Subject: HCR 158 Breastfeeding

Hello Rep Lee,

On behalf of the Hawaii Breastfeeding Coalition, we would like to state **our support of HCR 158.**

We also feel not only medicaid breastfeeding women need to be supported but **all** breastfeeding women in our state, no matter their insurance plan.

It has always been the Coalitions' dream to have a program in the Department of Human Services or Department of Health supporting breastfeeding in our State for all of the reasons cited in the body of the resolution and many more that are being discovered each day!

We will gladly work with you and all other government personnel to make this dream a reality!

Thank you for all of your work to improve the health of the people of Hawaii!

Aloha,

Pat
