
SENATE CONCURRENT RESOLUTION

REQUESTING THAT THE CIVIL DEFENSE DIVISION OF THE HAWAII DEPARTMENT OF DEFENSE IS REQUESTED WORK WITH THE COUNTY CIVIL DEFENSE OR EMERGENCY MANAGEMENT AGENCIES TO EVALUATE THE APPROPRIATENESS OF TSUNAMI EVACUATION SITES IN THE STATE.

1 WHEREAS, a tsunami is a series of powerful waves that are
2 generated by an underwater disturbance such as an earthquake,
3 landslide, volcanic eruption, or meteorite and can move hundreds
4 of miles per hour through the open ocean, building in height,
5 before crashing into coastal land; and

6
7 WHEREAS, tsunamis occur relatively frequently in the
8 Pacific Ocean because of high levels of seismic activity in the
9 region; and

10
11 WHEREAS, according to the Intergovernmental Oceanographic
12 Commission of the United Nations Educational, Scientific and
13 Cultural Organization, the devastation wrought over the past
14 decade by tsunamis in Java; the Solomon Islands and Chile;
15 Samoa, American Samoa, and Tonga; Haiti, Chile, and Indonesia;
16 and most recently, Japan, should act as a reminder for
17 communities in or near potentially tsunamigenic regions to
18 increase efforts to develop awareness, preparedness, and
19 mitigation procedures; and

20
21 WHEREAS, according to the Intergovernmental Oceanographic
22 Commission of the United Nations Educational, Scientific and
23 Cultural Organization, areas less than twenty-five feet above
24 sea level and within one mile of the shoreline are at greatest
25 risk of damage including inundation, contamination of drinking
26 water, fires from ruptured gas lines or tanks, and destruction
27 of structures; and

28
29 WHEREAS, during the tsunami warnings issued on March 10th
30 and 11th of 2011, many residents in the State's evacuation areas

1 were directed to evacuation sites that were located close to
2 shorelines and in flat, low-lying areas; and
3

4 WHEREAS, when major damage or loss of life is avoided, a
5 natural disaster experience provides an important opportunity to
6 review emergency procedures and preparedness plans; now,
7 therefore,
8

9 BE IT RESOLVED by the Senate of the Twenty-sixth
10 Legislature of the State of Hawaii, Regular Session of 2011, the
11 House of Representatives concurring, that the Civil Defense
12 Division of the Hawaii Department of Defense is requested to
13 work with the Civil Defense Agency of the County of Hawaii, the
14 Department of Emergency Management of the City and County of
15 Honolulu, the Civil Defense Agency of the County of Kauai, and
16 the Civil Defense Agency of the County of Maui to evaluate the
17 appropriateness of tsunami evacuation sites in each of the
18 counties of the State; and
19

20 BE IT FURTHER RESOLVED that the evaluation of tsunami
21 evacuation sites include an assessment of the sites' elevation,
22 distance from the shoreline, proximity to gas lines or other
23 potentially hazardous infrastructure, vulnerability to the
24 effects of a tsunami or related disaster such as wind damage,
25 flooding, and inundation with debris, and include
26 recommendations for improving tsunami evacuation sites; and
27

28 BE IT FURTHER RESOLVED that the Civil Defense Division of
29 the Hawaii Department of Defense is requested to submit a report
30 of its findings and recommendations to the Legislature no later
31 than twenty days prior to the convening of the Regular Session
32 of 2012; and
33

34 BE IT FURTHER RESOLVED that certified copies of this
35 Concurrent Resolution be transmitted to the Adjutant General,
36 Administrator of the Civil Defense Agency of the County of
37 Hawaii, Director of the Department of Emergency Management of
38 the City and County of Honolulu, Civil Defense Manager of the
39 Kauai Civil Defense Agency, and Emergency Management Officer of
40 the Maui Civil Defense Agency.
