SB205

Owner/Builder

Bill grants an exemption to Owner/Builder for 3 reasons

Death

Divorce

Owner/Builder qualifies for Unemployment

What happens if Owner/Builder is a self employed individual or small business owner and pays GET , Single Owner of a S corp and files state income tax

What happens if their small business fails and their only option is to sell their home to make ends meet

This bill discriminates against anyone who does not pay unemployment tax or qualify for unemployment tax it is also is unfair to all the small business owners which do have the LEGAL right not to pay unemployment tax. This Bill needs to have an exemption to include this hard working tax paying citizen of the State of Hawaii.
