# A BILL FOR AN ACT

RELATING TO TELECOMMUNICATIONS.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. Act 199, Session Laws of Hawaii 2010,  
2 established a broadband working group to develop procedures for  
3 streamlining permitting functions that are applicable to the  
4 development of broadband services and broadband technology. One  
5 of the discussion items of the working group is to exempt from  
6 many of the permitting requirements the installation of new or  
7 upgraded broadband infrastructure along existing conduits that  
8 are already used for telecommunications.

9           The purpose of this Act is to expedite the deployment of  
10 high-speed broadband technology in Hawaii by exempting  
11 construction of broadband infrastructure from certain permitting  
12 requirements.

13           SECTION 2. From January 1, 2012, to January 1, 2017,  
14 actions relating to the installation, improvement, construction,  
15 or development of infrastructure relating to broadband service  
16 or broadband technology, including the interconnection of  
17 telecommunications cables, shall be exempt from county  
18 permitting requirements and state permitting and approval

1 requirements, including but not limited to the requirements of  
2 chapters 343, 171, and 205A, Hawaii Revised Statutes; provided  
3 that the installation, improvement, construction, or development  
4 of infrastructure shall:

5 (1) Take place within existing rights-of-way or utility  
6 easements or use existing telecommunications  
7 infrastructure; and

8 (2) Make no significant changes to the existing rights-of-  
9 way, utility easements, or telecommunications  
10 infrastructure.

11 SECTION 3. No person or entity shall be required to  
12 upgrade or replace an existing utility pole when using that  
13 utility pole to install new or improve existing  
14 telecommunications cables; provided that:

15 (1) The overall weight load on the utility pole following  
16 the installation or improvement is not greater than  
17 the weight load prior to the installation or  
18 improvement;

19 (2) The overall weight load on the utility pole does not  
20 exceed maximum utility pole safe weight capacities  
21 established by the Federal Communications Commission  
22 and the Hawaii public utilities commission; and

1           (3) The utility pole is not damaged due to the  
2                    installation or improvement of telecommunications  
3                    cables.

4           SECTION 4. No later than January 1, 2016, the director of  
5 commerce and consumer affairs, in consultation with the  
6 administrator of the cable television division, shall:

7           (1) Review the state of broadband communications in Hawaii  
8                    and the exemptions made pursuant this Act; and

9           (2) Make a recommendation whether to extend the exemptions  
10                   provided by this Act.

11 The director of commerce and consumer affairs shall submit a  
12 report of the director's findings and recommendations, along  
13 with any proposed legislation, to the legislature no later than  
14 twenty days prior to the convening of the regular session of  
15 2016.

16           SECTION 5. This Act shall take effect on July 1, 2112.

**Report Title:**

Broadband; Permit Exemptions

**Description:**

Exempts broadband infrastructure improvements from state or county permitting requirements for five years. Exempts telecommunications companies from replacing existing utility poles when installing new or improving existing telecommunications cables. Effective July 1, 2112. (HB1342 HD1)
