

HB 1000 HD2 SD1
RELATING TO ENHANCED 911 SERVICES
JAMES LACLAIR
BOARD MEMBER
WIRELESS ENHANCED 911
Friday, April 1, 2011

L A T E

Chair Ige, and Members of the Senate Ways and Means Committee:

I am Jim LaClair, testifying as a member of the Wireless Enhanced 911 Board on HB 1000 HD2 SD1, "RELATING TO ENHANCED 911 SERVICES."

I respectfully request your committee's support of HB 1000 HD2 SD1 as crafted and approved by the Wireless Enhanced Board of Directors. I was part of an executive committee chartered by the Wireless Enhanced Board of Directors to help draft this legislation. The committee, which included representatives from the local wireless and communication providers, County police departments, and other local support agencies, feel this bill offers the best path to evolve the Wireless Enhance 911 Board into a Board with broader scope that can better help Hawaii implement 911 technologies now and into the future.

I respectfully request your committee to support HB 1000 HD2 SD1.

Thank you for the opportunity to testify.
