RE: HB 739 - Testimony by Strong Support - HMS 4/5/11 - Rm. 016 1:15

p.01

Dear Chair Chun Oakland, Vice Chair Ibara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

I really need your help 2 clients is not enough to pay my bills and mortgages especially when 1 of my clients goes to the hospital or expired. The payment of 1 medicaid client for \$1800 or \$2500 is not enough. I can not afford to pay CNA fee for \$10 per hour or more and most CNA's prefers to work at the nursing home facilities because they have more benefits.

I thank you very much for your attention and support to HB 739.

Sincerely,

Rogelio Buccat Jr.

RE: HB 739 – Testimony in Strong Support – HMS 4/5/11 – Rm. 016 1:15 p.m.

Dear Chair Chun Oakland, Vice Chair Ihara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

Please be assured that the difference between CNAs and NAs is basically a 24-hour examination. Educational, training, and skills are identical between CNAs and NAs. Quality of care and client safety would not be compromised.

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I strongly support HB 739.

RE: HB 739 - Testimony in Strong Support - HMS 4/5/11 - Rm. 016 1:15 P.M.

Dear Chair Chun Oakland, Vice Chair Ihara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

Please be assured that the difference between CNAs and NAs is basically a 24-hour examination. Educational, training, and skills are identical between CNAs and NAs. Quality of care and client safety would not be compromised.

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I strongly support HB 739.

RE: SB1360 - Testimony in Senate Hearing - FIN 4/5/11 - Rm. 308 2:00 p.m.

Dear Chair Cahiro, Vice Chair Lee and Members of the Committee:

I strongly support **SB 1360**, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

Please be assured that the difference between CNAs and NAs is basically a 24-hour examination. Educational, training, and skills are identical between CNAs and NAs. Quality of care and client safety would not be compromised.

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I strongly support **SB 1360**.

When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, **I strongly support HB 739.**

RE: HB 739 - Testimony in Strong Support - HMS 4/5/11 Rm. 016 1:15

P.J.L.

Dear Chair Chun Oakland, Vice Chair Ihara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

Please be assured that the difference between CNAs and NAs is basically a 24-hour examination. Educational, training, and skills are identical between CNAs and NAs. Quality of care and client safety would not be compromised.

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I strongly support HB 739.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I **strongly support HB 739**.

RE: HB 739 – Testimony in Strong Support – HMS 4/5/11 – Rm. 016 1:15 p.m.

Dear Chair Chun Oakland, Vice Chair Ihara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

Please be assured that the difference between CNAs and NAs is basically a 24-hour examination. Educational, training, and skills are identical between CNAs and NAs. Quality of care and client safety would not be compromised.

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I strongly support HB 739.

RE: HB 739 – Testimony in Strong Support – HMS 4/5/11 – Rm. 016 1:15

p.m.

Dear Chair Chun Oakland, Vice Chair Ihara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

Please be assured that the difference between CNAs and NAs is basically a 24-hour examination. Educational, training, and skills are identical between CNAs and NAs. Quality of care and client safety would not be compromised.

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I strongly support HB 739.

Testimony in Strong Support of HB 739 – HMS 4/5/11 1:15 p.m. Rm. 016

To the Honorable Members of the Committee:

I, Mharjorie Magcanoc strongly support **HB1360** allowing Homes approved for a maximum of three clients, the primary caregiver must be a certified nurse's aide (CNA) and the substitute caregiver must be nurse aide (NA).

I am a primary caregiver for 0 years now and I know for a fact that CNA and NA goes to the same training and both have the same skills to take care of a client. As a foster home primary caregiver I would not risk my licensed to have an NA as substitute caregiver if I am not sure that an NA can give the same quality care as a CNA to my clients. This is my bread and butter and I would not want to loss my means of living.

In my experience having only two clients is hard for us foster caregivers because there are a lot of times that one of our clients got hospitalized or expired, the payment for only one client for **\$2500.00** a month is not enough for us to pay our mortgage, health insurance, utilities and other bills. This is why we needed to have a third client to support our family and business. To have a CNA as a substitute caregiver is a burden for us because CNA caregiver's pay is about **\$10 to \$18** per hour and we are only getting paid **\$1.71** per hour (24/7). We cannot afford to pay a CNA and most of them would prefer to work in the hospital or nursing homes because they have more benefits.

