File:

**Senate Committee on Ways and Means**

**S.B. 1289 SD1, RELATING TO HEALTH**

**Testimony of Loretta J. Fuddy, A.C.S.W., M.P.H.  
Acting Director of Health  
February 24, 2011; 9:00 a.m.**

1 **Department's Position:** The Department of Health (DOH) strongly supports enactment of this  
2 measure with recommended amendments.

3 **Fiscal Implications:** DOH defers to the Department of Taxation on the estimated revenues to be  
4 generated by increasing the liquor tax.

5 **Purpose and Justification:** The purpose of this measure as amended is to encourage Hawaii  
6 citizens to make healthy decisions relating to the consumption of alcoholic beverages that are  
7 proven harmful to human health. Specifically, increasing the liquor tax will curb the  
8 consumption of alcohol and reduce incidences of alcohol-related morbidity and mortality.

9 Higher taxes on alcohol increase prices and reduce alcohol consumption, mortality and  
10 morbidity. Alcohol-related traffic crashes, violent crime and liver cirrhosis significantly decline  
11 with increased taxes. The five-year (2006-2010) average for ADAD-funded annual admissions  
12 with alcohol identified as the primary substance at admission is 1,046 adults (or 32% of total  
13 adult admissions) and 785 adolescents (or 36% of total adolescent admissions).

14 Underage drinking continues to be a major public health problem. Teens who start  
15 drinking before age 15 are four times more likely to develop alcohol dependence and 2.5 times  
16 more likely to develop an addiction than those who begin drinking after age 21. Beer functions  
17 as an entry or introductory drug for young people and a high percentage of young people who

1 drink become involved with other drugs. Several studies have shown that youth are especially  
2 sensitive to changes in prices. When prices rise there are greater reductions in consumption and  
3 alcohol-related problems among youth. Taxes that increase the price of alcoholic beverages  
4 could deter some youth from drinking, reducing current and future alcohol problems.

5       Addiction to alcohol contributes disproportionately to injury, illness and death:

- 6       •       Alcohol promotes hypertension, liver cirrhosis, cancers of the liver, mouth,  
7               esophagus and larynx.
- 8       •       The harm alcohol causes in the form of dysfunctional families, ruined careers and  
9               school failure is incalculable.
- 10       •       Drinking during pregnancy is the single most preventable cause of birth defects.  
11              A woman's preconception alcohol use can be associated with poor behavioral risk  
12              factors and outcomes that include, but are not limited to, preconception smoking,  
13              domestic violence, and unintended pregnancies. Nearly 50% of pregnancies in  
14              Hawaii are unintended (13% unwanted pregnancies). Unintended pregnancies  
15              increase the risk of having an alcohol exposed pregnancy and giving birth to a  
16              child with Fetal Alcohol Spectrum Disorders.
- 17       •       Approximately half of all violent offenses, including murder, rape and robbery are  
18               alcohol related.
- 19       •       Excessive consumption of alcohol is known to be a dominating factor in  
20               one-fourth to one-half of marital violence cases and one-third of child molestation  
21               cases.
- 22       •       Alcohol strains the resources of emergency rooms, police departments, and  
23               prisons and contributes to reduced workplace productivity and high rates of  
24               absenteeism and illness.

- 1 • Alcohol use escalates the cost of life and health insurance premiums for all  
2 citizens, drinkers and non-drinkers alike.

3 The liquor tax is a user tax -- the more you drink, the more you pay. Over 80% of  
4 Americans 18 years or over consume either no beer at all or, at most, three beers a week. The  
5 6% of drinkers who purchase over 50% of the alcohol would pay the lion's share of the tax.

6 To ensure that the subject (i.e., liquor tax) is encompassed within the title of the bill  
7 (i.e., health), we respectfully recommend that the second sentence of the purpose clause  
8 (Section 1 on page 1, lines 4-5) be amended to read as follows:

9 Specifically, this Act seeks to curb the consumption of alcohol which reduces incidences  
10 of alcohol-related morbidity and mortality by increasing the liquor tax.

11 Thank you for the opportunity to testify on this measure.

*The Official Sponsor of Birthdays*

February 23, 2011

Committee on Ways and Means  
Senator David Ige, Chair  
Senator Michelle Kidani, Vice Chair

**Hearing:**

February 24, 2011, 9:00 a.m.  
Hawaii State Capitol, Room 211

**RE: SB1289, SD1 – Relating to Health**

**Comments**

Chair Ige, Vice Chair Kidani and members of the Committee on Ways and Mean. Thank you for the opportunity to offer these written comments on SB1289, SD1 which raises the liquor tax.

In earlier testimony, we endorsed the sugary beverage fee which was deleted by the Committee on Health. **Because of Hawaii's continuing economic crisis, we would urge this committee to reinsert the beverage fee language which we believe could raise an additional \$65 million for our state's coffers, thus mitigating our revenue shortfall somewhat.**

In addition, the fee on sugary beverages would also help in the battle against obesity which will soon be Hawaii's number one public health problem. We would also point out to the committee that obesity increases the risk of multiple health conditions, including diabetes, hypertension, heath disease and a number of cancers.

Obesity is a serious health concern for children and adolescents. Results from the 2007-2008 National Health and Nutrition Examination Survey, using measured heights and weights, indicate that an estimated 17% of children and adolescents ages 2-19 years are obese. Among pre-school age children 2-5 years of age, obesity increased from 5 to 10.4%; among 6-11 year olds from 6.5 to 19.6%; and among adolescents aged 12-19 from 5 to 18.1%.

**Alarminglly, obese children and adolescents are more likely to become obese as adults.** One study found that approximately 80% of children who were overweight at aged 10–15 years were obese adults at age 25 years. Another study found that 25% of obese adults were overweight as children. Clearly something has to be done. **Accoding to the CDC in 2003, Hawaii's childhood obesity rate was 13.3%. In 2007, it more than doubled to 28.5%.**

The *Dietary Guidelines for Americans 2005*, indicates that the healthiest way to reduce caloric intake is to decrease one's consumption of added sugars, fats, and alcohol, all of which provide calories but few or no essential nutrients. One way for people to reduce their intake of added sugars and help manage their weight is to reduce the amount of sugar-sweetened beverages they drink.

We are concerned that in addition to developing adult risk factors associated with cardiovascular disease and Type 2 diabetes, **obese children and adolescents are more likely to become obese as adults**. Clearly something has to be done.

As with the battle against tobacco, we believe that combating obesity should be a two prong effort. First, public education efforts must begin at childhood, and second, this effort should be combined with a sugary beverage fee/tax that discourages sugary beverage consumption. The aim is to affect a social norms change. Simply, if the tax on sugary beverages is high, diet drinks that do not have a tax become more attractive. This strategy worked well with cigarettes and smoking, and will work well for obesity.

**We have a recommendation with respect to the additional revenues generated. We would like to see a percentage of this revenue earmarked for obesity, nutrition and physical activity initiatives statewide.**

We believe that SB1289, SD1 has the potential of addressing two of the major problems that our state faces, a fiscal, as well as, a health problem.

