JUSTIFICATION SHEET

DEPARTMENT: Transportation

TITLE: A BILL FOR AN ACT RELATING TO MOTOR VEHICLE REGISTRATION.

PURPOSE: To defines "after market motorcycle frame" and allow the County director of finance to assign a vehicle identification number to a motorcycle with an aftermarket frame. Except for special interest vehicles, reconstructed vehicles and motorcycles with an after market frame, the bill disallows the registration of uncertified motor vehicles and devices.

MEANS: Amend sections 286-2 and 286-42 (a), Hawaii Revised Statutes.

JUSTIFICATION: When Act 225, Session Laws of Hawaii 2002, was passed, the wording of the sections noted above was changed in a manner that allows motorcycles that were manufactured for off-road use only to be registered for use on public roads. This bill is an effort to correct this situation.

The definition of a motorcycle is so general that there is a very wide variety of vehicles that can fit it. Two examples are: off-road dirt motorcycles and pocket motorcycles. Mixing vehicles like these with the vehicle population on public roads causes safety hazards that were not intended by Act 225 or the motorcycle manufacturers. Legitimate motorcycle manufacturers place a label on off-road motorcycles indicating that they are not made for use on public roads. This bill is intended to exclude these vehicles from registration. The bill is also designed to allow registration of vehicles that were certified for use on public roads when they were originally manufactured and subsequently modified by owners in a manner (changing the frame) that removed the original

certification and VIN, and uncertified vehicles that were built by hobbyists.