Allowing NA to be a substitute caregiver for a maximum of three clients will help foster caregivers to stay in business. Any increased in cost of care giving will result in closure of foster homes since we never have any increased in pay for how many years now. I urge your support.

This bill is not only the right thing for the foster caregiver but also to the increased aging population. Thank you for your attention to this important issue.

RE: HB 739 – Testimony in Strong Support – HMS 4/5/11 – Rm. 016 1:15 p.m.

Dear Chair Chun Oakland, Vice Chair Ihara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

Please be assured that the difference between CNAs and NAs is basically a 24-hour examination. Educational, training, and skills are identical between CNAs and NAs. Quality of care and client safety would not be compromised.

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I strongly support HB 739.

RE: HB 739 - Testimony in Strong Support - HMS 4/5/11 - Rm. 016 1:15
p.26

Dear Chair Chm Oakland, Vice Chair Ihara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

I really need your help 2 clients is not enough to pay my bills and mortgages especially when 1 of my clients goes to the hospital or expired. The payment of 1 Medicaid client for \$1800 or \$2500 is not enough. I can not afford to pay CNA fee for \$10 per hour or more and most CNA's prefer to work at the nursing home facilities because they have more benefits.

I thank you very much for your attention and support to HB 739.

Sincerely,

Melanie Damer

RE: HB 739 - Testimony in Strong Support - HMS 4/5/11 - Rm. 016 1:15 p.m.

Dear Chair Chun Oakland, Vice Chair Ihara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

Please be assured that the difference between CNAs and NAs is basically a 24-hour examination. Educational, training, and skills are identical between CNAs and NAs. Quality of care and client safety would not be compromised.

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I strongly support HB 739.

Thank you
so much for
understanding

(Ariline S. Albis)

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,800-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I **strongly support HB 739**.

RE: HB 739 -- Testimony in Strong Support -- HHS 4/5/11 -- Rm. 016 1:15
p.m.

Dear Chair Chun Oakland, Vice Chair Ihara and Members of the Committee:

I **strongly support HB 739**, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

Please be assured that the difference between CNAs and NAs is basically a 24-hour examination. Educational, training, and skills are identical between CNAs and NAs. Quality of care and client safety would not be compromised.

Furthermore, we face significant language and cost barriers in taking the CNA examination. We need our families to substitute when we are unable to be present, but the CNA examination makes unfeasible for our family members to become CNAs.

In today's economy, we cannot make it unless we get three clients. When one of our clients go to the hospital, we do not get paid. Ironically, if we have only 2 clients our substitutes as well as the primary caregiver need only be NAs. It is not that much more difficult to care for an additional client because clients often go to the hospital. When a client goes to the hospital, we do not usually fill their space, unless we know for sure they are not returning.

Foster homes cannot afford to pay rates CNAs demand. Foster homes receive Medicaid reimbursement of approximately \$1,500-\$2,500 per month per client for nursing home level services. Similar services in a nursing home would cost at least \$7,000 per month per client. Thus, care in foster homes saves 65-75% of the cost of care in a full-service nursing home.

Meanwhile, we are struggling to make our mortgage payments and other obligations. Please, we need your help.

For these reasons, I **strongly support HB 739**.

RE: HB 739 - Testimony in Strong Support - HMS 4/5/11 - Rm. 016 1:15 p.m.

Dear Chair Chun Oakland, Vice Chair Ibara and Members of the Committee:

I strongly support HB 739, which requires substitute caregivers in Community Care Foster Family Homes (foster homes) with 3 clients to be either Certified Nurse Aides (CNAs) or Nurse Aides (NAs).

I really need your help 2 clients is not enough to pay my bills and mortgages especially when 1 of my clients goes to the hospital or expired. The payment of 1 medicaid client for \$1800 or \$2500 is not enough. I can not afford to pay CNA fee for \$10 per hour or more and most CNA's prefers to work at the nursing home facilities because they have more benefits.

I thank you very much for your attention and support to HB 739.

Juanita Sagon