**We would urge this committee to reinsert the sugary beverage fee language that was deleted previously.**

Thank you for the opportunity to provide these written comments regarding SB1289, SD1.

Respectfully,

George S. Massengale, JD  
Director of Government Relations

RE: **SB 1289, SD1 Relating to Health**

Hearing: Thursday, February 24, 2011 at 9:00 am

Honorable Chairperson Ige, Vice Chairperson Kidani and Members of the Committee On ways and Means

HMHB is a statewide coalition of public and private agencies and individuals committed to the improvement of maternal and infant health status in Hawaii through education, coordination and advocacy. **HMHB is testifying today in support of SB 1289,SD1 Relating to Health. This bill promotes safety and health in Hawaii through increases in the liquor tax.**

Consumption of alcohol, particularly during pregnancy, results in serious health issues. Given the shortage of funding available to support programs which deal with the effects of alcohol consumption or to support prevention program to educate the public about the effects of alcohol consumption, it is an excellent idea to increase the tax on liquor. For example, Fetal Alcohol Syndrome is the leading cause of mental retardation in this country and is completely preventable if women do not drink while pregnant.

**We would also ask that a penny of the increase taxes be designed to The Path Clinic. The Path Clinic is the only comprehensive prenatal addiction clinic in Hawaii. The population of women served are known to have a 4-5 times greater risk for costly preterm and low birth weight deliveries. The birth outcomes for women served at the Clinic have far exceeded expectations. Their preterm and low birth weight rates are comparable to the average rates for women statewide. This is remarkable given the risk level of this population: 98% lived below the poverty level; 57% had lost custody of a previous child; 34% had histories of incarceration; and 31% were homeless at some point during their pregnancy.**

**While not a substance abuse treatment program, over 90% significantly reduced substance use with 81% becoming abstinent. 95% of women maintained custody of their infants at 10 weeks and the repeat pregnancy rates was very low.**

Alcohol like tobacco is a legal drug, but a drug none the less and should be considered a “luxury” item for taxing purposes. The penny from this increase tax would be put to good use at The Path Clinic.

We urge your **support** of this bill.

Mahalo for your consideration of this bill and our testimony.

February 24, 2011

To: Senator David Y. Ige, Chair, Senate Committee on Ways and Means; Senator Michelle Kidani, Vice Chair; and members of the Committee

From: Carol McNamee, Public Policy Chairman – MADD Hawaii

Re: Senate Bill 1289,SD1 – Relating to Health

---

I am Carol McNamee, founder and current Vice Chair of Public Policy for MADD Hawaii. I am testifying on behalf of the membership of MADD Hawaii in strong support of SB 1289, SD1 – relating to health. This bill proposes increases in the tax on alcoholic beverages as a means of promoting safety and health.

Alcohol is a major contributor to an array of economic costs and social problems in the United States. These include lost productivity, health-care expenditures, motor vehicle crashes, fetal deformities, spousal and child abuse, violence, crime, accidental falls, fires, drownings and suicides. (*Center for Science in the Public Interest*)

Over 105,000 Americans die each year from alcohol-related causes. According to the National Institute on Alcohol Abuse and Alcoholism, the economic costs to the nation exceed \$185 billion in emergency and long-term medical expenses, lost productivity, and crime and property damage as well as police and court costs. Hawaii shares in this enormous human and financial cost of alcohol-related problems. It is estimated that alcohol-related crashes *alone* result in a \$400,000,000 cost to our State.

Adjusting state tax rates makes sense because states and localities bear most of the burden of alcohol-related problems in costs associated with law enforcement, emergency medical services, health care, homeless services, etc Alcohol is a discretionary item, not a necessity. Increasing taxes on alcohol is more equitable than increasing gasoline or general sales taxes.

Some will argue that raising the price of alcohol will penalize the majority of responsible drinkers. However, the vast majority of Americans do not drink or drink small amounts and infrequently. Therefore, most people would feel almost no impact from a raise in alcohol taxes. (*Drinking in America*; U.S. Department of Justice) Rather, increases in alcoholic-beverage excise taxes would primarily be felt by those who drink heavily.

Over the years, State revenues across the country have declined significantly in terms of real dollars, costing states millions of dollars per year in lost potential revenues. Once a significant source of revenue for most states, alcohol taxes now contribute much less. Alcohol taxes in the United States are significantly lower than in most industrialized countries. (*CSPJ*)

Two findings about who is affected by price increases are very important:

- Youth and young adults reduce their drinking in response to price increases more than adults in general. This is especially important, given that youth experience a disproportionate share of alcohol-related problems.
- According to several studies, heavy drinkers, as well as moderate and light drinkers, drink less as alcohol prices rise.

The majority of research finds that increasing the price of alcohol results in a decrease in:

1. drinking and heavy drinking
2. drinking and driving and motor vehicle crashes
3. violence and other crime
4. alcohol-related health problems such as cirrhosis

Alcohol is the number one drug problem among young people with beer being their alcohol of choice. The price of a six-pack of beer may be equal to or lower than the price of a six-pack of soft drinks. According to the National Institute on Alcohol and Alcoholism, lower taxes and prices of beer leads to higher levels and frequency of drinking among youth and increases traffic crash fatalities.

MADD would ideally like to see a portion of the money collected from higher tax rates applied to the prevention and treatment of alcohol problems. We have seen instances of DUI offenders not receiving the treatment they need because of availability or affordability and subsequently causing serious crashes resulting in death or injury.

There is extensive literature to document the relationship between alcohol taxes and alcohol problems in our society. Therefore, MADD – Hawaii strongly supports this bill as an effective means of decreasing underage drinking and reducing alcohol-related highway fatalities among people of all age groups. In addition, the revenue generated may help support the systems which respond to the costly problems associated with alcohol and may help fund the programs which prevent the problems in the first place.

Thank you for the opportunity to testify.

**DATE:** February 23, 2011

**RE:** **S.B. 1289, S.D. 1 – Relating to Health**  
**Hearing: Thursday, February 24, 2011 at 9:00 a.m.**

---

Dear Chair Ige and Members of the Committee on Ways & Means:

I am Mihoko Ito, submitting comments on behalf of the Distilled Spirits Council of the United States (“DISCUS”). DISCUS is a national trade association representing producers and marketers of distilled spirits sold in the United States.

DISCUS **opposes** S.B.1289, S.D. 1, which promotes safety and health in Hawaii through increases in the liquor tax.

The bill’s stated purpose is to “encourage Hawaii citizens to make healthy decisions relating to the consumption of liquid beverages that are proven harmful to human health.” This makes the assumption that reduced consumption of alcohol is necessarily healthier for everyone. This is not always true. According to the Harvard School of Public Health website “The Nutrition Source,” various studies have shown that there are many people who benefit from moderate drinking.

