**LATE**

Comments:  
Aloha committee,  
The kai belongs to everyone. 35 year leases are already too long.  
mahalo,  
vk

**Comments:**

Letting this pass will have dire effects on the islands and the lives of the people forever. Please do not cloud the issue with the lure of economic benefit when the long term effects will out weigh the benefit. Protect the waters surrounding the islands as something are worth more than money. Being able to continue to swim in clean water with coral reefs is one of the major, if not the most important draw for tourism. No one wants to come to polluted waters. The developers say there is no proof that will happen, but once it does happen it is too late to take it back. What would be cost be then? Think about what you want for your own children, grandchildren and loved ones.
