Subject: HB300 HD2 SD1

Dear Senator Ige,

I am writing in support of HB300 HD2 SD1, which includes funding for the Judiciary History Center.

Coming from the neighbor island, it is rare that we receive practical training/workshop opportunities that we can actually make use of in my classroom. As an 8th grade American History, the We the People Mock Congressional Hearing and Project Citizen has had direct impacts in my classroom. If the Judiciary History Center and the training they offer were eliminated, the future citizens in their understanding of their rights and responsibilities as citizens of Hawaii and our nation would be in jepardy.

Thank you very much for considering my testimony in support of HB300 HD2 SD1.

Sincerely,

June K. Kaichi