Furthermore, liquor taxes do not appear to act as a deterrent to heavy drinkers – the population that the higher tax rate is presumably aimed at. Raising taxes on liquor only serves to penalize responsible consumers and does not deter those for whom taxes are of little concern. The National Institute on Alcohol Abuse and Alcoholism (NIAAA), the government’s lead agency on alcohol issues, reported in its January 2001 issue of Alcohol Alert that research suggests the heaviest-drinking 5 percent of drinkers do not reduce their consumption significantly in response to price increases. It is important to note that in another 2009 meta-analysis of 112 studies on the same subject, a “heavy” drinker is anyone having more than **two** drinks a day; not necessarily an abusive drinker.

February 23, 2011

Page 2

The proposal to increase beverage alcohol excise taxes comes despite the fact that liquor is already heavily taxed in Hawaii. For a typical bottle of distilled spirits sold here, 25% percent of the retail price goes to pay State and local taxes and fees. When factoring in federal requirements, 51% of the purchase price of each bottle of distilled spirits goes toward taxes and fees.

Increasing liquor taxes will only lead to higher prices, especially when many consumers and local businesses are still recovering from the recession. Increasing the liquor gallonage tax rates by over 50% would significantly increase costs for anyone that enjoys a cocktail, beer or glass of wine, and this will lead to lower consumption. Higher tax rates are estimated to decrease retail spirits sales by \$13.6 million. Including beer and wine in that estimate would increase the total to over \$30 million.

The most comprehensive measure of how the beverage alcohol industry is performing is to look at Hawaii's alcohol tax collections. While inventory adjustments sometimes move tax collections from one fiscal year to another, the table below shows that alcohol tax collections were actually down in the most recent fiscal year (2010). And, whereas the average pre-recession growth rate was 2.4% annually, in the last three years the growth rate is -1.4%.

<b>Hawaii Alcohol Excise Tax Collections</b>		
<b>Fiscal Year</b>	<b>Alcohol Excise Taxes</b>	<b>Growth</b>
FY 1999	\$ 38,507,709	
FY 2000	\$ 38,973,647	1.2%
FY 2001	\$ 37,739,684	-3.2%
FY 2002	\$ 39,086,648	3.6%
FY 2003	\$ 41,177,989	5.4%
FY 2004	\$ 41,250,271	0.2%
FY 2005	\$ 43,736,608	6.0%
FY 2006	\$ 45,654,388	4.4%
FY 2007	\$ 46,033,671	0.8%
FY 2008	\$ 45,619,485	-0.9%
FY 2009	\$ 47,241,622	3.6%
FY 2010	\$ 44,072,530	-6.7%
CAGR Pre-Recession		2.4%
CAGR Since Recession		-1.4%

Telephone : 808-533-1292

DATE: Thursday, February 24, 2011- TIME: 9:00am

PLACE: Conference Room 211

FROM: Hawaii Food Industry Association - Lauren Zirbel, Government Relations

TO: COMMITTEE ON WAYS AND MEANS

Senator David Y. Ige, Chair

Senator Michelle Kidani, Vice Chair

RE: SB 1289 SD 1 RELATING TO HEALTH

HFIA strongly opposes this bill.

**The legislature must stop taxing groceries. It is the most unfair and regressive way to fill the budget deficit.**

The beverage industry is already doing more than its fair share to raise money for the State of Hawaii. The bottle bill has cost the industry a significant amount of profit percentage in surcharges and reduced sales. **Please don't pass on the tab for the budget deficit to the food and beverage industry.**

Our state already boasts the second highest excise tax rate on beer in the country, with only Alaska coming in higher. In fact, at \$.93 per gallon, Hawaii's bottled beer excise tax rate is **260% higher than the national average of \$.26 per gallon.**

**Distilled spirits are among the most heavily taxed consumer products in the United States** and are already assessed significant taxes and fees in Hawai'i. For a typical bottle of distilled spirits sold in Hawai'i, 25% of the retail price goes to pay State and local taxes and fees. When factoring in federal taxes and other fees, 51 % of the purchase price of each bottle of distilled spirits goes toward such taxes and fees.

HFIA does not support tax increases, especially increases that will simply increase the costs to consumers at a time when taxpayers cannot afford such increases. **This tax is highly regressive and will impact the poor the most.**

If you pass this measure it will severely damage the retail and beverage industry, **costing the state many jobs.** The loss of these jobs will cost significantly more in the long run than the gains in revenue which this liquor tax increase may generate.

Thank you for the opportunity to provide this testimony.

February 23, 2011

Senator David Y. Ige, Chair  
Committee on Ways and Means

RE: Notice of Decision Making – February 24, 2011, 9:00am  
Testimony – SB 1289 (Relating to Health)

Dear Senator Ige:

I am strongly opposed to the passage of SB 1289 which increases the liquor tax. As the General Manager of a major hotel in Waikiki (employing over 700 associates), the net result of this bill will be the layoffs of several of my bartenders and waithelp.

With the extraordinarily high wages and benefits our employees receive, our drink prices are already the highest in the market. Increasing the liquor tax will force us to raise our prices and will drive our current customers to other less costly establishments.

I speak from experience and the fact that we have had to close several of our bars and restaurants in the past because high labor costs forced our prices higher which decimated our customer base. At the Hyatt Regency Waikiki the following restaurants and bars were closed for the aforementioned reason: Trappers, Spats Night Club, Harry's Bar & Grill, Texas Rock and Roll Sushi Bar and Musashi. These outlets once employed over 150 bartenders, servers, cooks and support staff.

The passage of this bill would result in further loss of life sustaining jobs not only in our hotel but across the entire hospitality industry.

Balancing the State's Budget is everyone's responsibility. These "targeted" tax measures are not the answer. All Hawaii citizens need to share the burden.

Sincerely,

DAVID LEWIN  
General Manager

TESTIMONY OF MICHAEL JOKOVICH, GENERAL MANAGER,  
HYATT REGENCY MAUI RESORT AND SPA,  
**ON SB1289 SD1 RELATING TO HEALTH**  
HEARING: THURSDAY, 2/24/11 AT 9:00 AM

Good morning Chairman Ige and members of the Senate Ways & Means Committee

As the general manager of a major resort hotel on Maui, I wish to express strong opposition to SB1289 SD1 which will increase the tax on liquor.

We already hear comments from our guests that the drink prices in our restaurants and lounges are too high but, as we continue the struggle to return to profitability in these uncertain economic times, we would have no alternative but to pass this increase on to our customers. This can only strengthen the perception already held by many in the travel industry that Hawaii is too expensive and they should look elsewhere for more affordable vacation and meeting destinations.

I firmly believe that any additional revenue this tax increase might bring to the State will only be offset by a decrease in revenue due to this lost business, thus doing little to benefit our physical health while severely hurting the economic health of our working men and women whose livelihood depends on the hospitality industry.

Please show your support for a healthy Hawaii by voting No on SB1289 SD1.

Thank you for your consideration.

Members, Senate Committee on Ways and Means

FR: Lance Hastings, Director of State Government Affairs

RE: **SB 1289 SD1 - Relating to Alcohol Tax Increase**

MillerCoors is in opposition to SB 1289 because of the negative economic impact it will have on consumers, retailers, distributors and brewers in Hawaii. As the attached economic analysis demonstrates, a tax increase on beer will yield negative consequences, including the loss of jobs in the state.

