Against SB818 SD2

Representative Ryan Yamanne and committee chaire members,

Yearly inspection for healthcare facilities is so important to conform with the standard of the healthcare industry. The result of the written inspection does not really reflect the whole performance of the individual caregiver or facility.

Result of the survey should serve as foundation for educational purposes like giving in-service education where areas are needed. Result are not for public to know.

Sincerely,

AFHA/ARCH LEADERS

Big Island Chapter

Miriam Gurrero and Danny Marcos

House Joint Committees on Health & Human Services S.B. 818, SD2 Relating to Health

Testimony of AlvinToda
(808) 455-1331

I am testifying IN FAVOR of S.B. 818, SD2

As a retired engineer and primary care giver for my late parents, I realise that this kind of care is very important in our society. The role of government should be to insure the best care that can be received. Transparency and inspection are very important for good quality of care.

Alvin E. Toda
