Strong support for Ban on Non-Biodegradable Plastic Checkout Bags

Aloha Chair Gabbard, Vice Chair English, and members of the Committee on Energy and Environment,

I strongly support Senate Bill 2559 because....we do not need to perpetuate the use of such bags. No need to list the reasons why these bags are not good for the environment here as you already know these facts. Please trust that we are all capable of finding alternative means of transporting our groceries and such.

Mahalo for your time and consideration.

Strong support for Ban on Non-Biodegradable Plastic Checkout Bags

Aloha Chair Gabbard, Vice Chair English, and members of the Committee on Energy and Environment,

I strongly support Senate Bill 2559 because the simple removal of plastic checkout bags would cut waste tremendously which would in turn support our environment and community.

Mahalo for your time and consideration.

Strong support for Ban on Non-Biodegradable Plastic Checkout Bags

Aloha Chair Gabbard, Vice Chair English, and members of the Committee on Energy and Environment,

I strongly support Senate Bill 2559 because we waste so much plastic in this world which is so bad for the Earth which in return is bad for us humans. The Earth is like our body. Treat it good with respect it will last longer and be full of bounty for all to share. Anyways it would not to hard to just make people come up with other resources like biodegradable bags. Might be a little more expensive but people will get it sooner than later and hopefully bring there our reuseable bag. Please think about it and make the right choice for the future.  
MAHALO

Mahalo for your time and consideration.