Now is not the time to increase the costs to Hawaii's valued consumers and businesses.

For these reasons, we oppose SB 1289 SD1.

Please contact me if you have any additional questions at (916) 771-6447.

## MillerCoors

### Hawaii Will Pay a High Economic Price To Raise Minimal Revenues From a High Alcohol Tax

Currently, the State of Hawaii levies an excise tax on beer equal to \$0.90 per gallon. Now the state is considering increasing beverage alcohol taxes to pay for budget shortfalls resulting from higher state spending. One of these proposals is for an increase of \$13.88 per barrel (\$0.45 per gallon, \$1.01 per case, \$0.25 per 6-pack) on the beer excise tax. Such an increase will harm Hawaii's economy, hurt the state's working poor and raise relatively little in additional revenue.

#### A 50.0% increase in the excise tax on beer could result in job, sales and income losses

Raising beer taxes in Hawaii by 50% will marginally increase revenues, but at a high economic price. It is estimated that the tax increase will result in lost sales of 844,410 cases impacting workers at retail stores, bars, restaurants, hotels, and other venues in the state. It is likely that about 200 retail jobs alone will be lost in the state because of the proposed tax increase.<sup>1</sup>

A \$13.88 per barrel beer tax increase could cost the state of Hawaii \$34.0 million in economic activity due to a decline in sales and the resulting decreased need for raw materials (i.e. corn, hops and malt) and packaging materials (such as glass and aluminum).

If Hawaii were to raise its beer excise tax by 50%, people in the state could lose their jobs. The state could lose up to 400 jobs, especially in the hospitality industry - jobs often held by those new to the workforce.

Lawmakers should not enact job-killing tax increases, especially in these uncertain economic times. With 36,600 people already out of work in the state, now is not a good time to add more people to the unemployment lines.<sup>2</sup>

#### A 50.0% increase in the excise tax on beer will raise only minimal revenues

At the same time, the tax will raise only about \$11.4 million and will result in a net loss of economic activity in the state of close to \$34 million.<sup>3</sup>

	Beer Related Taxes in Hawaii		
	Before Excise Tax Increase	After Excise Tax Increase	Net Change
Excise taxes	\$ 27,948,280	\$ 39,369,831	\$ 11,421,551
Sales taxes	\$ 18,874,647	\$ 18,562,535	\$ (312,112)
Business Taxes	\$ 29,609,588	\$ 27,877,024	\$ (1,732,564)
Total Beer Related Taxes	\$ 76,432,516	\$ 85,809,391	\$ 9,376,875

In fact, the increase in excise taxes will be offset to a great extent by lost sales taxes and a loss in business and personal tax revenues. Once these factors are taken into account, the tax will raise only \$9.4 million – or about \$23,400 for each person thrown out of work.

<sup>1</sup> Based on an economic impact analysis conducted for John Dunham and Associates for the Beer Institute (see: [www.beerservesamerica.com](http://www.beerservesamerica.com)), 2009 and a model developed for MillerCoors by John Dunham and Associates, 2011.

<sup>3</sup> Based on a model developed for MillerCoors by John Dunham and Associates, 2011.

Dear Members of the Ways and Means Committee-

SB1289- OPPOSE

- Beer taxes in Hawaii are among the highest in the nation and far exceed the national average. Beer and alcohol should not be singled to fund programs or fill budget shortfalls. Practical funding solutions should be fair and broad-based.
- Beer & alcohol excise taxes cost jobs. Any tax hike, regardless of the amount, will hurt consumers and businesses on every island and cost jobs. In this economy, we should be thinking about things that will increase economic prospects. Higher beer and alcohol excise taxes and reduced sales will negatively impact jobs in brewing, wholesaling, grocery and hospitality and have a negative broad ripple effect in other jobs that supply/support these businesses such as shipping, trucking, tourism and other services.
- Beer & alcohol taxes impact disposable income. Excise taxes are hidden taxes which get marked up several times causing it to be a much larger increase to the consumer.
- Nationally, beer excise taxes already add up to over \$5 billion. 44% of the price of beer is already taxes of some sort compared to all other consumer products which are less than 32%.
- Beer & alcohol excise taxes are inefficient. History shows that for every dollar raised in new excise taxes the net for the state is actually only about half. Excise taxes are hidden taxes which get marked up several times causing it to be much larger increase to the consumer. Compared to broad based taxes, beer and alcohol excise taxes damage the economy to a greater degree, reducing state revenues from many other sources.
- Beer & alcohol excise taxes are regressive. With higher costs on everything from filling the gas tank to paying for groceries, a higher beer tax is just one more burden that consumers with modest incomes can't afford. Beer excise taxes fall most severely on working men and women, an unfair group to single out to pay additional taxes. Lower income households pay, as a percent of their income, several times more than wealthier households.

Best regards,

Mattson C. Davis

President

Maui Hotel & Lodging Association  
on  
**SB1289 SD 1**  
**RELATING TO HEALTH**

COMMITTEE ON WAYS AND MEANS  
**Thursday, 02-24-11, 9:00am**  
**Conference room 211**

The Maui Hotel & Lodging Association (MHLA) is the legislative arm of the visitor industry. Our membership includes approximately 120 property and allied business members – all of whom have an interest in the visitor industry. The visitor industry is the largest employer of residents in Maui County.

MHLA opposes SB1289 SD1 which will increase liquor taxes.

We are concerned because these additional fees will be passed along to the consumer, to our residents and visitors. At a time when unemployment still remains high and the economy has not yet stabilized, imposing additional taxes will only add to the cost of living and vacationing in Hawaii.

The visitor industry is the economic engine; and we continue to struggle despite headlines that hype increased visitor arrivals. We've had to offer deep discounting to lure visitors to Maui. Therefore, our revenues are down, while expenses (such as labor, energy, food and taxes) continue to increase. The result is little to no profit, for some it's a negative. That's why we've seen 3 major hotels in foreclosure on Maui since last year. In addition, we have still not re-hired all of the employees who were laid off since 2008.

The notion that we are healthy and stable is simply not true. We encourage you to support legislation that encourages a healthy industry; and not impose additional taxes that will deter visitors and impede our recovery.

We urge you to oppose SB1289 SD1.

Thank you for the opportunity to testify.

Re: S.B. No. 1289, S.D.1 (SSCR355) Relating to Health

Dear Chair Ige, Vice Chair Kidani, and Committee Members:

The Hawaii Liquor Wholesalers Association ("HLWA") respectfully submits the following written testimony in opposition to S.B. No. 1289, S.D.1 relating to the liquor tax, which is scheduled for decision making by your Committee on Ways and Means on Thursday, February 24, 2011. S.B. No. 1289, S.D.1 would increase the taxes payable on distilled spirits, sparkling wine, still wine, cooler beverages and beer. While we understand that the State government faces substantial fiscal issues, HLWA believes that S.B. No. 1289, S.D.1 is inappropriate and unworkable for several reasons.

