6 Kanjorski would create a federal Office of Insurance Information
7 at the United States Department of the Treasury; and

8
9 WHEREAS, in response to this legislation, the National
10 Conference of Insurance Legislators has gone on record to oppose
11 the creation of a federal insurance office; and

12
13 WHEREAS, one of the main reasons that the National
14 Conference of Insurance Legislators opposes a federal insurance
15 office is because the entity is one that may be authorized to
16 preempt state insurance laws and regulations; and

17
18 WHEREAS, on May 21, 2009, Congressman Kanjorski introduced
19 House Resolution 2609, referred to as the Insurance Information
20 Act of 2009, to authorize the Office of Insurance Information to
21 gather and analyze insurance data, coordinate federal efforts,
22 and establish federal policy on international insurance matters,
23 and preempt inconsistent state insurance measures; and

24
25 WHEREAS, on June 16, 2009, President Barack Obama unveiled
26 his administration's financial services regulatory reform plan,
27 which called for the establishment of an Office of National
28 Insurance at the Treasury Department to identify gaps in
29 regulation that could contribute to a systemic crisis, steer
30 insurers to the Federal Reserve to be regulated as new tier one
31 financial holding companies, and assist in administering the
32 Terrorism Risk Insurance Program; and

WHEREAS, on October 1, 2009, Congressman Kanjorski substituted his proposed legislation, House Resolution 2609, renaming it the Federal Insurance Office Act of 2009, with nearly all of the Obama administration's proposals; and

WHEREAS, the latest version of House Resolution 2609 would create a more powerful Federal Insurance Office by granting the office the authority to steer insurers to the Federal Reserve for heightened regulation as well as giving the office open-ended responsibilities; and

WHEREAS, on November 10, 2009, Senator Chris Dodd released a discussion draft of the Restoring American Financial Stability Act of 2009, which resembles House Resolution 2609; and

WHEREAS, the National Conference of Insurance Legislators continues to strongly oppose House Resolution 2609 and the Restoring American Financial Stability Act of 2009 because both measures would create a federal insurance office; now, therefore,

BE IT RESOLVED by the Senate of the Twenty-fifth Legislature of the State of Hawaii, Regular Session of 2010, the House of Representatives concurring, that the Legislature urges the United States Congress to oppose any measure that creates a federal insurance office, including House Resolution 2609, the Federal Insurance Office Act of 2009, and the Restoring American Financial Stability Act of 2009; and

BE IT FURTHER RESOLVED that certified copies of this Concurrent Resolution be transmitted to members of Hawaii's congressional delegation and to the Secretary of the United States Treasury Department.
