

LATE

GM 549

I fear I am a little late with this, but please let me extend another enthusiastic voice to the nomination of Chuck Prentiss for the Environmental Council. Chuck has a varied and broad history of sound and measured support for environmental issues in Hawaii as well as an understanding of the governmental process, a deep respect for the law, and loyalty to this island community in its efforts to preserve the best of our heritage. I have worked alongside him in several of these activities, and he is always a calm and businesslike voice as well as a staunch advocate for the long view. Please consider his nominations most favorably.

Charles Ice