First, Hawaii's tax rates on liquor already are among the highest in the country. Hawaii's businesses and residents already are burdened by high costs of living and doing business. Further increasing taxes would result in employment and job losses.

Second, particularly in a recessionary economy, consumption of alcoholic beverages is likely to be highly elastic or sensitive to changes in prices. Thus, increasing the taxes on liquor will result in decreases in consumption that offset any projected increases in tax revenue and not offset any resulting job losses.

Third, a significant portion of alcoholic beverages are consumed by visitors. While businesses in the tourist industry were forced to lower rates to attract visitors during this economic recession, adding an increase in the liquor tax would only make the cost of a vacation even more expensive, and is counter-productive to attempts to stimulate the State's number one economic driver.

For the foregoing reasons, we respectively oppose S.B. No. 1289, S.D.1. Thank you for your consideration of the foregoing.

Very truly yours,

HAWAII LIQUOR WHOLESALERS ASSOCIATION

  
Warren Shon  
Its Vice President

Senator Michelle Kidani, Vice Chair

Re: Testimony on SB 1289, SD 1 Relating to Health

From: Paula Hegele, President, Tedeschi Vineyards, Ltd.

On behalf of Maui's only winery, I would like to strongly oppose SB 1289 SD1 to increase Hawaii's existing liquor taxes. Although, the intent of better health for Hawaii is an admirable cause, this is a taxation bill directed at alcohol sales which will negatively impact the business of local manufacturers, retail stores, restaurants and the tourism industry.

Hawaii already stands out as being one of the highest liquor taxation states in the country. As a local winery, we take great effort to keep up with the high costs of manufacturing in Hawaii and strive to create quality products from local agriculture. Especially in these already difficult years, we have done everything we can to cut costs and keep our employees with benefits and paychecks. However, whether the intention of this bill is to reduced liquor consumption or raise taxes, our wine pricing will go up significantly. The tax increase will be passed on to the consumer and our history shows that our wine sales will be reduced.

Tedeschi Vineyards, along with other local manufacturers labor every day to produce the best products possible and struggle to stay in business. We know that we are in the specialty market and our products are purchases of choice not necessity. Therefore we are dependent on in-state sales for survival. Increasing taxes will reduce bottle purchases; we will have no choice but to reduce staff to pay for the increased overhead of production costs and the retail tourism operations.

Please consider the full impact of increasing taxes. Any tax increase would be a hardship, considering we already have one of the highest liquor tax rates in the country, and the proposed increase is outrageous. Hawaii liquor manufacturing companies like us, are working hard to be a value to the State economy by producing locally, utilizing local agriculture ingredients whenever possible and hiring and training local employees in a unique industry, which is appreciated and supported by the visitors and our community.

We are hopeful that this year's legislative body will be working on ways to stimulate our economy, increasing the revenues of local businesses and therefore facilitating a healthy Hawaii.

Employees of Anheuser-Busch Sales of Hawaii

Sales of Hawaii

TO: COMMITTEE ON WAYS AND MEANS

Senator David Y. Ige, Chair

Senator Michelle Kidani, Vice Chair

RE: SB 1289 SD 1 RELATING TO HEALTH

**The employees of Anheuser-Busch urge this Committee to oppose this bill.**

The reasons why we oppose this bill are this:

- **Excise tax increases are inefficient** – history shows that for every dollar increase in the excise tax, only 50% flows back to the State in tax revenue. Excise taxes are hidden taxes that get marked up several times causing the increase to the consumer to be much higher.
- **Beer excise taxes in Hawaii are already among the highest in the nation** – Hawaii's beer tax rate is at 93 cents per gallon while the national average is 27

*ANHEUSER-BUSCH SALES OF HAWAII, INC.*

*99-877 Iwaena St., Aiea, HI 96701  
Tel 808.487.0055 Fax. 808.484.4382*

cents. A 50% tax increase would secure Hawaii's position as the highest in the nation raising Hawaii's beer tax to over 5 times the national average.

- **Beer and alcohol taxes are regressive** – the burden of paying these increased taxes will fall most heavily on the working men and women in this State. It's unfair to single out this class of taxpayers when many families here in Hawaii are living paycheck to paycheck, struggling to make ends meet.
- **Beer and alcohol taxes cost jobs** – our projections show that as prices rise and sales fall, thousands of local jobs will be lost directly or indirectly as a result of a 50% increase in alcohol taxes. The direct impact will be felt immediately by people who work in brewing, wholesaling, grocery, mom & pop stores, restaurants, and hospitality industries. The impact will be felt indirectly by those who support the liquor industry – those in shipping, trucking, suppliers, advertising, marketing, and other professional and non-professional service providers. We feel the community is best served by finding ways to increase jobs at this time, not put more people out of work.

Many of the employees at Anheuser-Busch have worked here for many years and value their employment. We are fortunate that our company has been able to provide good jobs and stable employment. We are especially proud that our company has supported countless charities throughout the State, having also made substantial cash donations including \$250,000 to support University of Hawaii Athletics over the past 3 years. If this liquor tax increase goes through, jobs will be eliminated and it will be nearly impossible to maintain this level of community support in the future.

Our employees have collectively written over 200 personal letters to Senators and Representatives expressing their views. Each did so voluntarily and told their own story in their own words. We ask that you take the time to read them and consider their opinions before making a decision on SB1289.

Thank you for the opportunity to provide this testimony.

Respectfully submitted,

Bonny Amemiya

RE: S.B. No. 1289 Relating to Health

Dear Chair Ige, Vice Chair Kidani, and Committee Members:

On behalf of Southern Wine & Spirits of Hawaii ("Southern"), we respectfully submit the following written testimony in opposition to S.B. No. 1289, relating to health, which is to be heard by your Committee on Ways and Means on February 24, 2011. S.B. No. 1289 would increase the taxes payable on distilled spirits, sparkling wine, still wine, cooler beverages and beer by 50%. While we understand that the State government faces substantial fiscal issues, Southern believes that S.B. No. 1289 is inappropriate and unworkable.

The tourist industry is a very large part of Hawaii's total economy. Many tourists while visiting will consume alcoholic beverages. Raising the liquor tax by 50% would only make the cost of a vacation even more expensive, and would be counter-productive to stimulate the State's number one economic driver. Hawaii's tax rate on liquor is already one of the highest in the country. Hawaii's residents and visitors already are burdened by high taxes on liquor.

Consumption of alcoholic beverages are very elastic and price sensitive, especially in a recessionary economy. Raising the taxes on liquor may result in lower consumption which will lower the amount of taxes paid. Also, consumers may trade down to a lower quality, more affordable product which will generate less dollar volume for wholesalers, retailers, restaurants, hotels and bars which will have an impact on the bottom line and will put jobs at risk. We have 205 employees throughout the State of Hawaii that cannot afford to lose their jobs due to high tax increases.

The State's fiscal issues are shared by all. This bill is targeting a single industry to try to solve the problems by raising taxes that will not do much to ultimately stimulate the economy. It could only hurt the recovery process by putting more strain on business that are already paying a high cost to do business in Hawaii. We respectfully oppose S.B. No. 1289. Thank you for your time.

