HOUSE BILL 122
RELATING TO RENEWABLE ENERGY**

The purpose of House Bill 122 is to extend the repeal date of Act 173, Session Laws of Hawaii, 2009, which was intended to facilitate the financing and development of renewable energy projects by exempting developers of renewable energy projects from subdivision requirements.

The Department of Land and Natural Resources supports the intent of the bill but notes that there is no new automatic repeal date indicated on the bill.
