LATE TESTIMONY

MAR 17 2010

*Testimony to HCR 327 & HR 246*

*Not utilizing the technology thats available to maximize the potential in construction & development of Underground & Mountain dwellings for ground level Agriculture resourcefulness, would be neglecting advancement of produce production. Also neglected in advancement & technology in Hawaii is Methane an alternate in comparison to Solar & Wind energy generating devices. As a concern citizen, I encourage lawmakers to discuss these vital issues in the chamber of legislation, rather then be stagnant in the present for the immediate future.*

*Concern Citizen:  
Noel S. Muraki*
