Subj: Testimony in **SUPPORT** of **HB1190 HD1** traffic accident investigations

Hearing: Monday, March 8, 2010; 1:15 p.m.; Room 224, State Capitol

Developing protocols for efficiently handling traffic accident investigations, including performing required actions in parallel, should help reestablish normal traffic faster -- while still meeting investigation requirements. Our typical traffic congestion can be excessive; therefore, actions to restore normal traffic flow after an accident should be coordinated and expedited.

Your consideration of these issues is appreciated.