Sincerely,

February, 23, 2011

Dear Legislators,

While Hawaii needs broad-based solutions to Hawaii's budget problems, increasing the tax on liquor seems like a good idea from the onset, but if you take a closer look at the tax increase, it will have a negative impact on the people who work in the industry and on our visitors – the negative impact will be vast.

Here's a few of points to consider:

- Hawaii depends largely on tourism – continuing to tax beverages will in turn cause an increase to consumers: tourist and locals alike. We are already known to have some of the highest beer taxes in the nation, adding to this and causing an increase in pricing will only create a negative sentiment from our visitors –the hands that feeds us. We are also putting additional burden on our local population. Whether it is realized or not, alcohol sales supports restaurants – as noted in the next point.
- Retailers and restaurants operate on razor-thin profit margins. For many smaller establishments, without high-volume capacity, alcohol sales help to keep them afloat. A significant increase in alcohol taxes, as proposed by this legislation, would force restaurant/bar owners to pass the cost of this increase onto customers. With the poor economy and decreased customer traffic, higher alcohol taxes would undoubtedly result in a decline in alcohol sales. A decline in sales will be the life or death of smaller establishments. Increased taxes - no matter what amount - will negatively impact sales and will affect the thousands of jobs that are directly and indirectly provided by the hospitality industry in Hawaii. People will lose jobs!
- With loss of jobs, comes loss of personal & business tax revenue. Further damping our task to reduce unemployment and create a business friendly environment. High Taxes Cause Job Losses. These job losses would come at a time that the hospitality industry is still recovering from the impacts of the recession. While travel and tourism are mounting a comeback, employment in the hospitality industry is still 4,900 jobs below pre-recession levels. The restaurant industry in Hawaii represented 13% of employment or 76,600 jobs Hawaii in 2010. Hawaii must take steps to increase jobs, not destroy them.

- **Timing:** increasing beverage alcohol taxes will only lead to higher prices as mentioned above – never a good idea when many consumers & businesses are still struggling in the aftermath of the recession. The proposed tax would increase the price of a typical bottle of spirits by 5.6%, a bottle of wine by 4% and a six pack of beer by 5.3%. This is a 50% tax increases – that’s too steep and in the current economy this will tip the scales!
- Finally we must take note that Beverage Alcohol in Hawaii is already grossly overtaxed. For a typical bottle of distilled spirits sold in Hawaii, 25% of the retail price goes to pay direct taxes and fees. When all taxes are considered, a staggering 51% of the purchase price goes toward taxes. Or to be stated another way, the tax burden on beverage alcohol is already so high that Federal, State and local governments collect over \$2 in taxes for every \$1 that the industry (suppliers, wholesalers, retailers and restaurants) earn in profit.

I know all of you are aware that increased taxes - no matter what amount - will have a negative impact, and in the current economy, we the people can't encumber more taxes. Let's do the right thing and keep jobs, support our local industries & business, and find ways to reduce costs vs. raising taxes. It's time for Hawaii to put fiscal responsibility first.

Thank you for your time,

Phyllis Horner Nishimoto, CSW

Testimony to the Ways and Means Committee  
Senator David Y. Ige, Chair  
Senator Michelle Kidani, Vice Chair

Thursday, February 24, 2011  
9 a.m.  
Conference Room 211

RE: Opposition to SB 1289 – Relating to Health

Senator David Ige, Chair and Senator Michelle Kidani, Vice Chair and Members of the Ways and Means Committee:

My name is Jerry Gibson and I am the area vice president, Hawaii region, for Hilton Worldwide. I am testifying on behalf of the thousands of team members employed at our Hilton family properties across the state.

You are well aware of the difficulties that the visitor industry has faced during the economic downturn that started in 2008. We are still trying to recover. It will take several more years until we can achieve the average rates that we had back in 2005.

Because of the impact that the visitor industry has to the state of Hawaii, our losses in revenue have become losses to the entire state, through loss of tax revenue, loss of jobs, loss of demand for goods and services and the list goes on and on.

We are already charging our guests higher TAT taxes and we know that these taxes will increase. Our guests are complaining that the prices in our restaurants are extremely high. They complain about the high costs of groceries and packaged goods at our sundry shops.

An increase in the liquor tax would only serve to reduce the amount consumed and purchased by our visitors thus further hurting our employees as well as our ability to maintain full employment. In addition, a reduction in purchases would actually REDUCE the amount of tax revenue that the state receives.

Our visitors do not have to come to Hawaii. There are many other attractive (and less costly) vacation destinations. We should do everything we can to encourage them to come rather than continuing to find ways to discourage them.

We urge you to hold on SB1290 until which time our economy has recovered and our visitor industry is healthy enough to withstand such an increase.

Sincerely,

Jerry Gibson  
Area Vice President – Hawaii  
Hilton Worldwide

**SB 1289 - Public Decision Making by Senate Ways & Means Committee scheduled for Thursday, February 24, at 9:00am in Conference Room 211 – State Capitol.**

## **SB 1289 & HB 1187 – Alcohol Tax Increase Strongly Opposed to these bills**

My name is Christopher Colgate I am the Oahu Regional Manager for TS Restaurants of Hawaii. We operate eight Restaurants on three Islands, most notably Duke's Waikiki and Hula Grill Waikiki here on Oahu. We employ well over one thousand employees. I would also add that I am also the current Chair of the Hawaii Restaurant Association. I appreciate the efforts being made by the Legislature in addressing the budget shortfall for the State but feel this is targeting an industry that is an integral part of the health of State's tourism industry. I am opposed to SB 1289 & HB 1187.

My opposition points are as follows:

Currently Alcohol in Hawaii is already overtaxed. For a typical bottle of distilled spirits 25% of the retail price goes to pay for direct taxes and fees.

Higher taxes will result in lower profits to restaurants who are not able to pass on the cost to the consumer. This will cause more restaurants to close their doors, go out of business resulting in substantial job losses.

Higher taxes will result in dramatic price increases to the consumer. This will make Hawaii less affordable to those traveling here for business and pleasure. It will also make dining out less affordable for the residents of Hawaii.

The restaurant industry has been reeling from the downturn in the economy and is just now beginning to get back on its feet. Any increase in alcohol taxes could very well loose everything we have gained and ultimately net lower overall taxes for the State.

Respectfully,

Chris Colgate  
Oahu Regional Manager

February 23, 2011

To whom it may concern:

Thank you for hearing my testimony on SB1289 SD1 which proposes to curb the consumption of alcohol by raising the liquor tax. In my opinion, SB1289 SD1 should not be passed.

We are living in a time when we are seeing a lot of independent small businesses disappearing. It has been very difficult for many to continue running their businesses since the stock market crash of a few years ago, and some are just starting to make the climb back to normalcy. This bill which proposes to raise taxes on alcohol by an average of 50% will make it even harder for Hawaii's small businesses to survive.

