Re: Hawaii State Legislature 2011 Regular Session: **SCR2**: Authorizing the issuance of a non-exclusive easement covering a portion of state submerged lands pursuant to section 17153, Hawaii revised statues, relating to reclamation and disposition of submerged or reclaimed public land for the following property.

Christine Ho, Owner

303 Front Street , Lahaina, HI

TMK# (2)4-6-003:Seaward 005

Aloha Senator Hee:

My name is Melanie Fabio. I am an employee of Westin Maui and have live in Maui for over 24 years. I've spent many wonderful moments with my good friends, Dan Regan and Christine Ho at 303 Front Street. The house is in major need of remodeling.

I ask you to **approve** this resolution for a 55-year non-exclusive easement. Remodeling and updating 303 Front Street would improve the quality of the neighborhood.

I thank you in advance for considering our request.

Mahalo,

Melanie Fabio

LATE TESTIMONY

SCR2 Testimony

Re: Christine Ho, Owner

303 Front Street , Lahaina, HI

Hawaii State Legislature 2011 Regular Session: SCR2: Authorizing the issuance of a non-exclusive easement covering a portion of state submerged lands pursuant to section 17153, Hawaii revised statues, relating to reclamation and disposition of submerged or reclaimed public land for the property at 303 Front Street, Lahaina, HI.

I, Cynthia Stemmer Denny, am in support of Christine Ho's request to obtain a "yes" vote in favor of the resolution to allow the 55 year non-exclusive easement covering a portion of state submerged lands pursuant to section 17153, HRS; relating to the reclamation and disposition of submerged or reclaimed public land abutting the property at 303 Front Street, Lahaina, HI.

This particular seawall as a predominant structure along the Lahaina coastline is extremely important for the preservation of land and property in this neighborhood. The wall contributes to the front line defense of an erosion control barrier in the protection of life and property against eminent danger attributed to future potential ocean tsunamis and turbulence. The coral reef in this area is our primary defense and the seawalls act as our secondary back up. Christine Ho is dedicated to the mission at hand.

Sincerely,

Cynthia Stemmer Denny
