Committee

HB 902 HD 2 SC 1 Relating to the University of Hawai`i

I am a nurse practitioner and professor of nursing writing **in support** of HB 902 HD 2 SC 1 to provide a health care revolving fund which supports residency programs to physicians and nurse practitioners. I believe that nurse practitioners can provide the backbone of excellent primary care to rural areas. Nurse Practitioner patient care outcomes have proven to be as effective as those of physicians. Competent, educated health care providers are desperately needed for help maintain health in all areas of health.

Please support HB 902 HD 2 SC 1 Relating to residency programs in Hawai`i.

RELATING TO AGRICULTURE

L A T E

HB 902, HD2, SD1

RELATING TO LANDS CONTROLLED BY THE STATE.

I oppose this bill. I think it's great to have the **STATE OF HAWAII LAND DIVISION OF DLNR lease and sub lease crown lands to crystal meth drug dealers.** I won't say names, but contact Barry Cheung and Steve Lau of Land Division of the accusations that have been brought to their attention. Since these are accusations and no convictions or "hard" evidence has been presented, this remains to be accusations and ignored.

Yes, continue to lease and sublease to crystal meth drug dealers and users. We have no problem for this, since "ice" has become a way of life here for Hawaiians. It has been socially accepted as the "thing to do". Give more control to STATE Officials who choose to continue to lease to Druggies and unqualified ex-inmates of Halawa Prison!! These people are managing and are maintaining our Hawaiian Crown Lands and maintain our Hawaiian Culture for us Hawaiians.

We thank the STATE of Hawaii, Land Division of DLNR and we hope that more "Drug Dealers, cock-fighters, and ex-felons" will have the opportunity to expand their business on State land. Mahalo!!

Thank you for reading my testimony.
Again I OPPOSE this bill.