No matter which angle you take, increasing taxes on goods results in higher costs to the consumers and lower profit margins to the businesses. Both of these take money out of the pockets of the people and reduce their spending power. They destabilize our local economy and lead to unemployment, homelessness, and increased social problems in our state.

If restaurant businesses slow to the point of closing, we lose not only the means of financial support for our employees, but also the very colorful part of Hawaii -- the neighborhoods. I am speaking not only for myself as a local independent restaurateur but for all the small local restaurants in our communities that really provide for our locals and attract visitors to our state to "Taste Hawaii".

Raising prices, cutting back on service, closing restaurants, and losing jobs -- I don't believe this is the way to go. I believe we need to work together, and I believe we need to fix a lot of problems. Tourism and the hospitality/restaurant industry supports Hawaii so much in so many different ways that I think it is dangerous to enforce this tax increase at this time.

Raising taxes on alcoholic beverages will not reduce the consumption of those who drink too much. It will not educate people to drink responsibly nor teach them healthier habits. It will not eliminate the incidence rate of those who insist on driving under the influence.

Raising the alcohol tax will affect the bottom line for businesses in the food industry and all of the people of Hawaii employed by those businesses, and it will adversely impact the hospitality industry that attracts the visitors to our state and generates the greatest support for our local economy.

Thank you for hearing my testimony on this bill.

Sincerely,

Comments:

I am submitting this written testimony in opposition to SB 1289. My name is Craig Nakatsukasa. I am the Off Premise Sales Manager at Paradise Beverages, a local beverage wholesaler, selling and distributing both alcoholic and non-alcoholic beverages to Hawaii retailers. We distribute national brands from large companies like: MillerCoors, Heineken, Corona, Diageo Beer, 7UP / Snapple, and Nestle as well as brands from local companies like Hawaii Nui Brewing Co, Maui Brewing Co and Wailua Soda Works. I read daily about the dire straits of state budget and the need to generate more dollars in addition to all the cuts currently employed. As much as I can appreciate the need to contribute, I cannot understand why the beverage industry is being targeted, especially alcoholic beverages. Alcoholic beverages in Hawaii are already taxed at one of the highest rates in the nation. This drives retail prices very high for our local consumer, as well as our visiting tourist having a beverage in Waikiki. The economy is already tough, with various external expenses constantly on the rise, further increasing our cost of goods in an already competitive market. Profit margins are compressed year after year in order to maintain competitiveness and velocity rates, critical to our survival. 2010 and 2009 sales struggled as a result of this tough economy. An increase in the alcohol tax could severely impact our sales and profitability, causing us to take drastic actions to reduce costs. I fear this would impact our employees in reduced hours and layoffs. Our employees are hard-working, regular people, who feel proud to live in and support Hawaii. Please do not make decisions that will negatively impact their future. Please vote no on SB1289.

**Dear Lawmaker,**

**Rumor has it that this is all but a done deal. I hope that this is not true. While the economy has been spiraling downward the past few years, our raw ingredient costs (not to mention medical costs) have skyrocketed. Restaurants have the slimmest of margins, and this proposed tax will surely put the nail in the coffin for many small operators. I am already in survival mode as it is. Please consider the following:**

*Beverage Alcohol in Hawaii is already grossly overtaxed. The proposal to increase beverage alcohol excise taxes comes despite the fact that, by any measure, beverage alcohol is already overtaxed in Hawaii. For a typical bottle of distilled spirits sold in Hawaii, 25% of the retail price goes to pay direct taxes and fees. When all taxes are considered, a staggering 51% of the purchase price goes toward taxes.*

*The tax burden on beverage alcohol is already so high that Federal, State and local governments collect over \$2 in taxes for every \$1 that the industry (suppliers, wholesalers, retailers and restaurants) earn in profit.*

*Higher taxes result in even higher prices for consumers, fewer sales and lost jobs.*

*High Taxes Cause Job Losses. These job losses would come at a time that the hospitality industry is still recovering from the impacts of the recession. While travel and tourism are mounting a comeback, employment in the hospitality industry is still 4,900 jobs below pre-recession levels. The restaurant industry in Hawaii represented 13% of employment or 76,600 jobs Hawaii in 2010. Hawaii should be taking steps to increase jobs, not destroy them.*

*Like other retailers, restaurants operate on razor-thin profit margins. For many smaller establishments without high-volume capacity, alcohol sales help to keep them afloat. A significant increase in alcohol taxes, as proposed by this legislation, would force restaurant/bar owners to pass the cost of this increase onto customers. With the poor economy and decreased customer traffic, higher alcohol taxes would undoubtedly result in a decline in alcohol sales.*

*Increasing beverage alcohol taxes will only lead to higher prices – never a good idea when many consumers are still struggling in the aftermath of the recession. The proposed tax would increase the price of a typical bottle of spirits by 5.6%, a bottle of wine by 4% and a six pack of beer by 5.3%.*

**Political fundraisers and charity organizers are always looking for assistance from restaurants and the beverage industry, and yet here on the table, is a measure to destroy us. Please help us recover, you could not have picked a worse time to consider this additional tax.**

**Sincerely,**

**Comments:**

Price to retailer will go up 50% as well as price to consumer.

Sales will definitely slow down thus resulting in tremendous job loss here at our company, less advertising in the state, less promotional activity in the state, and an less spending period.

This bill will definitely have a negative trickle down affect that no one is really investigating.

Less shipments into the state, Matson and Horizan lines will increase container fees, less deliveries means less fuel purchased resulting in price increases for fuel, less beer sold into retailers means less service, so reduced sales force and merchandisers, and drivers.

With higher retail prices, less bought by consumers in an already down marketplace, which results in less bottle deposits, less GET and overall taxes.

February 23, 2011

RE: SB 1289

To Whom it May Concern,

After reviewing proposed SB 1289 I am writing this letter as a testimony of opposition.

Although I agree with the concept of educating those in Hawaii to make healthful choices in their diet, SB 1289 does not appear to be an effective measure in the prevention to those in Hawaii to divert their regular routine of consumption of less than nutritious items.

As a mother of three young children, I do not condone unhealthy choices in my children's diet. I simply do not purchase items that are not conducive to healthful choices. My husband who is born and raised on Kauai now purchases primarily organic options from the store, which, as he regularly puts it, are much more expensive than their non-organic counterparts. My point being, it is not about raising taxes on said items in SB 1289, it is educating household by household, though the school system and through the workplace.

The proposed SB 1289 does not address healthful choices through EDUCATION, which is the weakness of the bill itself. By charging manufacturers, distributors and the like a heavier tax on said items in SB 1289, it is making it increasingly difficult to conduct stable business in Hawaii. We are faced with the highest fuel and food costs in the nation. An uneducated consumer is not going to notice a price increase in their soda or beer, it is just going to make the uneducated consumer poorer, and the distributor and manufacturer less able to conduct stable business in Hawaii.

Please reconsider SB 1289. A tax increase on said items in SB 1289 will not achieve the desired result. Please consider rewriting the bill to address healthful choices thorough EDUCATION and recognizing and rewarding those businesses that support local products; produce, fish, beef, Hawaiian crafted food items, etc.

