## HOUSE RESOLUTION

REQUESTING THE CONVENING OF A TASK FORCE TO DETERMINE HOW TO  
EXPAND SCHOOL GARDENS PROGRAMS STATEWIDE.

1 WHEREAS, according to the National Survey of Children's  
2 Health, twenty-eight percent of school-aged children in Hawaii  
3 are either overweight or obese, and one in every three children  
4 born in the United States in 2000 will develop diabetes; and  
5

6 WHEREAS, the 2003 Food Security Task Force report published  
7 by the State Office of Planning also noted that over nineteen  
8 percent of Hawaii residents live in food insecure households,

10

11 WHEREAS, many children in Hawaii have limited exposure to  
12 the wide range of healthy, local foods that are available and  
13 frequently have no idea where food comes from or how it is  
14 prepared, leaving them susceptible to the ubiquitous marketing  
15 and easy availability of "junk" food; and  
16

17 WHEREAS, the addition of locally-produced fruits and  
18 vegetables in school meals would bring high quality, local  
19 produce to Hawaii's school children; and  
20

21 WHEREAS, farm to school programs, such as planting and  
22 tending school gardens, have proven successful in supplying high  
23 quality food, as well as providing students with knowledge that  
24 enhances their educational experience and cultivates long-term  
25 healthy habits; and  
26

27 WHEREAS, several successful alternative farm to school  
28 programs exist in Hawaii through public-private partnerships and  
29 strong support from local school administrators, food service  
30 managers, teachers, parents, and students; and  
31

32 WHEREAS, these programs also rely upon external support  
33 from non-profit organizations, such as Kokua Hawai'i Foundation's  
34 'AINA In Schools (Actively Integrating Nutrition and Agriculture  
35 in Schools), MA'Ō Organic Farms, The Kohala Center through its

1 Hawai'i School Garden Hui, and the Ulupono Initiative; now,  
2 therefore,
