Re: **Testimony in Strong Support HB 2094 Relating to the Issuance of Special Purpose Bonds to Assist Hawai'i Pacific Health**

---

My name is Chuck Sted, President & Chief Executive Officer of Hawai'i Pacific Health (HPH). Hawai'i Pacific Health is a nonprofit health care system and the state's largest health care provider, committed to providing the highest quality medical care and service to the people of Hawai'i and the Pacific Region through its four affiliated hospitals, 44 outpatient clinics and more than 2,200 physicians and clinicians. The network is anchored by its four nonprofit hospitals: Kapi'olani Medical Center for Women & Children, Kapi'olani Medical Center at Pali Momi, Straub Clinic & Hospital and Wilcox Memorial Hospital. Collectively, they lead the state in the areas of women's health, pediatric care, cardiovascular services, bone and joint services and cancer care. Hawai'i Pacific Health ranks among the top 3.8 percent of hospitals nationwide in electronic medical record adoption, with system-wide implementation that allows its hospitals to offer integrated, coordinated care throughout the state. Learn more at: <http://www.hawaiipacifichealth.org>

HB 2094 would provide the authority for issuance of \$75 million in Special Purpose Revenue Bonds. Faced with increasingly high cost of facilities and equipment, many hospitals and healthcare providers are turning to lease financing as a more cost-effective way to manage cash flow and to ensure the availability of needed services on a timely basis.

Hawai'i Pacific Health will use the added capital to refinance an existing bank loan issued to refund tax exempt bonds and to finance renovation of its hospital facilities and purchase of medical equipment. This will allow us to provide health care services and meet the needs of our patients in a cost effective manner.

As you know, SPRBs are specifically authorized by the State Constitution and by State law (Chapter 39A) to assist nonprofit corporations that provide health care facilities to the general public. Because the bonds are technically issued by the State, they are tax-exempt, even though the State is not obligated to pay them. The requesting corporation makes all payments and pays all expenses associated with the bond issuance. The bonds have no effect on the State's debt ceiling or debt rating.

We ask for your help and support in passing HB 2094. Thank you.

## **COMMITTEE ON WAYS AND MEANS**

Senator Donna Mercado Kim, Chair

Senator Shan S. Tsutsui, Vice Chair

March 31, 2010 – 9:30 a.m.

State Capitol, Conference Room 211

## **In Support of HB 2094, Relating to the Issuance of Special Purpose Revenue Bonds to Assist Hawaii Pacific Health**

Chair Kim, Vice Chair Tsutsui, and Members of the Committee,

My name is Sharlene Tsuda, Vice President of Community Development for The Queen's Health Systems. I am testifying for The Queen's Health Systems in support of HB 2094, which would provide the authority for issuance of \$75,000,000 in Special Purpose Revenue Bonds for the purpose of assisting Hawaii Pacific Health.

Tax exempt bond financing is one of the most important methods by which hospitals finance necessary equipment, facilities, maintenance and other initiatives that increase the quality of healthcare. Under Hawaii law, the State has no payment obligations under SPRBs. SPRBs are not a general obligation of the State and are the sole obligation of the borrowing hospital. Additionally, under Hawaii law, the borrowing hospital must pay all expenses incurred by the State associated with SPRBs.

Access to tax exempt financing in these challenging economic times will allow Hawaii Pacific Health to provide health care services and meet the needs of Hawaii's people in a cost effective manner.

We urge you to pass this measure and thank you for the opportunity to testify.