With Aloha,

Stephanie Krieger  
5179 Kahana St  
Kapaa, Hawaii, 96746

Testimony in OPPOSITION of SB1289 from Kai Vodka, LLC

Submitted by Amy Bender, Business Relations Manager

SB1289 has the potential to put Kai Vodka LLC, a small, locally owned company, out of business. Our small business already faces the challenge of surviving in a competitive market, dominated by big brands. The added burden of a 50% tax increase on our goods could disable Kai Vodka LLC, a local employer, from competing in a price-sensitive industry. I therefore strongly oppose SB1289 and urge Hawaii State Senators to vote against the detrimental bill.

**Sent:** Wednesday, February 23, 2011 1:57 PM  
**To:** WAM Testimony  
**Subject:** Re: Testimony on SB1289,SD1 - Hearing Feb 24 @ 9am

To Whom It May Concern:

We are a small distillery on Maui just starting to distribute our Hawaiian made rum. Increasing this tax could severely damage our small business. I hope you will consider the effect of this bill on the 5 small distilleries, two small wineries, and local beer manufacturers in our State. We are all trying to grow our businesses in this very competitive industry and hire more people. It is difficult enough for us to compete and grow against mainland alcohol manufactures whose cost of goods is much lower due to cheaper mainland labor and much lower freight costs. Please do not damage our business when we are just starting to make some headway after 10 years of effort.

At a minimum, please exempt Hawaiian beverage alcohol manufacturers from this tax. That would help us be more competitive against mainland brands, and since we are such a small portion of the total distilled spirits sold in the state, not diminish the increased State revenues generated by this tax hardly at all. We would get to create more jobs and grow our business under those circumstances.

Respectfully submitted,

Paul Case  
Kolani Distillers, LLC.  
Paia, Maui, Hi  
DSP-HI-32

Comments:

As a Master Sommelier I see this increase on alcohol taxes, especially in the guise of creating a healthier environment for the people of Hawaii to make a more informed decision as misled and punitive against the alcohol industry and they will result in the laying off of many jobs within the industry due to a drop in overall business.

The citizens of Hawaii are responsible enough to make their own decisions without the government trying to coerce them. It is common knowledge that alcohol can have deleterious effects when over-consumed. This hike in taxes will not 'inform' anyone any more of the effect of alcohol than common sense already does and has. It will only discourage people who are law abiding consumers of alcohol to lower their consumption and or cease consumption of alcohol altogether. This will have a direct impact on the jobs and families of workers in the Hawaiian alcohol industry. When wholesalers, distributors, importers, hotels, restaurants and retailers see their sales plummet as a result of this increase in taxes, they will have no recourse but to lay off workers. This is terrifying to me and my colleagues not only in Hawaii but around the country.

In addition, we all know how important our tourist industry is to the economic well-being of Hawaii. When our visitors come to our islands and see the inflated prices on alcoholic beverages in the restaurants, bars, hotels and stores, they will take a second thought in coming back or recommending it to their family and friends. They will see the less value in coming to Hawaii if their hard earned dollars cannot go as far as if they vacationed elsewhere. The result will be a decrease in visitor numbers and less revenue for private business as well as government. This again will directly impact our local economy by forcing business owners and government to re-evaluate their labor levels and ultimately force them to downsize due to the drop in business.

In the end the increase in alcohol tax will have a most negative effect on the economy of the state. Workers will be laid off and fewer visitors will come to Hawaii. I humbly urge you to rethink your position if you are in favor of this increase and to vote against it. Remember how your vote today will impact all of Hawaii and its people. Thank you for your time and civil service.

Comments:

Aloha Committee Members,

I strongly oppose SB1289 related to an increase in taxes on beer, wine & spirits for the following reasons:

- Beer taxes in Hawaii are among the highest in the nation and far exceed the national average. Beer and alcohol should not be singled to fund programs or fill budget shortfalls. Practical funding solutions should be fair and broad-based.
- Beer & alcohol excise taxes cost jobs. Any tax hike, regardless of the amount, will hurt consumers and businesses on every island and cost jobs. In this economy, we should be thinking about things that will increase economic prospects. Higher beer and alcohol excise taxes and reduced sales will negatively impact jobs in brewing, wholesaling, grocery and hospitality and have a negative broad ripple effect in other jobs that supply/support these businesses such as shipping, trucking, tourism and other services.
- Beer & alcohol taxes impact disposable income. Excise taxes are hidden taxes which get marked up several times causing it to be a much larger increase to the consumer.
- Nationally, beer excise taxes already add up to over \$5 billion. 44% of the price of beer is already taxes of some sort compared to all other consumer products which are less than 32%.
- Beer & alcohol excise taxes are inefficient. History shows that for every dollar raised in new excise taxes the net for the state is actually only about half. Excise taxes are hidden taxes which get marked up several times causing it to be much larger increase to the consumer. Compared to broad based taxes, beer and alcohol excise taxes damage the economy to a greater degree, reducing state revenues from many other sources.
- Beer & alcohol excise taxes are regressive. With higher costs on everything from filling the gas tank to paying for groceries, a higher beer tax is just one more burden that consumers with modest incomes can't afford. Beer excise taxes fall most severely on working men and women, an unfair group to single out to pay additional taxes. Lower income households pay, as a percent of their income, several times more than wealthier households.

For these reasons I urge you to oppose SB1289.

Mahalo,  
Rich Tucciarone

**Comments:**

Beer taxes in Hawaii are among the highest in the nation and far exceed the national average. The proposed tax increase will leave Hawaii with the highest beer tax rate in the nation by far. Beer and alcohol should not be singled to fund programs or fill budget shortfalls. It is bad for the consumer and bad for our local economy.

Comments:

We're already depressed from this ongoing economic hardships, rising fuel, food and materials costs, increased taxes, etc etc... So why the heck you guys want to tax us more for our "happy juice"? Need more money? Trim our government and spending!!! we have one of the highest gov't employee ratio per capita in the U.S. and many of them unproductive to boot. I know firsthand as I used to be one. Regards.

Comments:

The severity of the consequences of this tax increase will be staggering. Hawaii is already so incredibly above the national average for taxation, that even entertaining the notion of this drastic of a tax hike is ludicrous. Our economy is obviously highly driven by hospitality and tourism, and the fact is - spirits and beer are key components to the hospitality industry. Such price increases may very well lead consumers to cut back on the amount of discretionary spending they choose to engage in - and that is a losing situation for everyone.

**Comments:**

The restaurant industry alone attributes to many jobs in the State of Hawaii and the increase of such tax would lead to more closures of restaurants and we have lost enough! This doesn't account for the retail industry and the impact it will have on other industries since restaurants have impact on television stations, radio stations, insurance companies, food suppliers, beverage suppliers, printing companies, non profit organizations and much much more!

**Comments:**

Please don't approve this bill. We have had enough damage to small business here in Hawaii and need to support! I am financially devastated due to my business closing last year and want to be a voice for small business. Strongly OPPOSE!!!
